Opening doors to business and life

ASSA ABLOY

ASSA ABLOY Entrance Systems

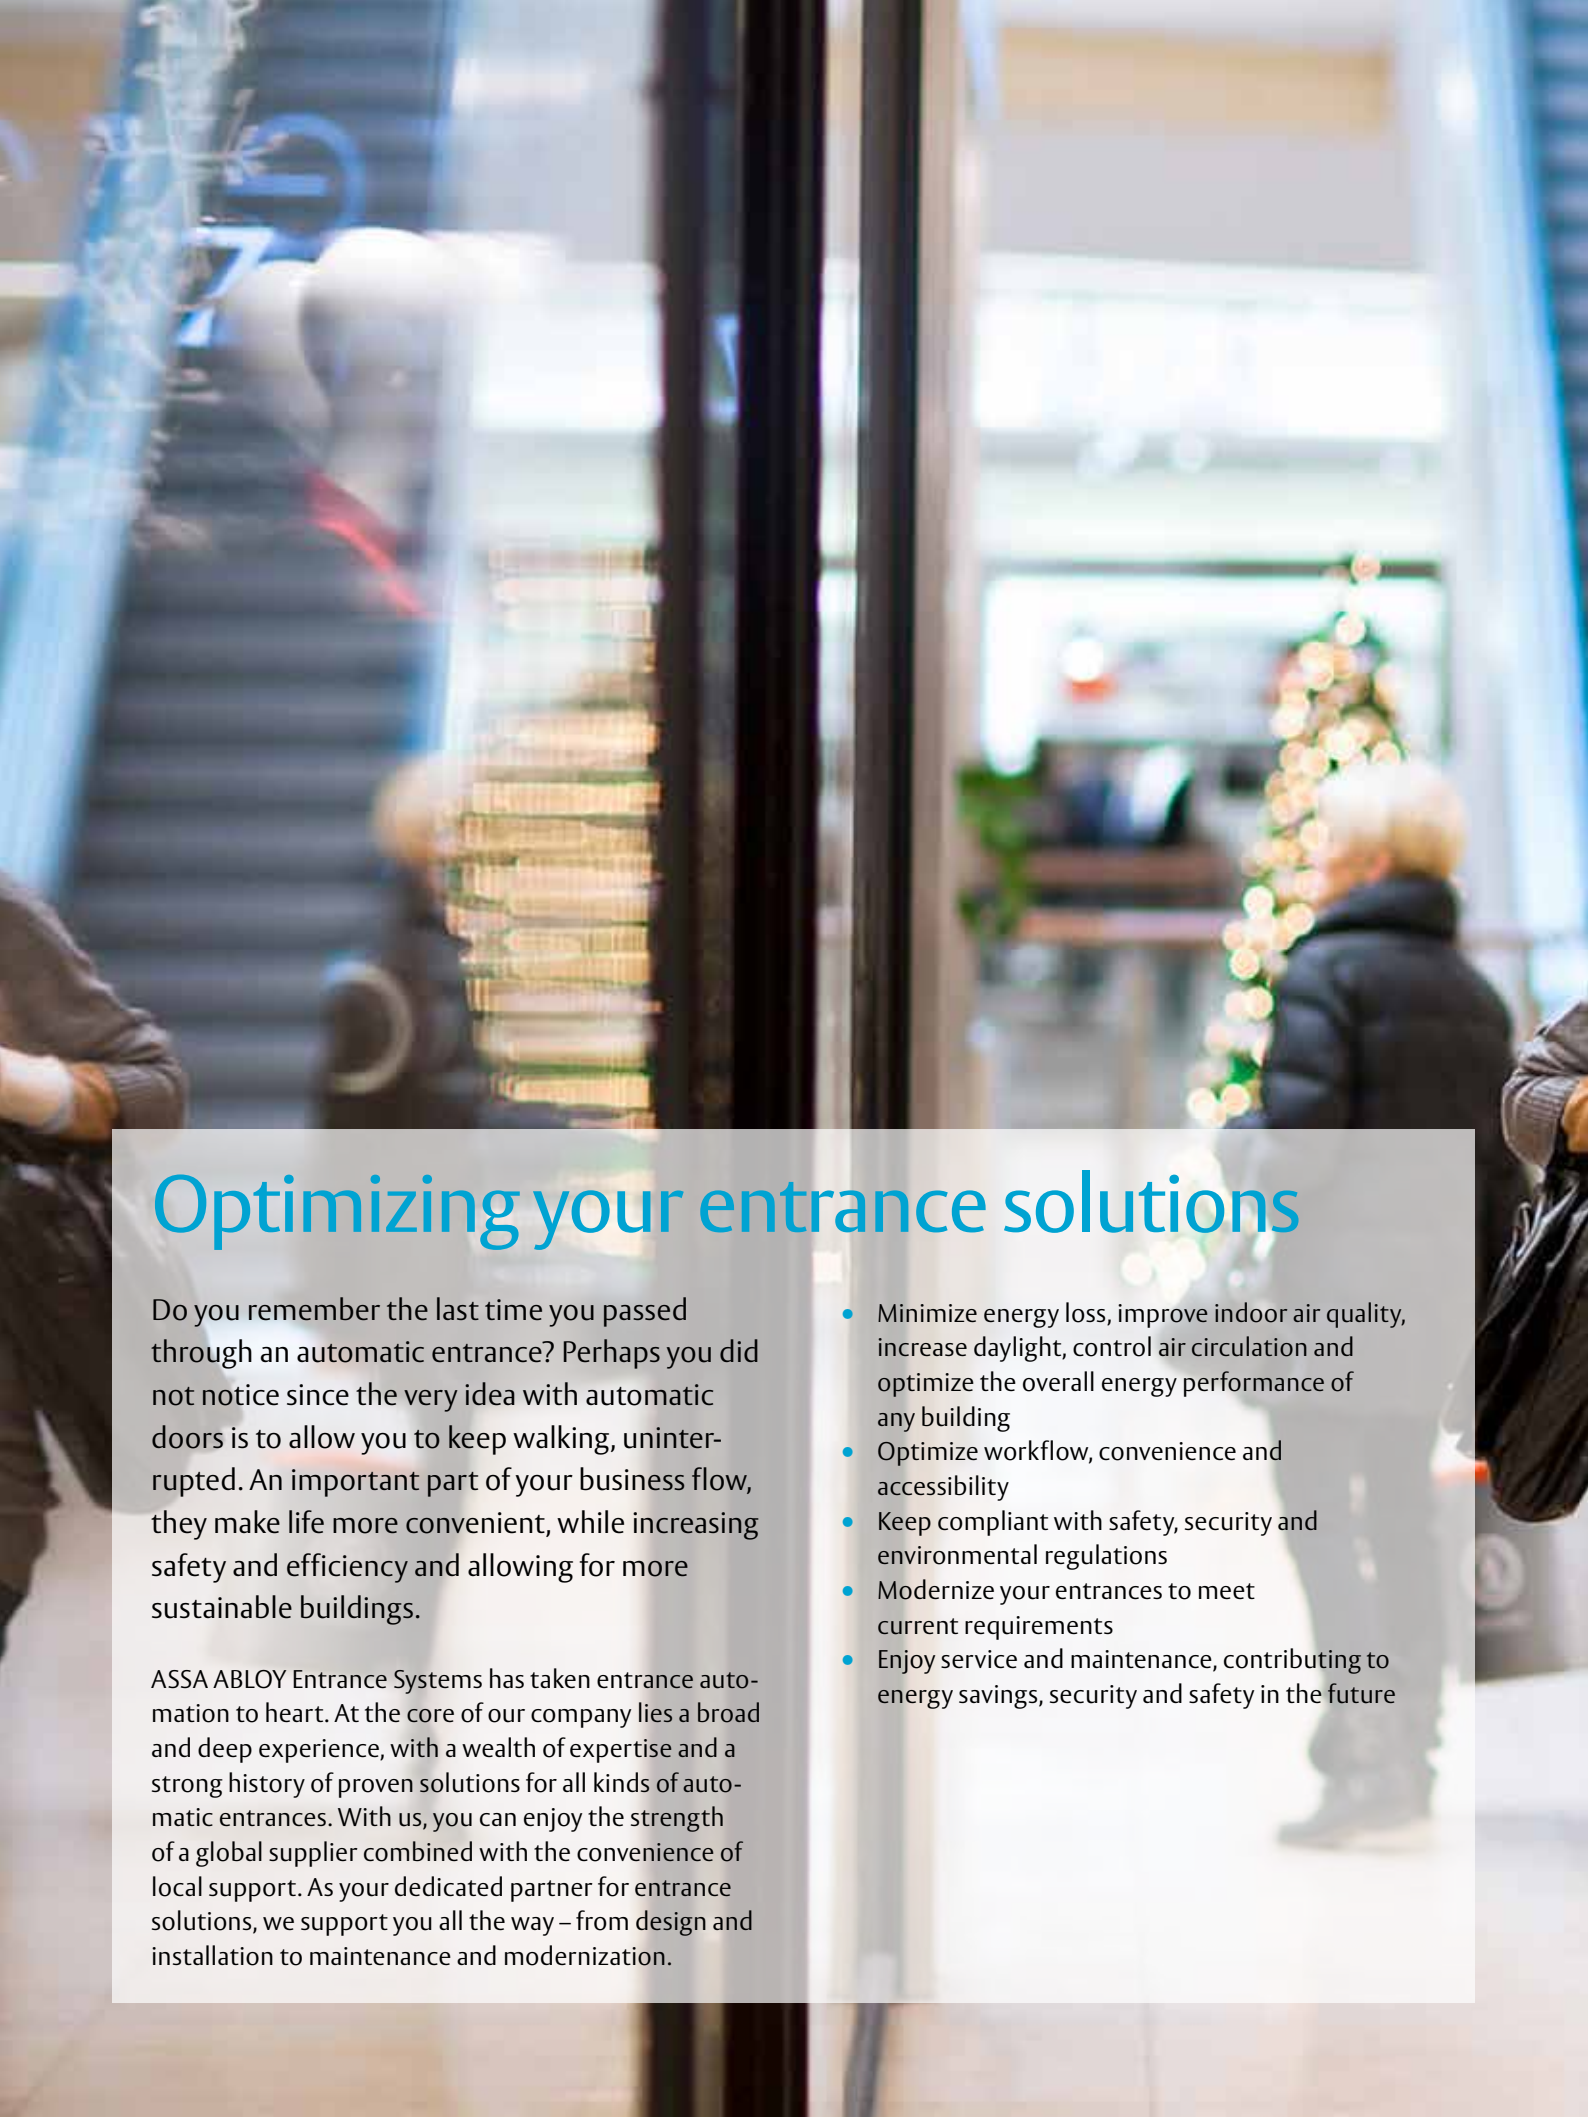

The global leader in door opening solutions

Optimizing your entrance solutions

Do you remember the last time you passed through an automatic entrance? Perhaps you did not notice since the very idea with automatic doors is to allow you to keep walking, uninterrupted. An important part of your business flow, they make life more convenient, while increasing safety and efficiency and allowing for more sustainable buildings.

ASSA ABLOY Entrance Systems has taken entrance automation to heart. At the core of our company lies a broad and deep experience, with a wealth of expertise and a strong history of proven solutions for all kinds of automatic entrances. With us, you can enjoy the strength of a global supplier combined with the convenience of local support. As your dedicated partner for entrance solutions, we support you all the way – from design and installation to maintenance and modernization.

- Minimize energy loss, improve indoor air quality, increase daylight, control air circulation and optimize the overall energy performance of any building
- Optimize workflow, convenience and accessibility
- Keep compliant with safety, security and environmental regulations
- Modernize your entrances to meet current requirements
- Enjoy service and maintenance, contributing to energy savings, security and safety in the future

Our product offering

Automatic doors

Improve and secure accessibility, safety and convenience in any building. Sliding-, swing- or revolving doors welcome visitors, guide traffic and preserve indoor climate zones.

Industrial & commercial doors

Facilitate logistics and increase safety with a better workflow. Overhead sectional doors, folding doors and vertical lifting fabric doors are available in a variety of configurations.

High-performance doors

These high-speed doors can improve efficiency, safety and hygiene in applications for intense operation and in demanding conditions.

Residential garage doors

Add the finishing touch to your new home or upgrade your old doors. Our residential overhead garage doors offer an unbeatable combination of style and performance.

Hangar doors

Vertical-lifting hangar doors are for massive openings that might be exposed to high wind loads, temperature extremes and harsh environments, such as the aviation, mining and shipyard industries.

Loading dock equipment

Levelers, shelters, loadhouses and other accessories make loading and unloading goods safer, more efficient and convenient.

Maintenance & Modernization

As entrances are part of your business flow, there is every reason to keep them working well. Rely on our team of experts to help ensure cost-effective, energy-efficient operation and uninterrupted entrance availability.

Complete entrance solutions

Retail

Where there is an intense flow of people and fast moving goods, efficient, safe and convenient entrances is a must. They also have to provide appropriate security and meet stringent safety regulations.

Distribution & logistics

Keep your goods moving smoothly with an automated doors. We offer everything from industrial doors, dock doors, dock shelters and dock levellers to complete loadhouses and high-performance doors.

Manufacturing

Automatic entrances can separate environments throughout your facility, minimizing contamination risks, maintaining temperatures and protecting staff and equipment, while maximizing production efficiency and reducing energy costs.

Healthcare

Automatic entrance solutions can be had at your main entrance, infection clinic, surgery area, X-ray rooms, operating theaters etc. These environments demand customized entrance solutions and dedicated service, providing safety and convenience for patients and visitors.

Transportation

High-traffic environments require both convenience and security. Automated doors with access control can create a secure and userfriendly division between public and restricted areas.

Hospitality

With large numbers of visitors, hotels must maintain very high standards for safety and convenience. Automated entrances create a comfortable, pleasing environment and can ensure safe evacuation during an emergency.

Private sector

Banks, office buildings and facility management organizations need every kind of door solution, from pleasing entrances for visitors to sophisticated security for employees.

Public sector

From government buildings to sports arenas, entrances should enhance the visitor experience while providing convenience and safety for the staff.

Heavy industry and mining

Our solutions cover almost any opening, including applications that face incredibly tough requirements: dozens of opening cycles per day, gritty, dirty, often corrosive environments, as well as extreme weather and temperature conditions.

Aviation

The entrances must fill massive openings and be able to handle exposure to high wind loads and harsh environments. Our hangar doors are an excellent choice for new door installations and for upgrading older hangars.

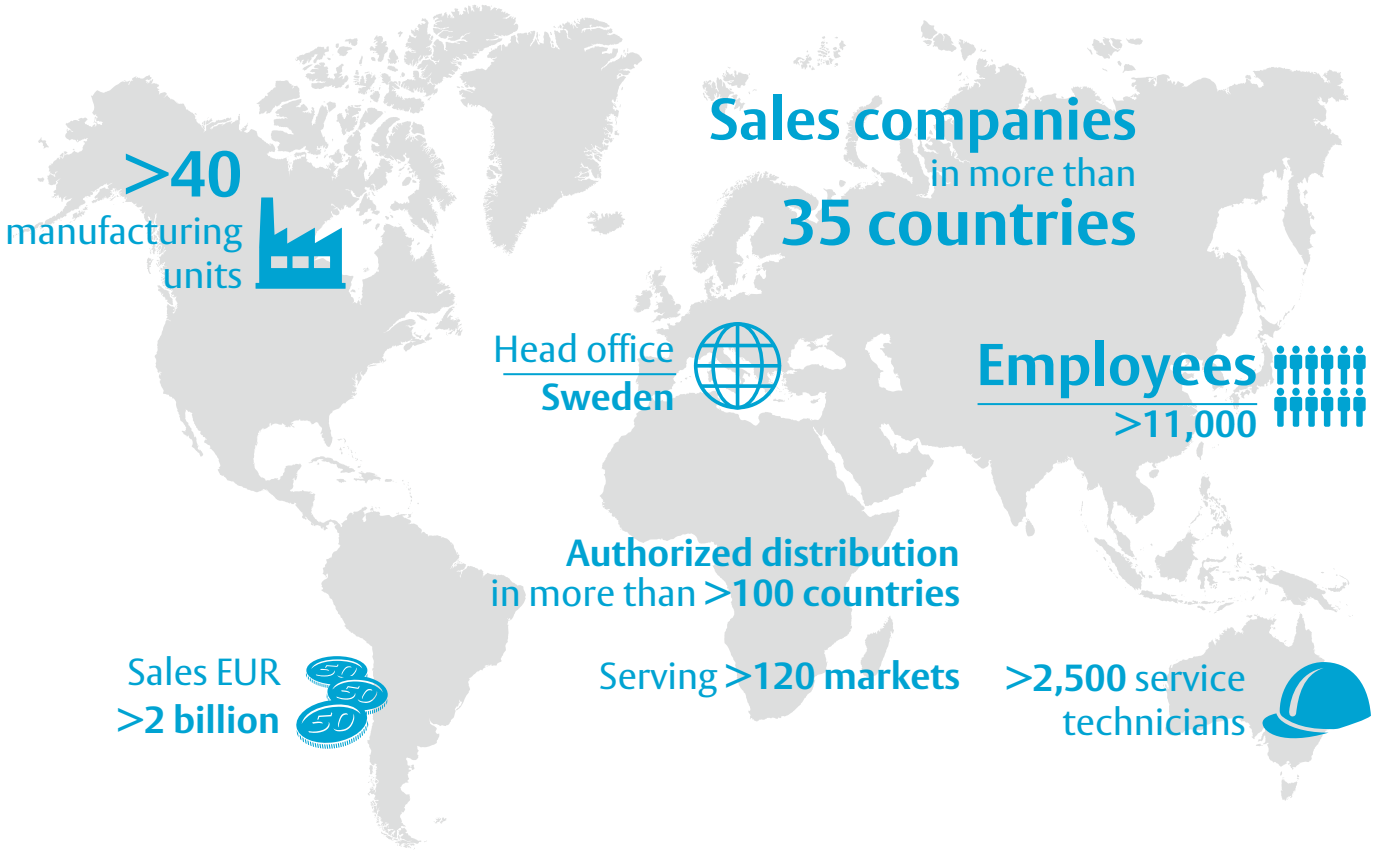

Shipyards

Your doors should withstand harsh coastal environments, while providing sustainable comfort inside, no matter how large the entrance. Our solutions for shipyards offer superior durability and substantial energy savings.
