Kind Attn: Mr. Manoj Mishra ji

Thank you for your opportunity and trust shown on "NIHVA" your preferred partner for innovative solutions. This has reference to your above-mentioned requirement, please find below our Solutions.

Operational Technique

The whole framework, which is divided into pallets is made of **SS 316L/SS 304/GI** grade. These pallets are going to slide with the help of induction motor and gearbox towards the pit. One by one they will get stacked and pit assembly will move vertically down each time pallet enters. The system does not depend on hydraulic, pneumatic etc. It only works on electrical system with all logic connected through control panel.
