FIRE BALL EXTINGUISHER

Introduction

Fire Ball Extinguisher

"The simplest and fastest way to extinguish fire."

Fire Ball Extinguisher is a ball shaped fire extinguisher. When in contact with fire, it will activate within 3 seconds and effectively disperse-extinguishing chemicals. When a fire occurs and no one is present, Fire Ball Extinguisher will self-activate when it comes into contact with fire and give a loud noise as a fire alarm. There is no special training or skill required to operate the ball and no need to face the dangers of the fire.

Specification

- Weighs only 1.3kg
- 150mm dia
- Suitable for any common fire – Class A-B-C-E-F
- 5 Years product shelf life and warranty*
- No annual service or inspection and maintenance required for 5 years
- Operational 24/7 when in primary static use
- Non-toxic and environmentally friendly 94%MAP dry chemical powder
- Low to no corrosion on electrical equipment
- Warning audio signal: 120 db (Impulsive noise)
- Box content: Comes with stand and fixing screws.

Fire Fighting Problems

Have you ever recognized that 90% of ordinary people cannot use fire-extinguishing equipment when they are facing a real Fire situation.

Are you one of those people, who have found themselves unable to use fire extinguishing equipment in real fire situation because of the following reasons?

You lack training on proper effective use.

Its bulky and heavy weight makes it difficult to carry and aim when it is some distance from the fire.

You need to get close to the fire and exposed to smoke and heat problems.

You panic when facing the causing yourself to forget how to use the equipment.

Overcoming the problems

The Revolution of Fire Ball Extinguisher offers you advantages that exceed the conventional methods.

Light weight- of less than +- 1.5 kg, good even for women, children and elderly pepople.

Easy use - Just throw it into the fire or install it in any fire risk areas.

Safe

- No need to get close to the fire.
- Non-toxic to the environment. Fire Extinguishing Ball is made from human and environmental friendly materials.
- The outward driving force from activation of the ball does not harm to human and environment.

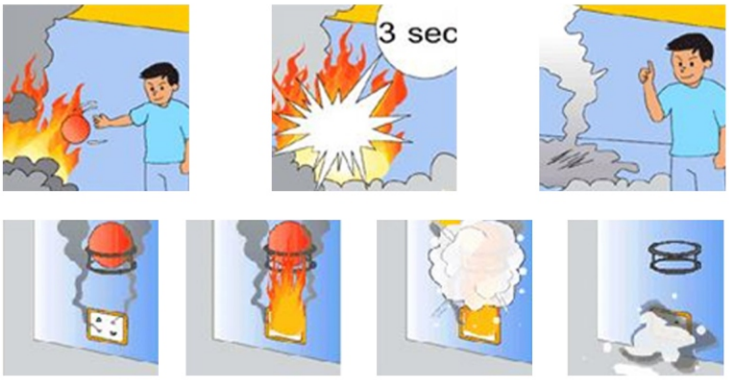

Safe for a period of 5 years without maintenance required, always on guard for you with its unique capability to emit loud noise of less than 140 dB as a fire alarm upon activation.

How to use Fire Extinguishing Ball

(Active Use) Throwing Fire Extinguishing Ball into the fire - When a fire erupts. take the nearest avalable Fire Extinguishing Ball and simply throw it into the fire. The ball will naturally fall into the base of the flame, where it is most needed, and activate eithin 3 seconds. No need to pull pins, or to get close to to the fire, No special tranining or skills required.

(Passive Use) Self Activating Mount

One of the great benefits of Fire Ball Extinguisher is the fact that it can self activate in the presence of fire when no-one is present. If positioned in the appropriate thigh-risk area and inaccessible areas where most fires are likely to start, it will self activate upon reaching the appropriate temperature and extinguish the fire.

Fire Extinguishing Ball best serves for everywhere

• Fire Ball Extinguisher can be placed on a shelf top, tabletop, along the hallway or any visible area of easy access.
• Fire Ball Extinguisher is best mounted in high risk areas such as kitchens, electrical circuit breakers, overloaded electrical outlets, or near fireplaces.
