Complete entrance solutions for controlled environments

ASSA ABLOY

ASSA ABLOY Entrance Systems

The global leader in door opening solutions

ASSA ABLOY Entrance Systems offers convenient automatic door solutions for safe, secure and sustainable operations.

ASSA ABLOY, Besam, Crawford, Albany and Megadoor, as words and logotypes, are examples of trademarks owned by ASSA ABLOY Entrance Systems or companies within the ASSA ABLOY Group..

A healthy understanding of what manufacturers need

Many manufacturers who use controlled environments face challenges when it comes to eliminating waste, reducing inefficiencies and cutting costs. However, one of the biggest opportunities for overall improvement exists in operations. Many times the entrances and exits are the first place to start updating a facility.

Pharmaceutical, life sciences, electronics, semiconductor and other clean manufacturing facilities face many challenges. As the world's most comprehensive supplier of entrance solutions, ASSA ABLOY Entrance Systems offers specialized products that allow you to gain control over hygienic environments, minimizing the risk of contamination and safeguarding valuable products and inventory. We understand how to:

- Achieve maximum efficiency in production
- Design entrances using innovative technology that reduce energy costs
- Meet stringent clean room requirements
- Maintain the integrity of manufacturing processes and keep workers and visitors safe

Proven solutions for laboratories and clean rooms

We will help you keep and maintain a controlled environment for your people, processes and equipment. Because of the materials we use and the quality construction of our products, we can focus our efforts on the following areas:

- Air filtration and sealing
- Cleanability
- Corrosion
- Security
- Safety
- Flexibility
- Production efficiency
- Energy cost savings

Our standards are as high as yours

The pharmaceutical manufacturing industry employs some of the highest standards for a facility and its operations. Our doors help you to meet the following regulations:

- ISO 14644-1 Classes 1 through 5
- Federal Cleanliness Standard Classes 1-100
- USDA, FDA, cGMP and EMEA requirements

Uniquely designed for your operation

Our specialized products can be a major factor in avoiding expensive cross-contamination and maintenance problems, as well as ensuring overall operational efficiency and safety in clean room environments. When it comes to the development process, you can feel confident when monitoring material transfer, air change rate, particle concentration, bacterial count and room pressure

Albany RR300 Clean high-speed door

Rated for clean rooms

Meets ISO Class 5 (US Federal standard 209E Class 100) and GMP Class C.

FDA certified PVC door panel
Transparent vinyl plus polyester monofilament woven double layer for greatest visibility and strength.

Fast speeds
Fast opening and closing speeds of 80" per second to control air exchange and reduce contaminants.

Contactless actuator
Simply wave your hand for faster, more hygienic operation.

Door design
Stainless steel side frame, motor and roll cove, and bottom profile.

Bottom bar
Minuscule gap between bottom profile and side columns minimizes pressure loss when door is closed.

Besam SL500 Clean Room sliding door

Rated for clean rooms

Meets ISO 3 (class 1).

Smart design
Equipped with 45 degree sloped 1/4" glass stops and non-shedding weather stripping for dust control.

Smooth and efficient operator
Low energy consumption, fast opening times and dual tandem carriage wheels for improved stability and performance.

Customizable
Adaptable and configurable design available in single slide or bi-part, full breakout or fixed sidelite.

Seamless integration
Overhead concealed or surface mount configurations available with flush header and 4" anti-riser derailment guides.

Secure access
Separate time delays for sensors and key access.

Besam SW200i swing door operator

Maximum strength

Designed to handle door weights of up to 700 pounds per operator.

Air pressure management
Intelligent air pressure management features include stack pressure compensation, intelligent trajectory control and extended closing torque (ECT).

Flexible configurations
Available in a variety of configurations including both surface mounted and overhead concealed and can be installed on either side of the door, for pull or push applications.

Latch retry
If the door does not latch when closing, the operator will detect this condition and immediately open the door to 10 degrees and execute two attempts to latch the door.

Security integration
Operator knows when the door is closed and can provide a signal for security monitoring.

Proof in action

ASSA ABLOY Entrance Systems has succeeded in meeting customer challenges in a variety of controlled environments applications. Here is a sampling of our installations.

We keep you operating smoothly

With customized support, planned maintenance and care provided by expert technicians at ASSA ABLOY Entrance Systems, you can stay in operation while protecting all of your key investments.

Aside from performing regular upkeep and maintenance, we provide recommendations for the proactive replacement of parts, find products that meet new safety standards and regulations, and suggest new upgrades and innovations to positively affect your business. We also offer 24/7 service on all makes and models of automatic doors, industrial doors and high-performance doors.

Make a plan for Pro-Active Care

Maintenance and service is about more than what you get, they are about what you avoid: failures, losses and unplanned interruptions.

ASSA ABLOY Entrance Systems works according to your needs, with tailored solutions that ensure the function and availability of your entrances.

One point of entry for all your needs

Smoothly functioning entrances are a prerequisite for businesses. To keep them functioning at optimal levels, look to ASSA ABLOY Entrance Systems to provide superior products, innovative solutions, and incomparable service for the front, back and interior of your building.

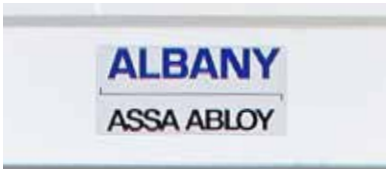

As the world's most comprehensive supplier of entrance automation products and services, we take an integrative approach to the flow of people, goods and vehicles, creating solutions with the best possible balance of cost, quality and lifetime performance.

Proven solutions and extraordinary service expertise

At our disposal is a strong portfolio of well-established brands, market leaders in their fields for decades and with a strong history of proven solutions and extraordinary service expertise. Today they are gathered under a single roof, at your disposal to meet all your requirements.

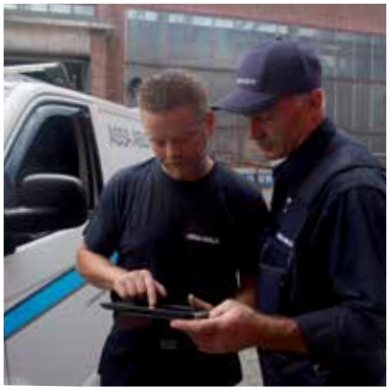

ASSA ABLOY Entrance Systems is a leading supplier of entrance automation solutions for efficient flow of goods and people. With our globally recognized product brands Besam, Crawford, Albany and Megadoor, we offer products and services dedicated to satisfying end-user needs for safe, secure, convenient and sustainable operations. ASSA ABLOY Entrance Systems is a division within ASSA ABLOY.
