

Distribution & Logistics: Granit Bau, Austria

Construction and project management

"Perfection in quality, project and time management – that's why we rely on ASSA ABLOY Entrance Systems as our experienced and reliable partner!"

"Optimal project management – 25 loadhouses in just 25 days"

Granit Bau in Graz, Austria, is one of the largest general contractors in Austria. In recent years, with its top-quality professional expertise and by placing a high value on continuity and customer satisfaction, Granit Bau has expanded throughout Austria.

For Granit Bau, a successful construction project calls for the project management approach of a well-established manufacturer. This involves strict compliance with deadlines, in order to rule out any delays from the start and complete projects on time.

This goal was achievable with ASSA ABLOY Entrance Systems, resulting in 25 Crawford loadhouses at the Graz Cargo Center being built and successfully brought into service within three weeks, with maximum security standards and professional logistics solutions.

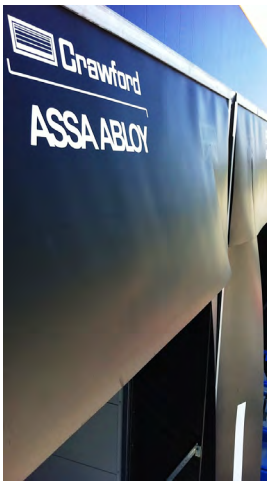

The criteria for success summed up:

- Joint development of timetables and project plans
- Delivery on time
- ASSA ABLOY Entrance Systems' long-term experience of project management
- No delays in construction

ASSA ABLOY Entrance Systems is a leading supplier of entrance automation solutions for efficient flow of goods and people. With our globally recognized product brands Besam, Crawford, Megadoor and Albany, we offer products and services dedicated to satisfying end-user needs for safe, secure, convenient and sustainable operations.
