ALUCIT LOUVERED ROOF

Model: PERGO-Y

Turn Your Living Inside Out with the Perfect Addition to your Outdoor Living Space

Product Features

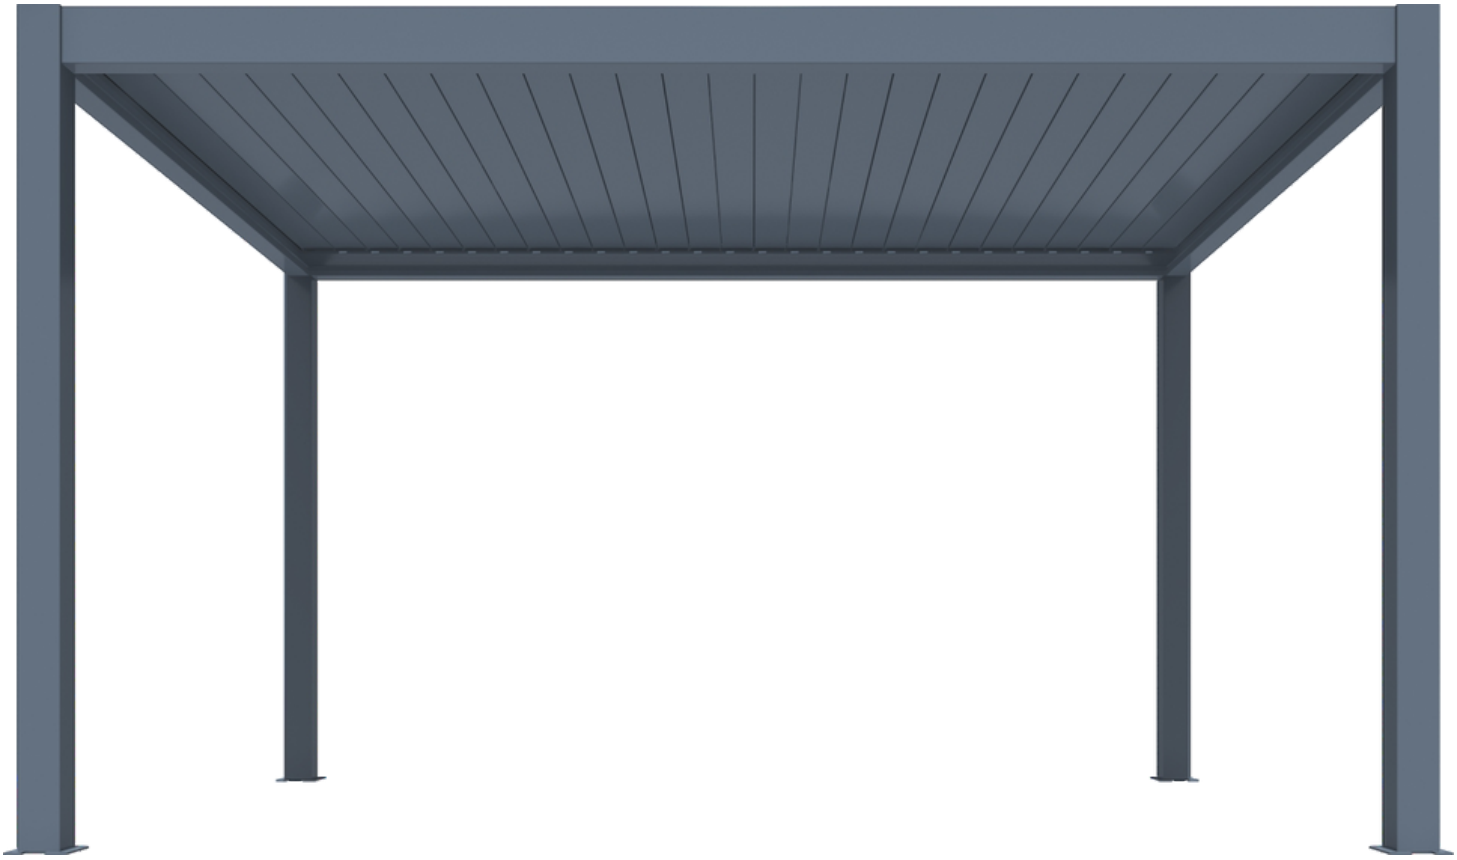

Create a luxurious, relaxing and entertaining space with our innovative aluminium Louvered Roof - Alucit Pergo-Y, available in a range of sizes.

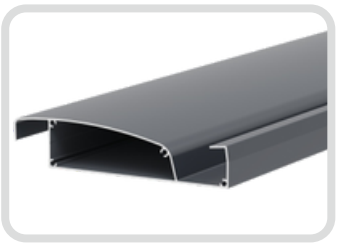

Alucit Pergo-Y Features

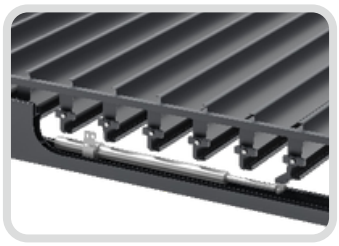

- Power-coated AkzoNobel aluminium with 5-years-warranty for outdoor discolouration
- Flat-ceiling Louver Blade with anti-sagging design for waterproofness
- Gutter incorporated with beam and single-sided control rod for quick assembly
- Each post comes with die-casting base cover to keep the base plate/anchor bolts invisible
- The post surface is flushed/smooth all the way up to the gutter top
- RGB LED Lighting around guttering could be optional for this model

Manual System

How it Works

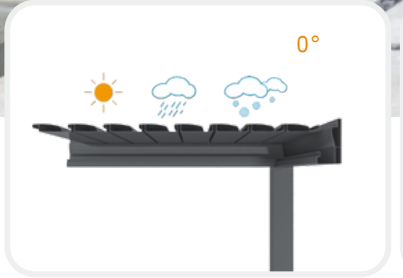

Open the louver roof to enjoy the perfect sun and close it to provide shelter.

▲ Opening ▲ Closing

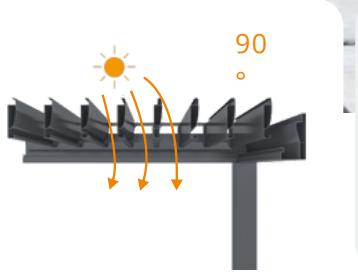

Louvers are designed such that they will interlock to keep out the water, hot sun and snow. Deep channels in each louvers carry water away to the in-built surrounding gutter.

Tilt the louvers like that, the sun is blocked and the fresh air can flush through the opening gaps.

With 100° opening angle, you can still enjoy the sunshine and sunset.

In the event of rain, our pergola is closed to provide complete protection. Water is channeled away directly through the internal drain hidden inside the post.

Optional Sizes

- 2.929 x 2.929m

- 2.929 x 5.672m

- 4.066 x 2.929m

- 4.066 x 5.672m

Optional Colors

● Dark Gray
