Unless otherwise explicitly agreed in writing by BENTELER, the BENTELER Purchase Conditions (Global Procurement - BENTELER International AG) shall apply to all orders made to Contractor by BENTELER and any delivery by Contractor to BENTELER. If the parties agree on an individual contract, the provisions thereof shall take priority in case of contradictions.
BENTELER rejects any other conditions of sale or other terms and conditions of the Contractor, unless BENTELER specifically accepts such in writing. Silence by BENTELER does not constitute acceptance. The BENTELER Purchase Conditions shall also apply even if BENTELER unconditionally accepts a delivery by the Contractor whilst being aware of conflicting conditions of sale or terms and conditions proposed by the Contractor.
The same applies for the following Compliance document: Supplier Code of Conducts (SCoC, availble via internet: https://www.benteler.com/en/global-procurement/), which is - in its current version - an integral part of the business relationship and must be complied with by the Contractor.

Please visit the BENTELER website for a copy of the Procurement Terms and Conditions.
