VilvaTech

ABOUT VILVATECH

- VilvaTech is started with a vision to bring smart IOT solutions to all the households in and around Thanjavur and Trichy regions. In addition, VilvaTech will provide energy efficient and Green energy solutions. VilvaTech has partnered with a handful of vendors, and is already engaging Hotels, Builders, Architects and many more institutions and organizations. VilvaTech is confident in expanding its network at great speeds.

- Our main focus is with automation that includes but not limited to appliances control, monitoring, surveillance, security, sensors, gate automation, sprinkler and water system automation. This spreads to energy efficient solutions such as LED lighting, and green energy solutions such as Solar and Windmill solutions. On top of this ecosystem, VilvaTech provides scheduling, mood settings, presence detections, voice controls and much more to make the solutions as fully automatic as possible.

- Our value add comes with our pre-validated solutions. We never install solutions that we have not validated to our fullest satisfaction. We educate customers on the available options and we tailor the solutions to match their needs. With our Automation Smarter, Safer, and more Convenient homes are guaranteed. With VilvaTech, “peace of mind” is guaranteed.

- VilvaTech is the pioneer in Home Automation for the Trichy and Thanjavur regions, to provide local 24/7 support. With our ever-increasing network, we are set up to succeed!
