CANTILEVER BEAM LOAD CELL FOR HARSH INDUSTRIAL ENVIRONMENTS

capacities 5kg - 500kg

This fully welded stainless steel bending beam load cell is hermetically sealed to IP68 / IP69K and can be used in the harshest industrial environments. It is suitable for weighing platforms, bag fillers, belt weighers and tank weighing in the Food Processing, Chemical, Pharmaceutical and general Bulk Handling industries.

OIML C3 or C6 approved versions are available. A 6 wire cable (with sense wires) is supplied as standard.

T66 load cells are available with ATEX certification for all Gas and Dust zones. ATEX certification for Dust zones 20, 21 and 22 does not require safety barriers, saving substantial cost.

For applications in aggressive environments where stress corrosion or acid attack is an issue, a special Parylene coating can be specified as an option. High temperature variants for continuous operation in environments up to 150˚C are also available.

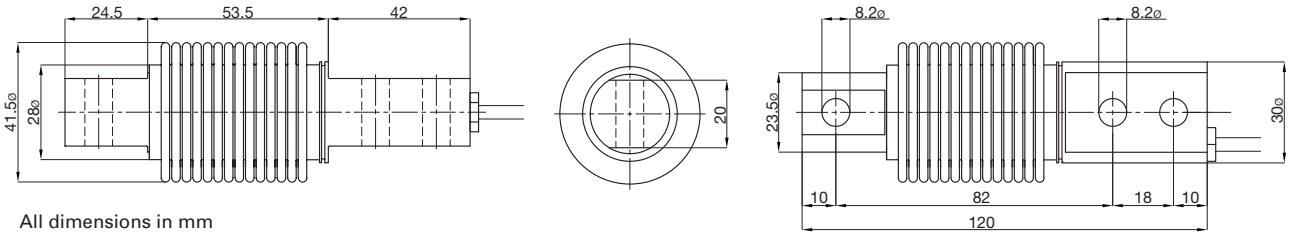

- Stainless steel load sensor
- Hermetically sealed, fully welded construction
- High durability Polyurethane cable
- IP68 / IP69K Protection
- 3000 divisions OIML R60 Class C
- Option: 6000 divisions OIML R60 Class C
- 5 year warranty
- High Integrity cable entry
- 4 wire option available according to order
- Available in high temperature version
- Available in Ex version
- Available with optional Parylene coating

6 Wire Connection (C3 or C6)

4 Wire Connection (C3 only) – available on request

Electrical Connections

Via 6 wire, 5.7mm diameter, screened polyurethane cable. C3 version is available with 4 wire cable on request.
Screen not connected electrically to load cell.

Construction

Load cell manufactured from stainless steel.

Mounting Options

- Stainless steel baseplate
- Anti-Vibration assembly LA66
- LeverMount® Lite mounting accessory
- Tension Accessory LA66-TENSION
