NIHVA

NIHVA Technologies Pvt. Ltd.

Automation Solutions

We Make Possible…!

Mission & Vision

NIHVA
NIHVA TECHNOLOGIES PVT. LTD.

- Nihva Technologies Automation solutions is one step solution provider for all automation needs of customer.
- Our Mission is to provide optimized & integrated solution & services to industries using leading edge information, communication, automation & technologies .
- Our vision is to be a leader in the field of Automation Solutions through regular developments, quality services by meeting total customer satisfaction to help our customer to achieve their business targets by adding operational intelligences.
- We are determined to use leading edge technology , years of experience & knowledge in providing innovative solutions delivering High return on investments.

NIHVA
NIHVA TECHNOLOGIES PVT. LTD.

Why to Choose

- 8+years of experience in industry.
- ISO 9001:2015 Certified company.
- 70+ experienced employees.
- Quality Practices: 3C&5S.
- Expertise in Automation.
- In-house software design team.
- Strong sales & support across India.
- More than 1000+ satisfied clients across India.

NIHVA
NIHVA TECHNOLOGIES PVT. LTD.

Our Products

1. Secondary packaging machine.
2. Plant automation solution.
3. Robotic application.
4. Dairy automation.
5. Case erector.
6. Case tapping machine.
7. Palletizing Automation.
8. Conveyor traffic management.
9. Gantry system.
10. Conveyors.

1. Secondary Packaging Machine

- Nihva automation manufactures secondary packaging machine.
- These machine are used in food, pharma, dairy, animal foods, fertilizer, seeds, tobacco & other related industries.
- All such type of machines are custom based as per requirement.
- We provide online counting of pouches, making online pouch matrix, online box making, box filling by pouches, online taping of box.

Types Of Secondary Packaging Machine

- Pouch into Box
- Pouch into Bag
- Pouch into Pouch

NIHVA

NIHVA TECHNOLOGIES PVT. LTD.

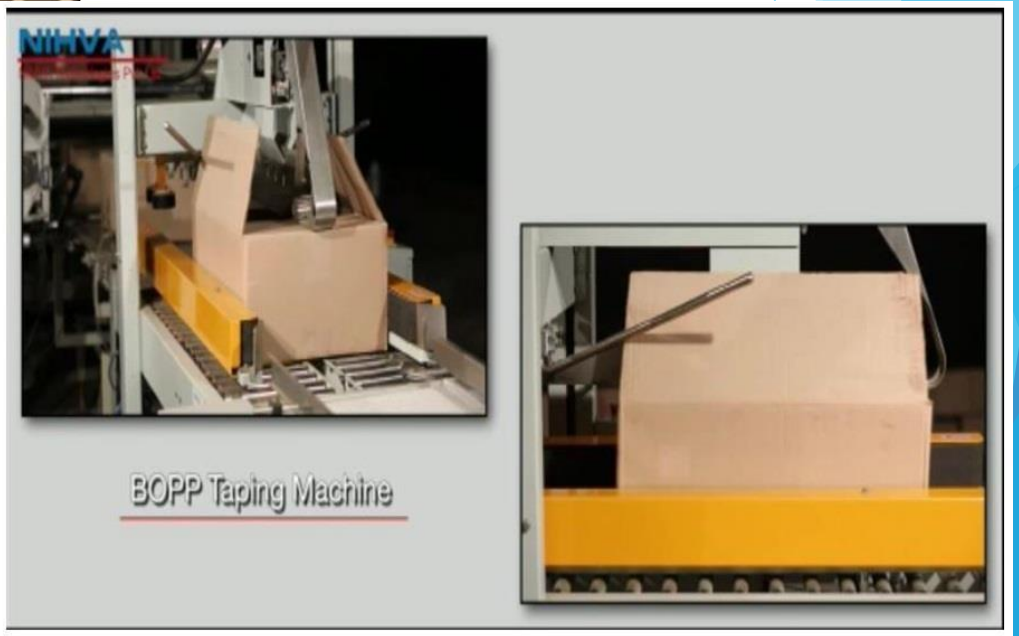

Features :

- Online pouch counting
- Online weight measurement
- Online matrix formation
- Safety
- More efficient
- Eliminate labour cost
- Environment friendly

NIHVA TECHNOLOGIES PVT. LTD.

2. Plant Automation Solutions

- Plant automation solutions are the solutions plant material handled automatically specially in food, pharma, animal food, cement industries, fertilizer industries, etc.
- Which include secondary & tertiary machine packaging machine, conveying line and many more machines included in plant automation.

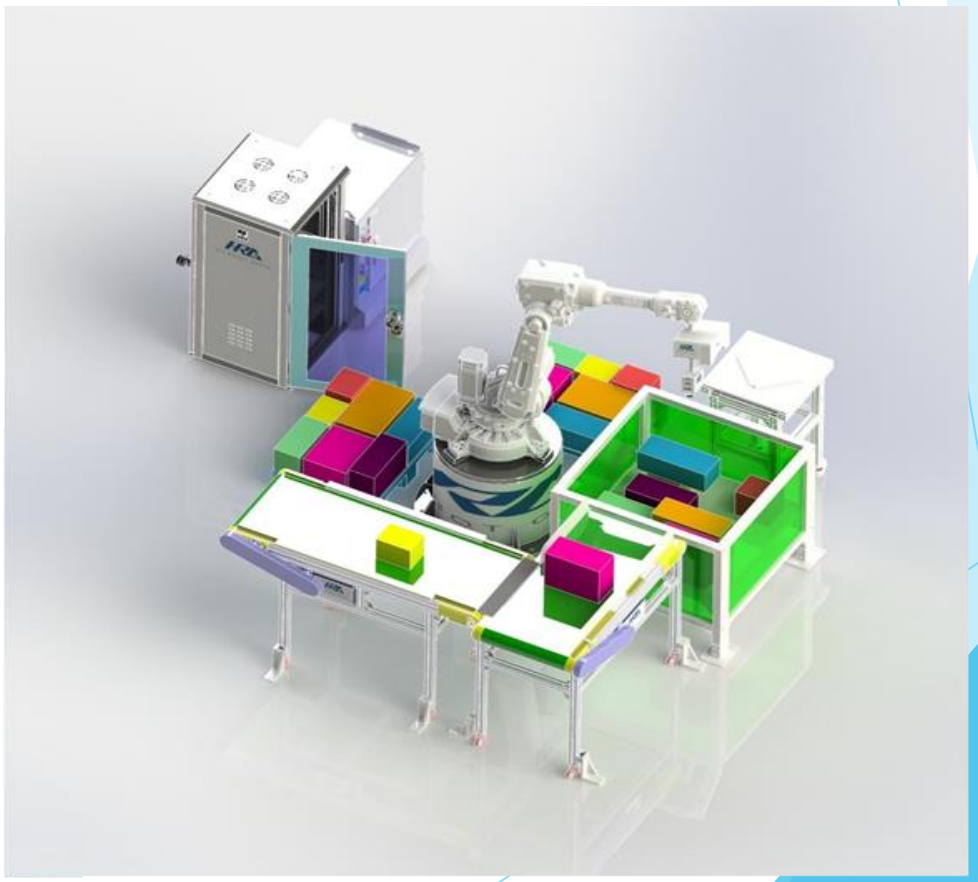

NIHVA
NIHVA TECHNOLOGIES PVT. LTD.

3. Robotics Applications

We are solution provider for various robotic application. By robot we can do following activities.

- Bag matrix formation.
- Pouch matrix formation.
- Crate matrix formation.
- Palletizing of bag, pouch, box.
- Sorting of product.
- Pick and place application can be done.

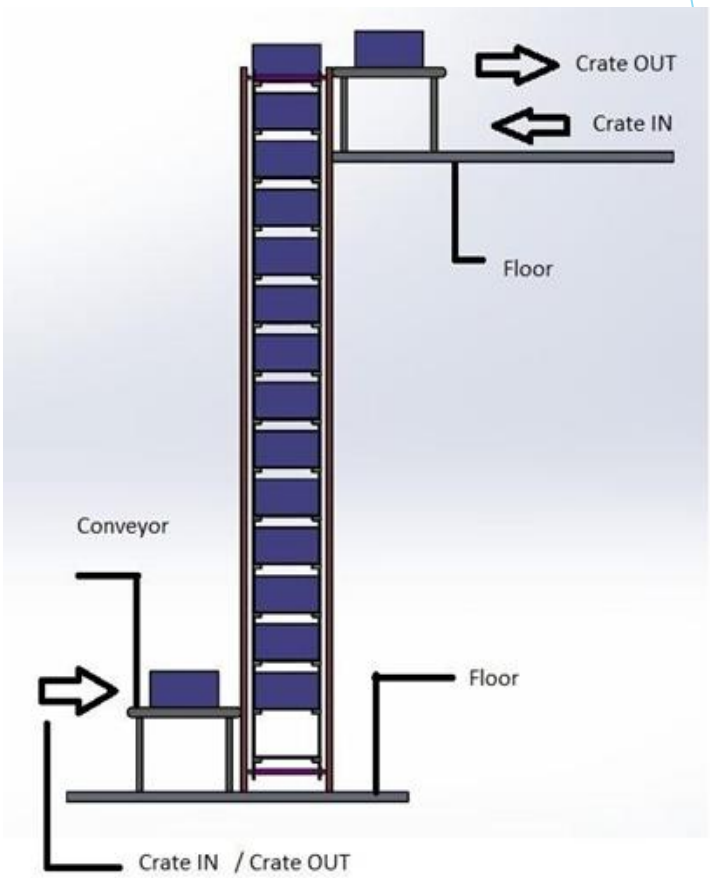

NIHVA
NIHVA TECHNOLOGIES PVT. LTD.

4. Dairy Automation

Vertical Lift Conveyor

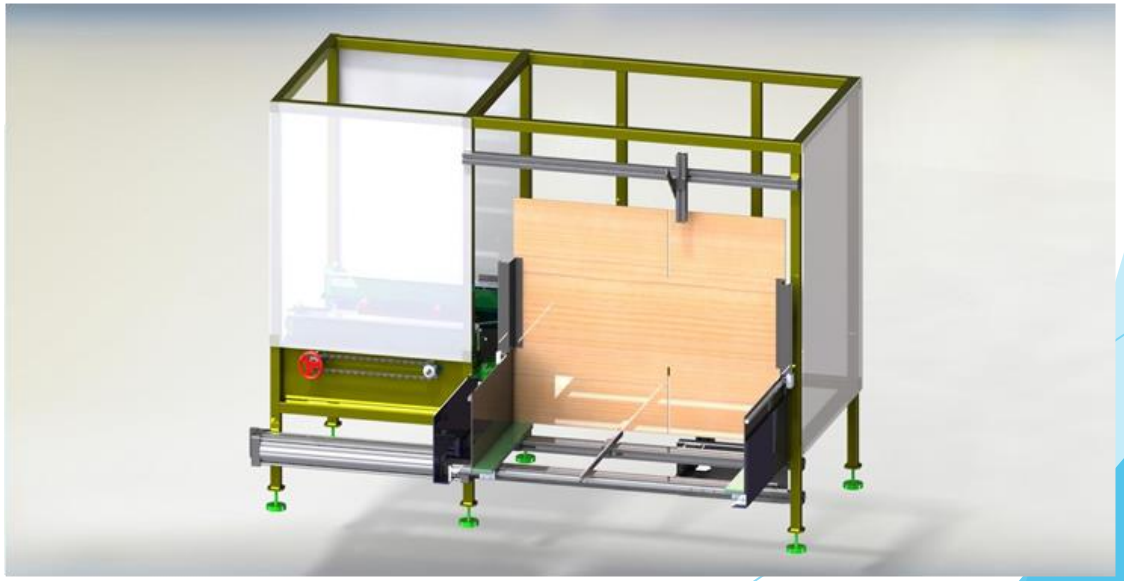

- It is used for conveying in small space
- It is used for conveying Crates & bags.
- It can be moved C shape, Z shape.
- It can carry various products up to 600 kg(total).
- Size of conveyor is designed as per requirement.
- For dairy, food & pharma industries we can use.
- Easy to clean & maintain.
- Easy to replace clits as it is modular.
- It comes in PVC modular belt and chain.
- Sizes of conveyor is as per requirement.

NIHVA
NIHVA TECHNOLOGIES PVT. LTD.

5. Case Erector

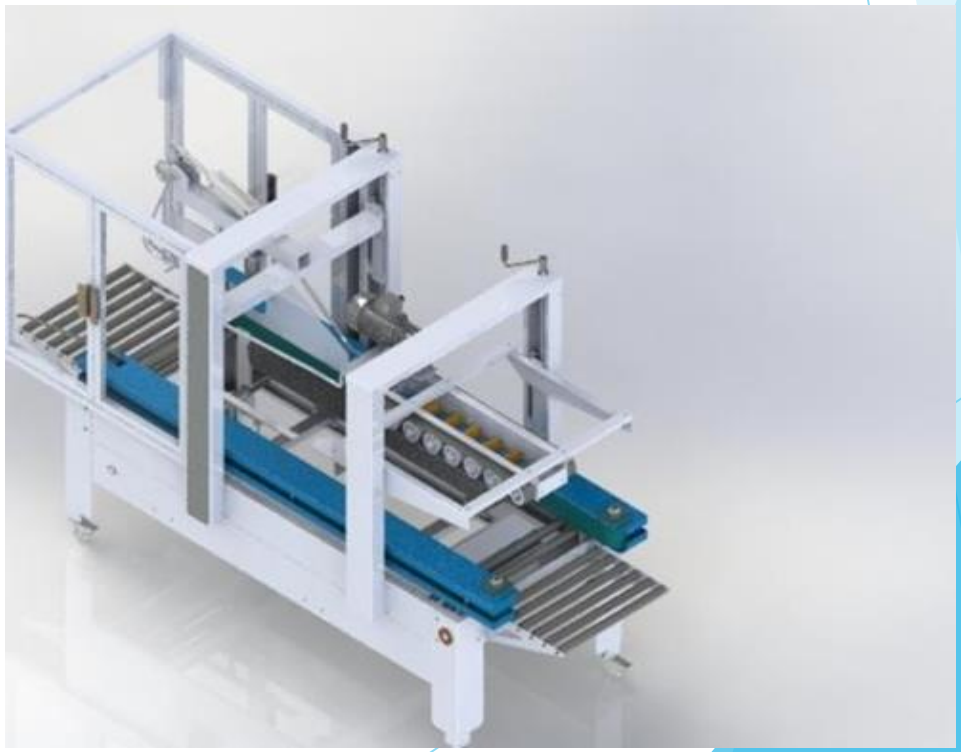

- Case erector is used for forming of case blank to formed case.
- Labeling of bottom tape.
- Size of the carton up to 600mm L x 500mm W x 400 mm H.
- No of carton /min-10 pc/min.
- Length , width and height is adjustable.
- Fully automated machine.

NIHVA
NIHVA TECHNOLOGIES PVT. LTD.

6. Case Taping Machine

- Case tapping is used for pasting of tape on top side of formed case.
- Labeling of top tape.
- Size of the carton up to 600mm L x 500mm W x 400 mm H.
- No of carton /min-10 pc/min
- Length , width and height is adjustable.
- Fully automated machine.
- Width of tape 50mm, 75mm, 100mm.

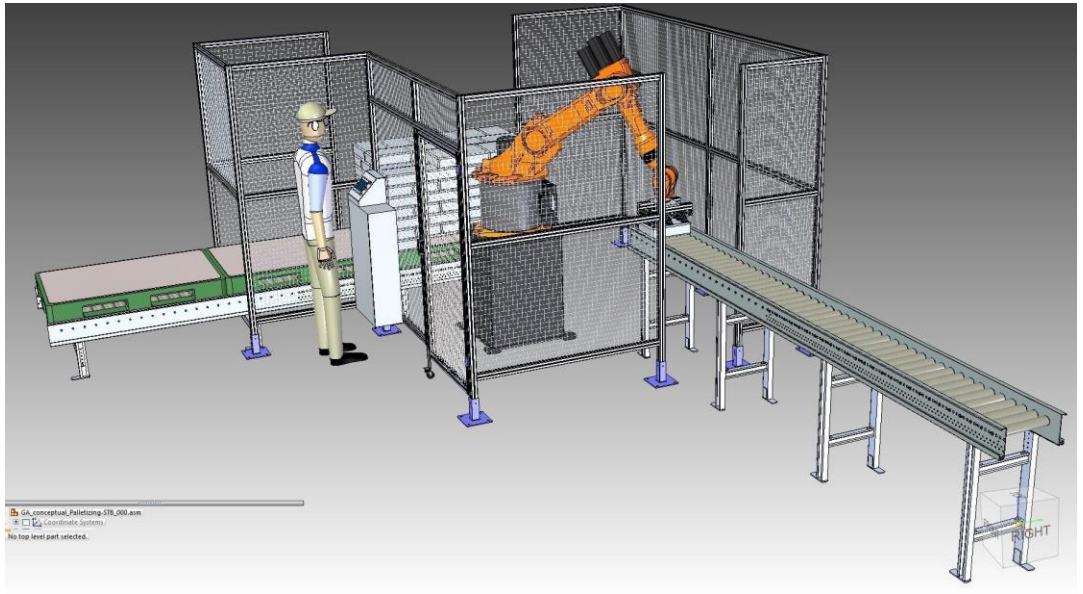

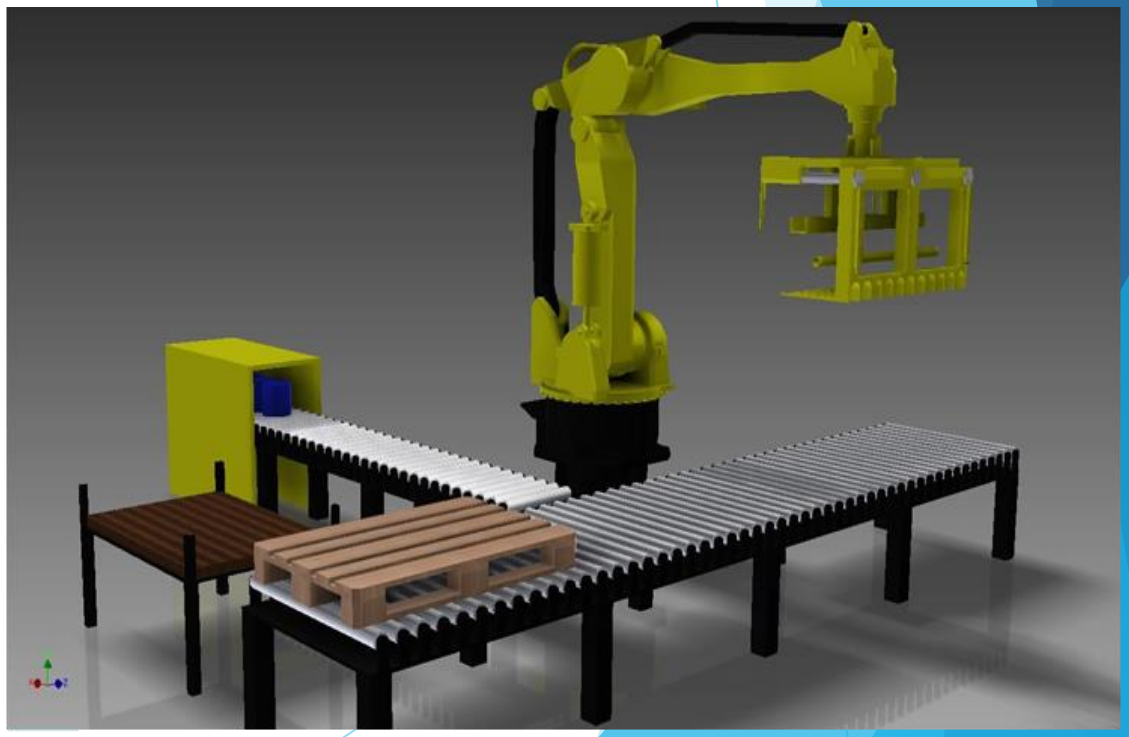

NIHVA
NIHVA TECHNOLOGIES PVT. LTD.

7. Palletizing Automation

7.1 Robotic Palletizing

- We supply and integrate robotic palletizing & de-palletizing system.
- This type of application can save lot of time with accuracy.
- It is used for Box, bag, bottle, tin & buckets.
- Can be customized to any height to any weight.

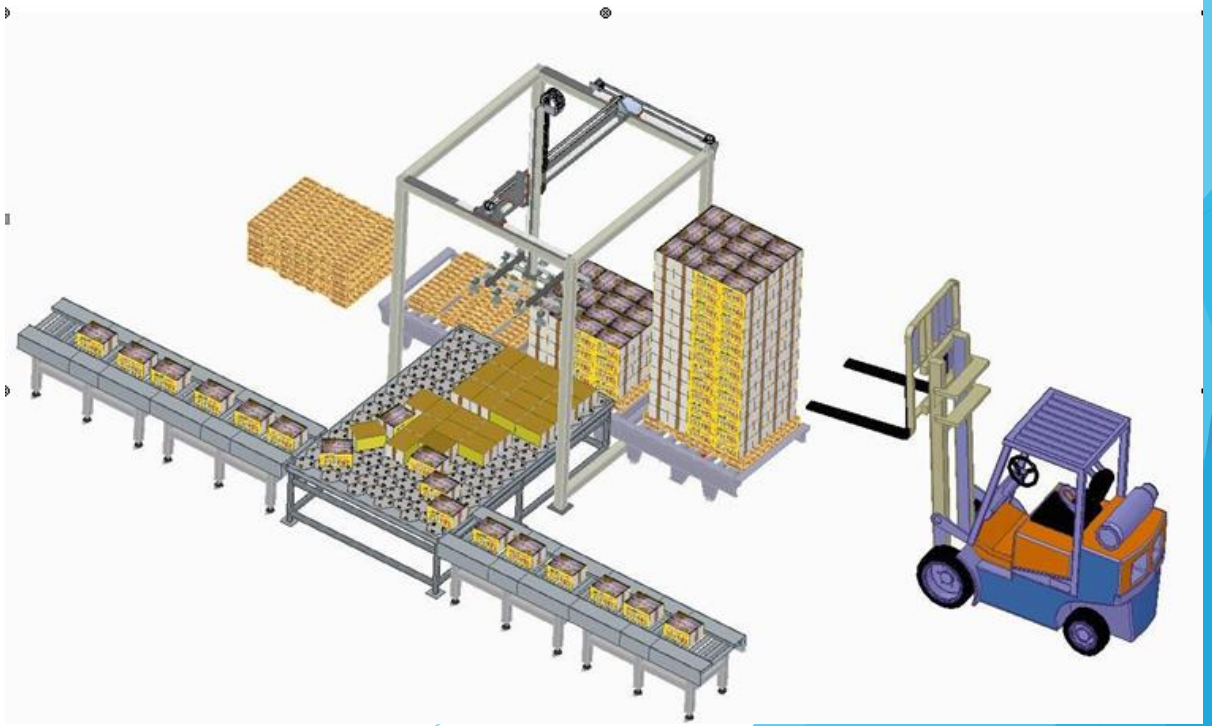

NIHVA
NIHVA TECHNOLOGIES PVT. LTD.

7.2 Gantry Palletizing

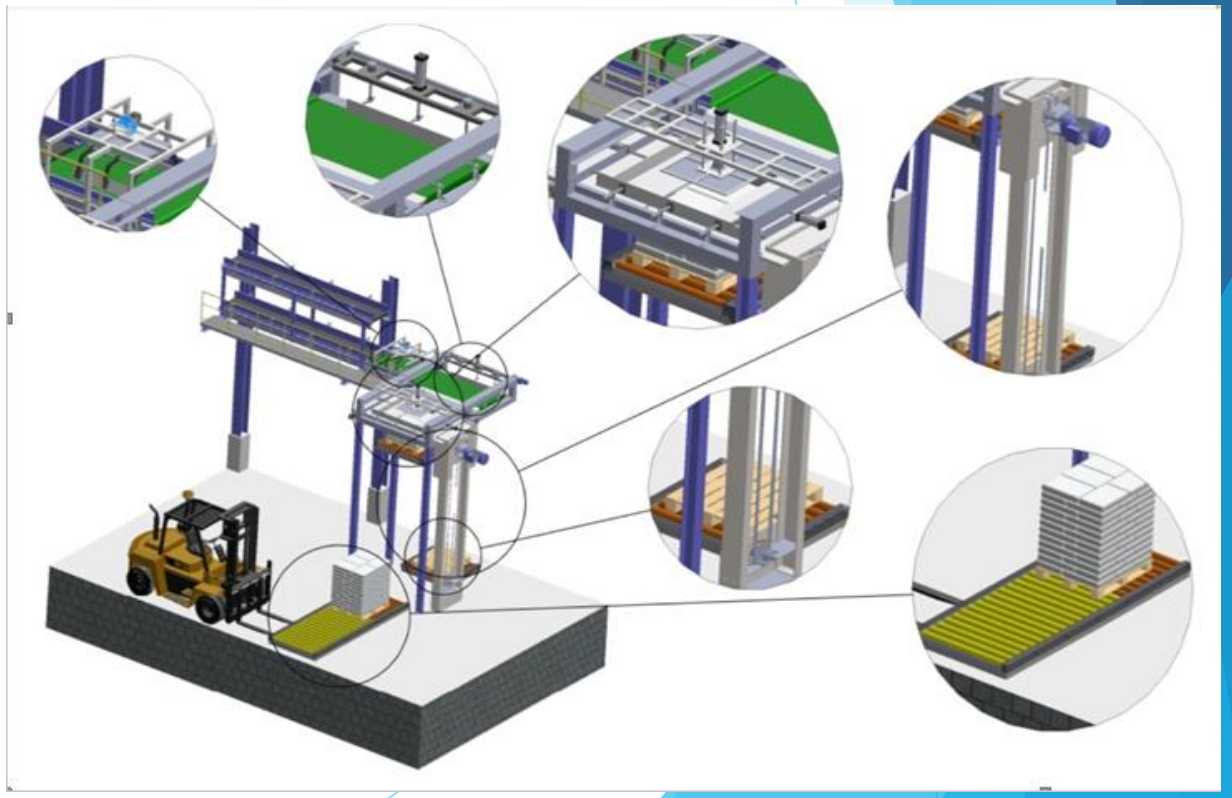

- We supply and integrate gantry palletizing & de-palletizing system.
- It is used for Box, bag, bottle, tin & buckets.
- This type of application can save lot of time, space, and money.
- Can be customized to any height to any weight.
- This is low cost and robust technology.

NIHVA
NIHVA TECHNOLOGIES PVT. LTD.

7.3 Layer Palletizing

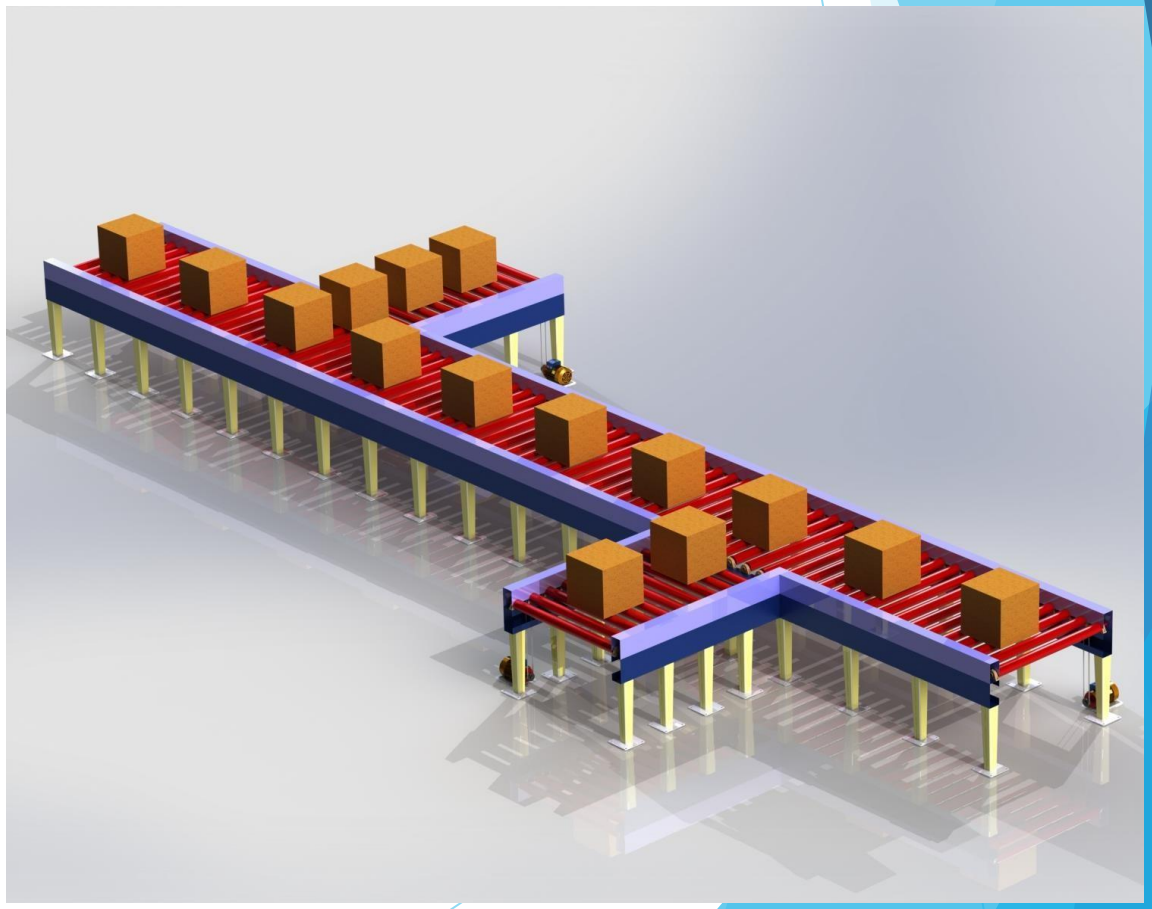

- It is low cost solution of palletizing
- This type of application can save lot of time with accuracy.
- It is used for Box, bag, bottle, tin & buckets.
- Can be customized to any height to any weight.
- It is overhead type.

NIHVA
NIHVA TECHNOLOGIES PVT. LTD.

8. Conveyor Traffic Management

- In this no. of conveyors are connected to express conveyor.
- Traffic management is works on sensors.
- It is used for Box, bag, bottle, tin & buckets.
- It is tailor made conveyors.

NIHVA
NIHVA TECHNOLOGIES PVT. LTD.

9. Material Handling Conveyors

9.1 Flat Belt Conveyor

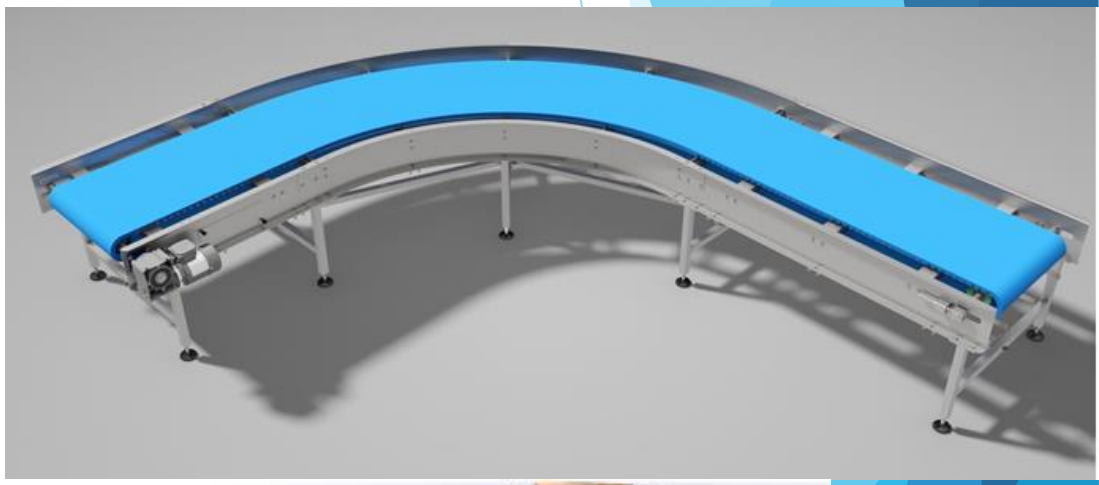

- It is used for manual packaging.
- It is used for printing and labeling.
- It is used for inspection purpose.
- It can carry various products up to 100 kg.
- Size of conveyor is designed as per requirement.
- For food and pharma industries we can use it.

NIHVA
NIHVA TECHNOLOGIES PVT. LTD.

9.2 90 Degree Modular Conveyor

- It is one of the simplest conveyor.
- It is used for conveying crates, box, pouches & bags.
- It can be moved 90deg, 180deg, 270deg.
- It can carry various products up to 100kg.
- Size of the conveyor is designed as per the requirement.
- Used in food & pharma industries.
- Easy to clean & maintain.
- Easy to replace belt as it is modular.

NIHVA
NIHVA TECHNOLOGIES PVT. LTD.

9.3 Acclivitous Conveyor

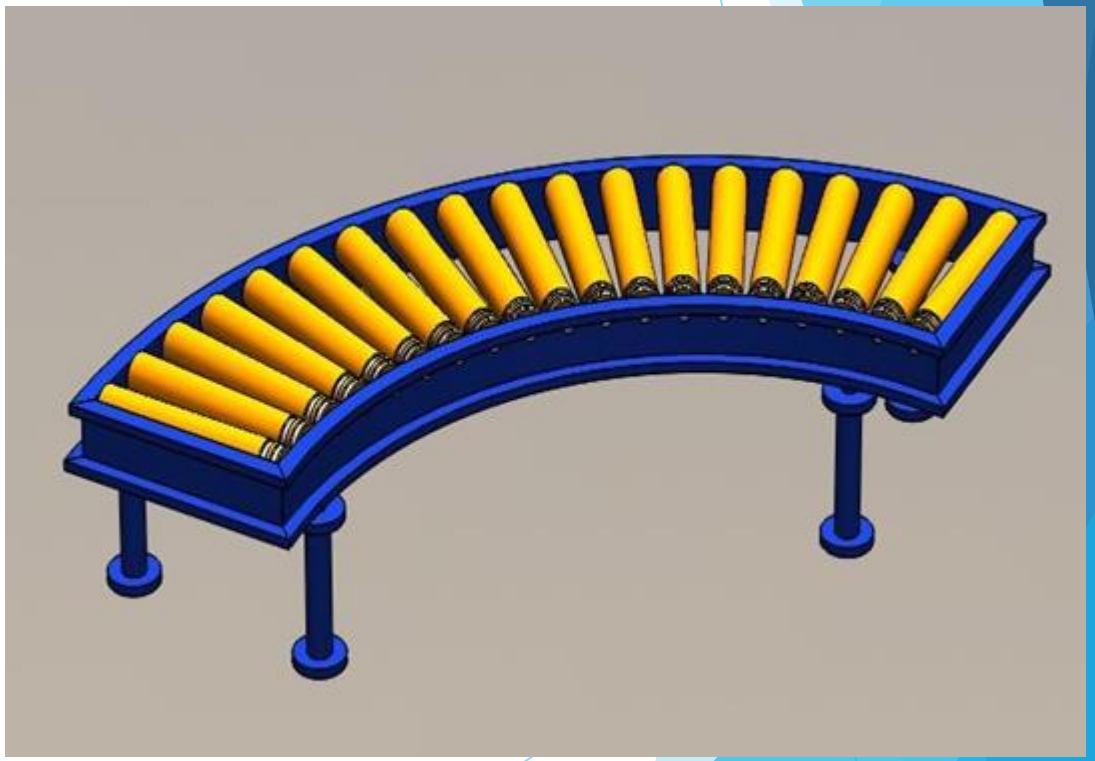

- It is one of the simplest conveyor.
- It is used for conveying namkeen, granules, grains & many more.
- It can be moved in L shape & Z shape.
- It can carry various products up to 25kg.
- Size of the conveyor is designed as per the requirement.
- Used in food and pharma industries.
- Easy to clean & maintain.
- Easy to replace belt as it is modular.

NIHVA
NIHVA TECHNOLOGIES PVT. LTD.

9.4 Drive 90Degree Roller Conveyor

- It is one of the drive roller conveyor.
- It is used in conveying crates & box in 90deg.
- It can carry various products up to 100kg.
- Size of conveyor is designed as per requirement.
- Used in different types of industries.
- Easy to clean & maintain.
- Easy to replace belt as it is modular.

NIHVA
NIHVA TECHNOLOGIES PVT. LTD.

9.5 Telescopic Conveyor

- It is used for loading and unloading vehicle.
- Products can be moved bag, box, etc.
- It saves lot of time in loading and unloading.
- It can manufactured as per requirement.
- Robust design.
- Used in different types of industries.

NIHVA
NIHVA TECHNOLOGIES PVT. LTD.

9.6 Gravity Roller Conveyor

- Gravity conveyor uses gravity force to move materials over downward direction.
- A gravity conveyor is used to transport articles with sufficient weight.
- It use parallel rollers mounted in frames to convey product either by gravity or manually.
- It consist of freely rotating tubular rollers that help the load to move under gravity.
- Easy replace rollers as it is modular.
- Easy to clean & maintain.
