M/s. NICOFREE

1) Mr. Darshan Ishiras

2) Mr. Sahil.

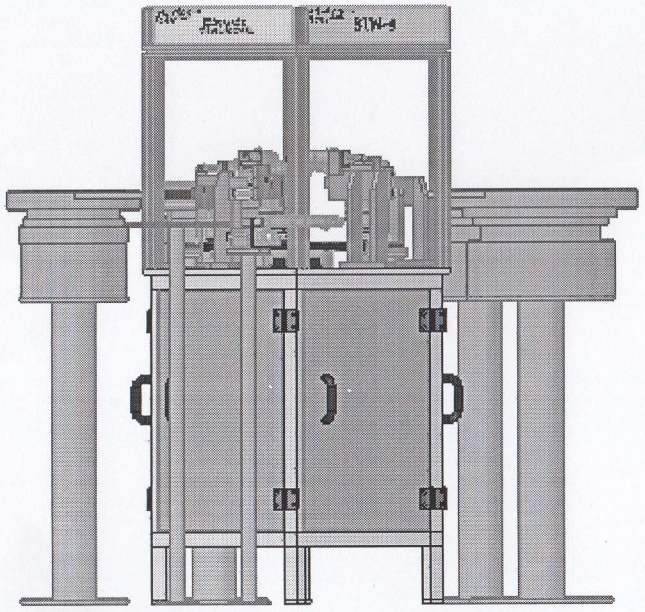

M/s. NIHVA

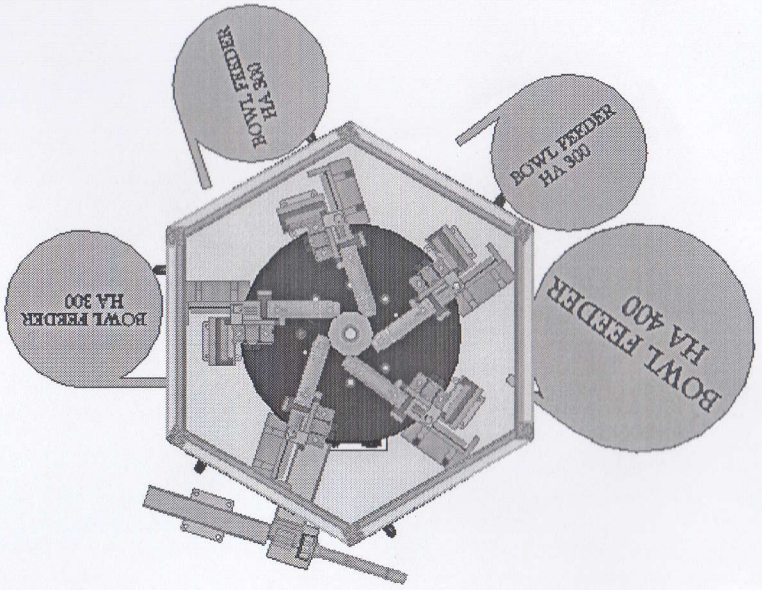

1) Mr Vijay —

2) Mr. Vipul —

3) Mr Mayer —

NICOFREE FILTER ASSEMBLY LINE

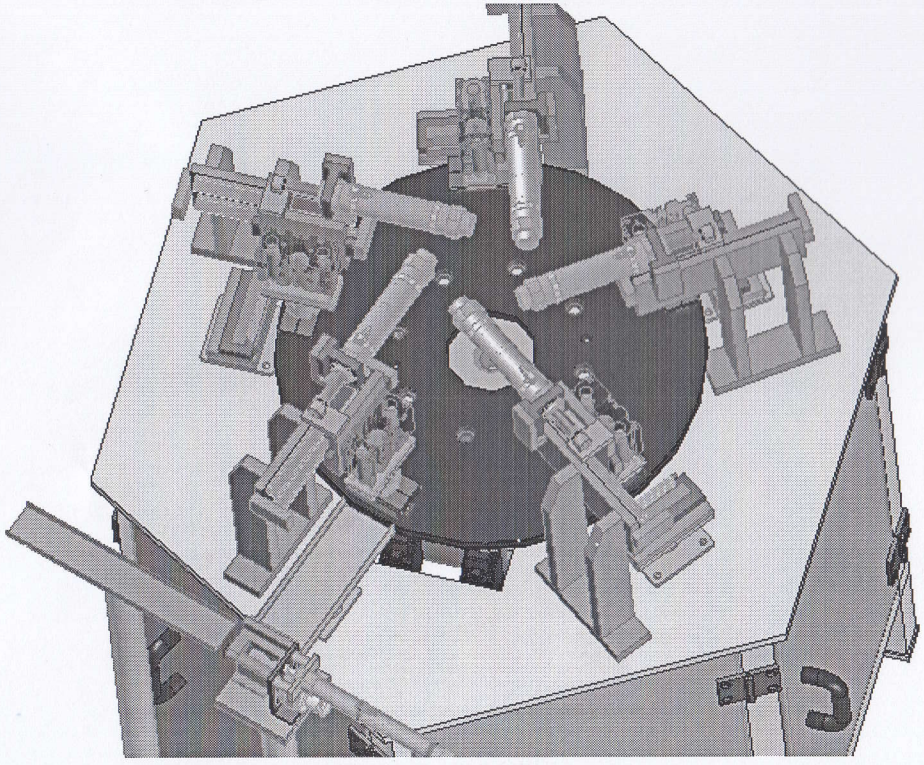

- Overall Concept of the machine is OK and can proceed for manufacturing.
- Production Volume maximum achievable is 900 packets/hour.
- Recommended certain changes at component level as mentioned below
  - → Center piece OD to be reduced in order to reduce the pressing force
  - → Tray modification in order to hold through suction cups
  - → Box Edges to be made thinner for easier folding.
