General Terms & Conditions

1. Scope of work under this PO covers supply of ordered material within time, in right quantity and at agreed price as per PO. Send us your order confirmation within 7 days of issuance of this PO. If not received within 7 days then it is deemed that, PO is accepted in its all respect.

2. Whenever attachments forms part of PO, the same is applicable to PO.

3. Price of material specified in PO is firm until fulfillment of all obligations under this PO. Price in PO is inclusive of Packing, freight and Insurance unless specifically agreed and communicated.

4. Any Offer/rate contract other than mentioned in this PO, unless explicitly agreed and communicated, is not applicable to any supply under this PO.

5. Please note that delivery date mentioned in this PO, unless otherwise communicated or agreed, is the receipt date at our works.Please plan your ex-works dispatches accordingly. Unless specifically communicated or instructed, our store receives material between 09:00 AM TO 5:30 PM. Supplier shall ensure that transport vehicle has valid PUC and driver is having valid license.

6. In case of LC, if LC needs to be extended due to any reason from supplier side then cost of LC extension has to be borne by supplier.

7. Immediately after shipment, supplier must send the dispatch information by e-mail. In case of suppliers outside India, supplier must send e-mail with following shipping documents,

    a. Invoice mentioning HS code of each line item (commercial & customs if different)

    b. Packing List

    c. Bill Of Lading / Airway Bill

    d. Certificate of origin

    e. Test Certificate

    f. Product Catalogue and Operation Manual

    Mail also must be send to pawan.pathak@transformerindia.com.

8. For unloading of material & accounting of Invoices, supplier must ensure that following documents are sent strictly along with material (must not send by courier).

    a. Invoice (commercial & customs if different) mentioning GST number of T&R

    b. Packing List

    c. Bill Of Lading or Airway Bill

    d. Certificate of origin

    e. Test Certificate

    f. Whenever agreed, Calibration Certificate to be submitted for all the ranges as per relevant IEC standards g. Product Catalogue

    g. Self Certification stating supply of items fulfill all technical parameters as per your offer .

    h. Warranty Certificate

i. Transit Insurance Certificate in case of CNF, CIP, DDP and CIF delivery terms.

j. IPPC Fumigation Certificate in case wood is used for packing.

k. Along with the above mentioned original shipping documents, a copy of Operation and Maintenance Manual in English language shall be sent.

9. PACKING SPECIFICATION(S): Packing boxes / cases for road / sea / air shipment should be sturdy enough to prevent cargo damage & deterioration due to dust and moisture ingress during transit. All packing material should be environmentally friendly and shall comply with IPPC standards. Certificate required.

10. T&R is complying with requirements of ISO 14001:2015 and ISO 45001:2018 hence supplier shall,

a. Obtain purchaser's EHS policy (Document no. IMS-704C002).

b. Adhere to supplier code of conduct (Document no. IMS-804C005)

c. ensure that necessary PPE is provided and used together with safety equipment whenever working at site

11. Quality of material to be supplied under this PO, shall strictly meet the material specification as per our PO/specification document / customer specification / customer approved MQP / approved DRG. / GTP / relevant quality standard like IS, IEC, CBIP etc. Supplier shall,

a. adhere to the co-relevance amongst different specification documents

b. bring in to notice any anomalies amongst them

c. seek clarity from purchaser before proceeding further

12. Supplier will have to perform internal quality checks in line with point no. 11 and confirm the quality of material supplied, by issuing test certificate along with material. Test certificate must have clear mention of all applicable references indicated in point 11.

13. MATERIAL SAFETY DATA SHEET (MSDS): Wherever applicable, you will submit certificate as per International Maritime Dangerous Goods (IMDG) for smooth shipment of consignment till it is delivered to us.

14. Material inspection in general is sole responsibility of the supplier. However, wherever inspection by T & R-quality / customer is required, separate communication (by any mode) shall be made. In such cases supplier shall raise inspection call at least 2 weeks in advance. It has to be 45 days for all overseas suppliers.

15. Unless otherwise agreed, in case of inspection by T & R - quality / customer at your premises, formal instruction (in any written form) for release to dispatch, has to be obtained before dispatch of material.

16. Unless otherwise agreed, supplier has to lift the rejected material at their own cost and risk within 7 working days from information of rejection of material. Immediate replacement of right quality material is one of the essential parameters in their evaluation.

17. Any T & R drawings / specification / documents / tools / dies given to supplier which is necessary for execution of the PO, shall be kept strictly confidential by the supplier & shall be used only for desired purpose. On demand, supplier shall return the same to T&R.

18. Warranty period unless explicitly agreed for, will be 12 months from the date of commissioning of product or on back to back basis, whichever is higher. Any repair or replacement, at our works or at site within warranty period, will be done by vendor at their cost. In case of problem reported to vendor, it is expressly understood that, necessary service & spares will be made available within shortest possible time. Guarantee period starts again after successful repairing / replacement.

19. COMMUNICATION: Communication between us should be in English Language Only. You will identify an Executive within your company for communication between us in English on this Purchase Order. Mail communication must be sent to concern Purchaser.

20. AFTER SALES SERVICE SUPPORT: After expiry of Warrantee Period, you will support and provide us after sales services and spares for proper working and maintenance of the equipment for a period of minimum 6 (six) years.
