GMV Quality and Certifications

- GMV quality systems are certified. Moreover, GMV has introduced the "Six Sigma" quality philosophy, to ensure and check by testing the quality output of its products.
- GMV offers its customers the best products and all of the know-how acquired in almost sixty years of activity, and which keep 800,000 elevators operational worldwide.

Introduction

NCN Lifts Company Profile

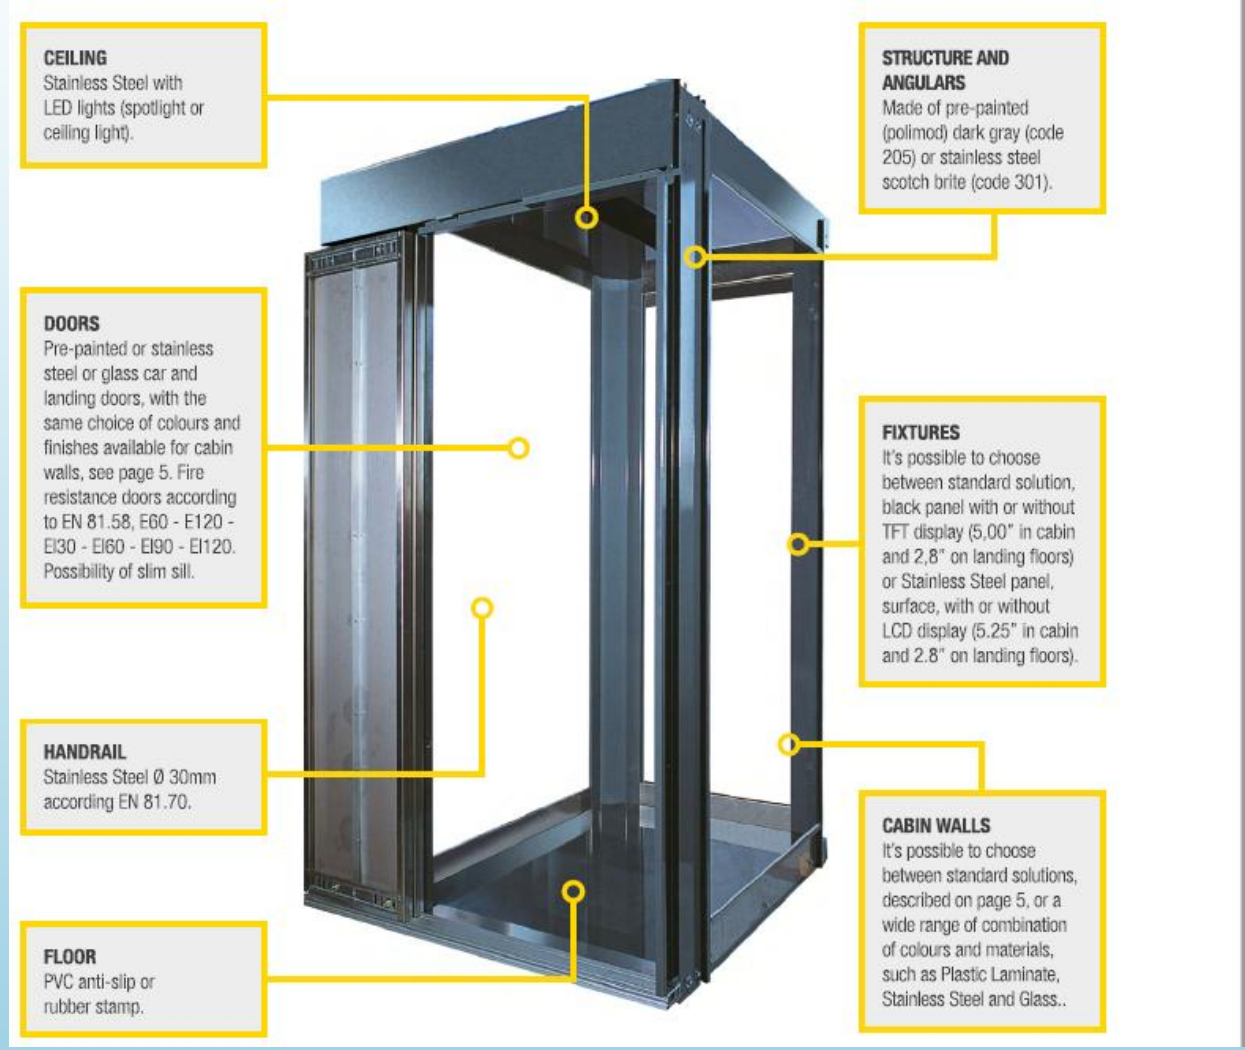

ADVANTAGES

- Clients can rest assured that they will invest in a safe, reliable and quality product and time tested product.
- Unlike multinationals that use technologies such as belts that force the client to maintain the lift with the them, NCN Lifts Trading partnered with GMV, because the lifts can be maintained by any lift company. The customer is hence free to select the most economic service provider.
- NCN Lifts meets with the customer and discusses in detail the scope of work so that there is clarity in supply leading to customer satisfaction after the elevator is supplied

Our Expertise

Finishes

- You as a customer can choose from a wide range of factory finishes, or select your own finishes to match your choice.
- The finishes subcontractor in the UAE are the same subcontractors used by the multinational elevator companies for important projects Burj Khalifa, “H” Hotel etc. in Dubai, and Central Market in Abu Dhabi and all other projects with local finishes in the UAE.
- Customers can choose from a wide range of panoramic lift cars, glass cabin doors and cabin walls in glass, to match the aesthetics in the villa

Our Products and Services

INSTALLATION

Our Core Competence

•Understand the customer requirement and Match customer expectations

• Faster response time

•On Time Delivery, Quality Installation, Focus on Safety

•Proper coordination with other trades

•Utilizes same “professional installation companies” used by multinationals for installation of lifts in the UAE

Our Products and Services

Maintenance

•Our product design requires only 4 maintenance visits in a year thus ensuring minimal disruption to clients.

• We have partnered with companies having industry professional experience to provide the highest quality of maintenance service in accordance with the manufacture’s recommendations

•Predictive maintenance ensures minimal breakdowns and high reliability

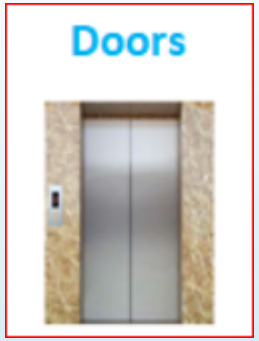

Our Products and Services

Best in Class Materials

- Pistons and valve blocks supplied from GMV Europe for process controls to ensure safety, quality and reliability
- Doors with fire rating to suit customers desired fire rating criteria
- Highest quality guide rails to ensure smooth riding comfort and compliance with EN-81 guidelines
- Leveraging the Engineering Expertise of GMV the #1 hydraulic lift company in the world that has over 810,000 lifts operating with GMV technology in 23 nations globally

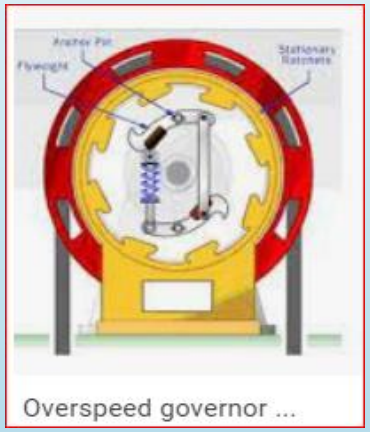

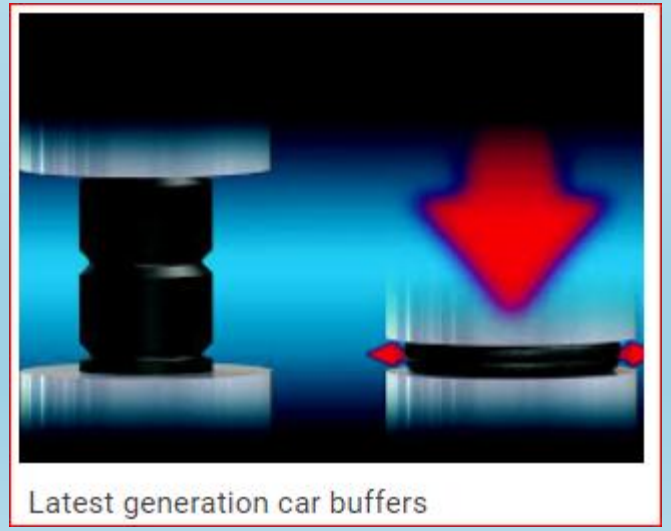

Our Strengths

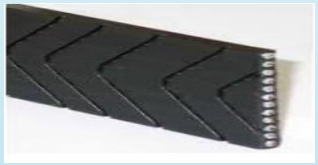

ADVANTAGES

➢Companies supplying traction lifts use proprietary equipment such as belts. This forces you to enter into a maintenance contract at prices dictated by them. GMV hydraulic lifts can be maintained easily by any maintenance company of your choice.

➢Expensive electronic drive units supplied by traction lift suppliers have a limited life span averaging 8 years and become obsolete. Traction lift companies will not have spares and will ask you to buy new drive units at your cost to keep your lift in operation. GMV being a hydraulic system assures availability of spare parts throughout the life of the equipment thus saving costs of expensive replacements.

➢Hydraulic lifts are practically noiseless compared to traction lifts

Proprietary and items that get obsolete
