Complete Entrance Solutions for Architects & Specifiers

ASSA ABLOY

ASSA ABLOY Entrance Systems

The global leader in door opening solutions

Professional Entrances
Professional Advice

For over half a century, ASSA ABLOY Entrance Systems has been providing the architectural community with professional advice and innovative and reliable automatic door solutions. Being part of the flourishing automated door industry since its infancy has allowed us to sharpen our skills while honing our expertise in the field to provide you with incomparable service and limitless possibilities. Our automated door specialists are dedicated to providing sustainable, efficient design solutions that balance the needs for aesthetics, convenience, safety and security. With our comprehensive approach to the flow of people, goods and vehicles, we pay attention to details, emphasize innovation and offer specialized solutions that meet the unique needs of our customers.

Our team's professional credentials rank us among the best in the industry:

- AIA | American Institute of Architects
- AHC | Architectural Hardware Consultants
- CDC | Certified Door Consultants
- CDT | Construction Document Technologies
- CSI | Construction Specifications Institute
- LEED®AP | LEED Accredited Professionals

Services

Our qualified staff can help you complete these critical and time-consuming deliverables for Division 8:

Schematic Design Phase:
- Integrated design
- Code Compliance Review
- Integrated Design and BIM (all project phases)

Design Development Phase:
- Survey and walkthrough of existing conditions
- Coordination with building systems and related trades
- Integrated & aesthetic design solutions

Construction Documents Phase:
- Non-proprietary Division 8 specifications
- Performance-based specifications
- Customized specifications for your project
- Door schedule review assistance

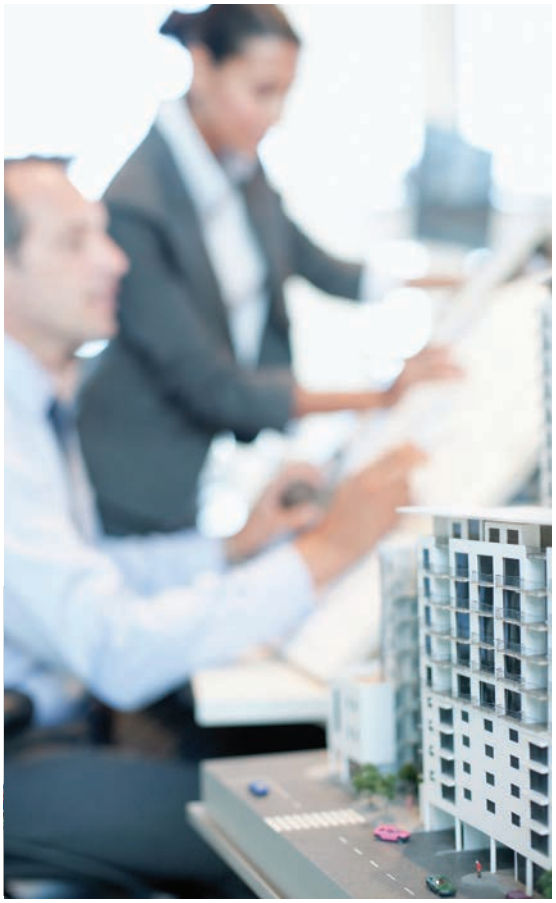

Construction Administration Phase:
- Review of shop drawings and submittals
- Jobsite inspections and punch lists
- Technical support

ASSA ABLOY, Besam, Crawford, TKO, Albany and Megadoor, as words and logotypes, are examples of trademarks owned by ASSA ABLOY Entrance Systems or companies within the ASSA ABLOY Group.

Education

Our team of automatic door experts provide you with the information you need to make the best decisions for your projects, and are able to help you with customized solutions and expert advice. As a registered AIA/CES and USGBC GBCI provider, we offer a variety of educational HSW, SD, and CE programs including the following:

- LEED consulting for Energy Efficient Entrances
- High Speed Door Overview
- Automatic Door Overview
- Revolving Door Overview
- ANSI Standards for Automatic Door Design
- Best Practices for Healthcare Design
- Architectural Detailing of Automatic Swing Door Operators
- Access Control for Sliding and Revolving Doors
- High Performance Sliding Doors for Blast and Hurricane resistance

"I appreciate the fact that I can call or email and receive a timely response to my inquiry. I have always felt comfortable when discussing details of a project, and finding the answer intelligible and sorted out. I enjoy conducting business with a group that I know enjoys their work, and are true professionals. It is for these reasons, product quality, and state of the art solutions that ASSA ABLOY Entrance Systems continues to be the Base Manufacturer in our Master Specifications."

Roland W. Horeis II
National Manager of Specifications,
HDR Architecture

Solutions

Doors may be the most intimate points of contact we have with a building. They should swing, revolve, or slide where needed, roll up fast or protect products when required, and they should be large enough to meet any and all needs. They should look great, defeat the heat, block the cold, be green, keep the peace, and make us safe. ASSA ABLOY Entrance Systems offers a more complete range of innovative and integrated door opening solutions than any other company on the market.

Pedestrian Solutions

- Sliding door solutions including overhead concealed, surface mount, telescopic and all glass
- Bomb blast resistance sliding doors compliant with UFC standards
- Hurricane resistant sliding door solutions for full and non impact applications
- Sustainable door solutions to reduce air infiltration and save energy costs
- ICU/CCU manual door systems to maximize clear door opening
- ICU/CCU Touchless automatic door systems, a truly hands-free sliding door
- Large diameter automatic 2 and 3 wing revolving doors
- Access control revolving doors in 1-way and 2-way configurations
- Swing door operators for pedestrian applications and hospital corridors
- Swing door operators for handicap access
- Anti-microbial coating

Commercial and Industrial Door Solutions

- Dock doors designed to provide optimal energy efficiency at a lower total cost of ownership
- Impactable dock doors for high-traffic loading areas
- Specialty R-23 dock doors specifically designed for cold storage environments
- High wind load dock doors to secure the door during high-wind events, Florida building code and Miami-Dade approved

High Performance Door Solutions

- High speed roll-up doors for high traffic, high cycle and high maintenance door applications
- Fast moving doors limit air infiltration and lower energy costs
- Hygienic, high speed doors for food processing and clean rooms
- Insulated, high speed cold storage doors
- High speed rubber doors for heavy industrial applications and extra-large openings
- Hurricane-resistant high speed roll-up doors for commercial and industrial applications
- High speed metal doors for high security areas, sally ports and parking garages
- Clear-paneled high speed doors for natural daylight and appealing aesthetics
- High speed machine protection doors for automated processes

Extreme Door Solutions

- Flexible design with almost no practical limits in size and configuration
- Solutions for aircraft hangars, big shipyard openings and truck shops and wash bays in mine environments
- Designed to optimize opening width and maximize the usage of the building's space
- Flexible design options lower energy consumption and reduce building size
- No additional area is required to accommodate the door opening
- Translucent fabric savors the natural light within the building, which in turn adds comfort to the work environment and saves energy by reducing the need for additional lightning.

Intelligent Products
Intelligent Support

ASSA ABLOY Entrance Systems offers solutions for retail, healthcare, transportation, public buildings, clean rooms and cold storage areas, to name a few. We produce a wide variety of entrances and we have the expertise to support you throughout the design process.

We have gathered a strong portfolio of global brands that are market leaders in their fields. With decades of experience, Besam, Crawford, TKO, Albany and Megadoor offer a comprehensive solution which forms a total offering for the front, back and interior of your building. With our combined approach, we understand the full range of challenges you face, and can provide the best solution to meet your total entrance needs.

ASSA ABLOY Entrance Systems SPECDESK

Simply contact the ASSA ABLOY Entrance Systems SpecDesk at 1-877-SPEC-123 or specdesk.na.aaes@assaabloy.com for an immediate response for application advice, plan review and 3-part specification development. You may also visit our web site at assaabloyentrance.us to view our product line and access individual brand websites to download specifications and drawings.

Sustainable Designs and Technology

Entrance automation is the first step to managing excessive energy usage. Our intelligent products provide a range of options to help minimize energy loss, improve indoor air quality, increase daylight, control air circulation, and optimize the overall energy performance of any building.

Maintenance and Modernization

Your clients will be glad to know that ASSA ABLOY Entrance Systems offers 24/7 service and Pro-Active Care maintenance agreements on all brands of automatic doors. This helps ensure energy-saving and regulatory compliance, while improving the overall lifecycle of our products.

ASSA ABLOY Entrance Systems is a leading supplier of entrance automation solutions for efficient flow of goods and people. With our globally recognized product brands Besam, Crawford, TKO, Albany and Megadoor, we offer products and services dedicated to satisfying end-user needs for safe, secure, convenient and sustainable operations. ASSA ABLOY Entrance Systems is a division within ASSA ABLOY.
