P7 (P935060 00001): Reversible hydraulic operator for swing gates up to 7m. 500 kg in weight. Cycle time 42+ slow down sec. Useful travel 390mm max. angle 123°.

TECHNICAL SPECIFICATIONS: Mod. P7

Power supply	220-230V 50/60Hz(*)
Motor	2800min-1
Absorbed power	250W
Capacitor	8µF
Absorbed current	1.1A
Max. pressure	5MPa (50bar) - 4MPa (40bar)
Pump capacity	0.6l/min - 0.9l/min
Pushing force	8000N - 6500N

Towing force	6500N - 5200N
Opening time (working stroke)	45s - 30s
Closing time (working stroke)	42s+slow-down - s 28s+slow-down
Type of lock	Electric lock
Max leaf length	7m - 4.5m
Max. leaf weight	5000N (~500kg)
Working stroke	390mm
Slow-down stroke	20mm
Mechanical slow-down	On closing
Manoeuvres in 24 hours	500
Impact reaction	Hydraulic clutch
Manual manoeuvre	Release key
Thermal protection	160°C
Environmental conditions	-10°C / +60°C
Degree of protection	IP55
Controller weight	122.5N (~12.25kg)
Oil	Idrolux (3 litres)
