B) Technical Specification

Sr .No.	Technical Specification
1	Full surround rubber doors seals, forms an impregnable barrier when doors are closed, maintaining positive pressure required by operating theatres.
2	Making it easier for busy staff and sick patients to move from one area to another.
3	Ensuring easier sterilization and aseptic operating conditions.
4	HPL 4 mm sheet thickness and door thickness is 60 mm.
5	Range of standard colors that will not fade, and maintain attractive appearance in all environments.
6	Save space with sliding doors - they do not require the additional opening space nor do they need to keep an area free around the door for opening space as they can be mounted flat against a wall.
7	Double glazed window included in door panel as standard.

C) General Conditions

1 Installation will start after receiving of Site Readyness Photographs or written Email communication.

2 We will mobilize the Installation Team in 3 - 4 working days, after reciept of Site Readyness Confirmation

3 For any reason if we need to stop our Installation and demobilize the Team without completing the Work, then extra cost will be applicable for Remobilizing the Team.

4 If Lifting Equipements are in NIHVA Scope, then those will be used for Installation purpose only and not for any other works.

Note: Please find below List which are in Client Scope
