About Us

NIHVA pioneers in offering intelligent and innovative solutions. We are proud of our products & service range offered with a high level of working safety, comfort, functionality and supported by value added solutions and services. NIHVA specializes in providing integrated automation solutions, door automation, standard and customized Material Handling solutions. Apart from this for any project our scope commences from understanding the requirement, functionality, designing a solution to installation and commissioning. Further we prefer to be with you by providing a service backup commitment beyond contract. We understand the importance of manpower in providing such services to our esteemed customers and therefore we have best engineers & technicians to ensure trouble free services.

Our Vision

We will be the most valued business partner for all our customers.

Our Mission

We provide intelligent and innovative engineering solutions and services that meets the need of our customers.

Core Values

- Driven by positive Approach, Attitude & Accountability.
- Accelerate always Respect, Relations, & Results.
- Satisfaction and Happiness at the end of each day.

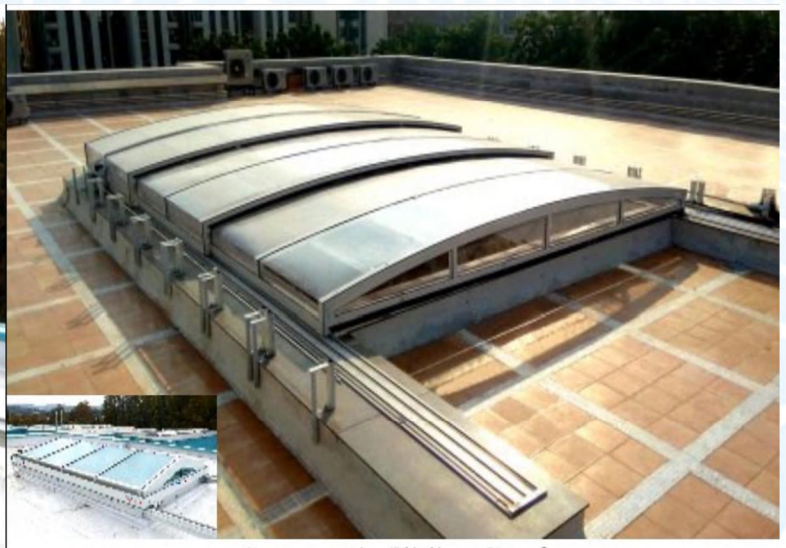

Core Purpose

Inspire the individuals and organizations by offering Innovative Solutions, Products and Services that enrich people's lives, save their Efforts, Time, Money and contribute to social prosperity by creating a new future.

Retractable roof

Retractable roof is a custom-made solution for residential as well as commercial spaces like Bungalows, Hotels, Villas, Restaurants, Apartments, and Offices. These spaces have courtyard, skylight, patio inbuilt in their architecture, to allow partial sunlight in the premises at day and beautiful starry sky view at night.

Automatic Sliding Roof

USP

1. Non-Corrosive materials like Aluminium alloy profiles, stainless steel fasteners, EPDM sealing and polycarbonate sheets.

2. Complete enclosed system with automation, locking, EPDM seals, etc. It is a lightweight solution for Terraces, Courtyards, pools, Balconies, Patios, Smoking zones and a lot more applications.

3. Completely water proof and can be air conditioned if the area is enclosed.

4. It can be easily Re-located within a short time by our trained technical personal.

5. No need of any licence from municipal authorities since it's completely retractable.

Balcony enclosure

The Balcony enclosure of NIHVA is the ideal solution for expanding the balcony or the patio area with three side openings. You can use these areas fully in any weather conditions and all year round. Elegant and bespoke construction, long lasting materials, reliable rails and great service all prove that an enclosure from NIHVA is the best choice.

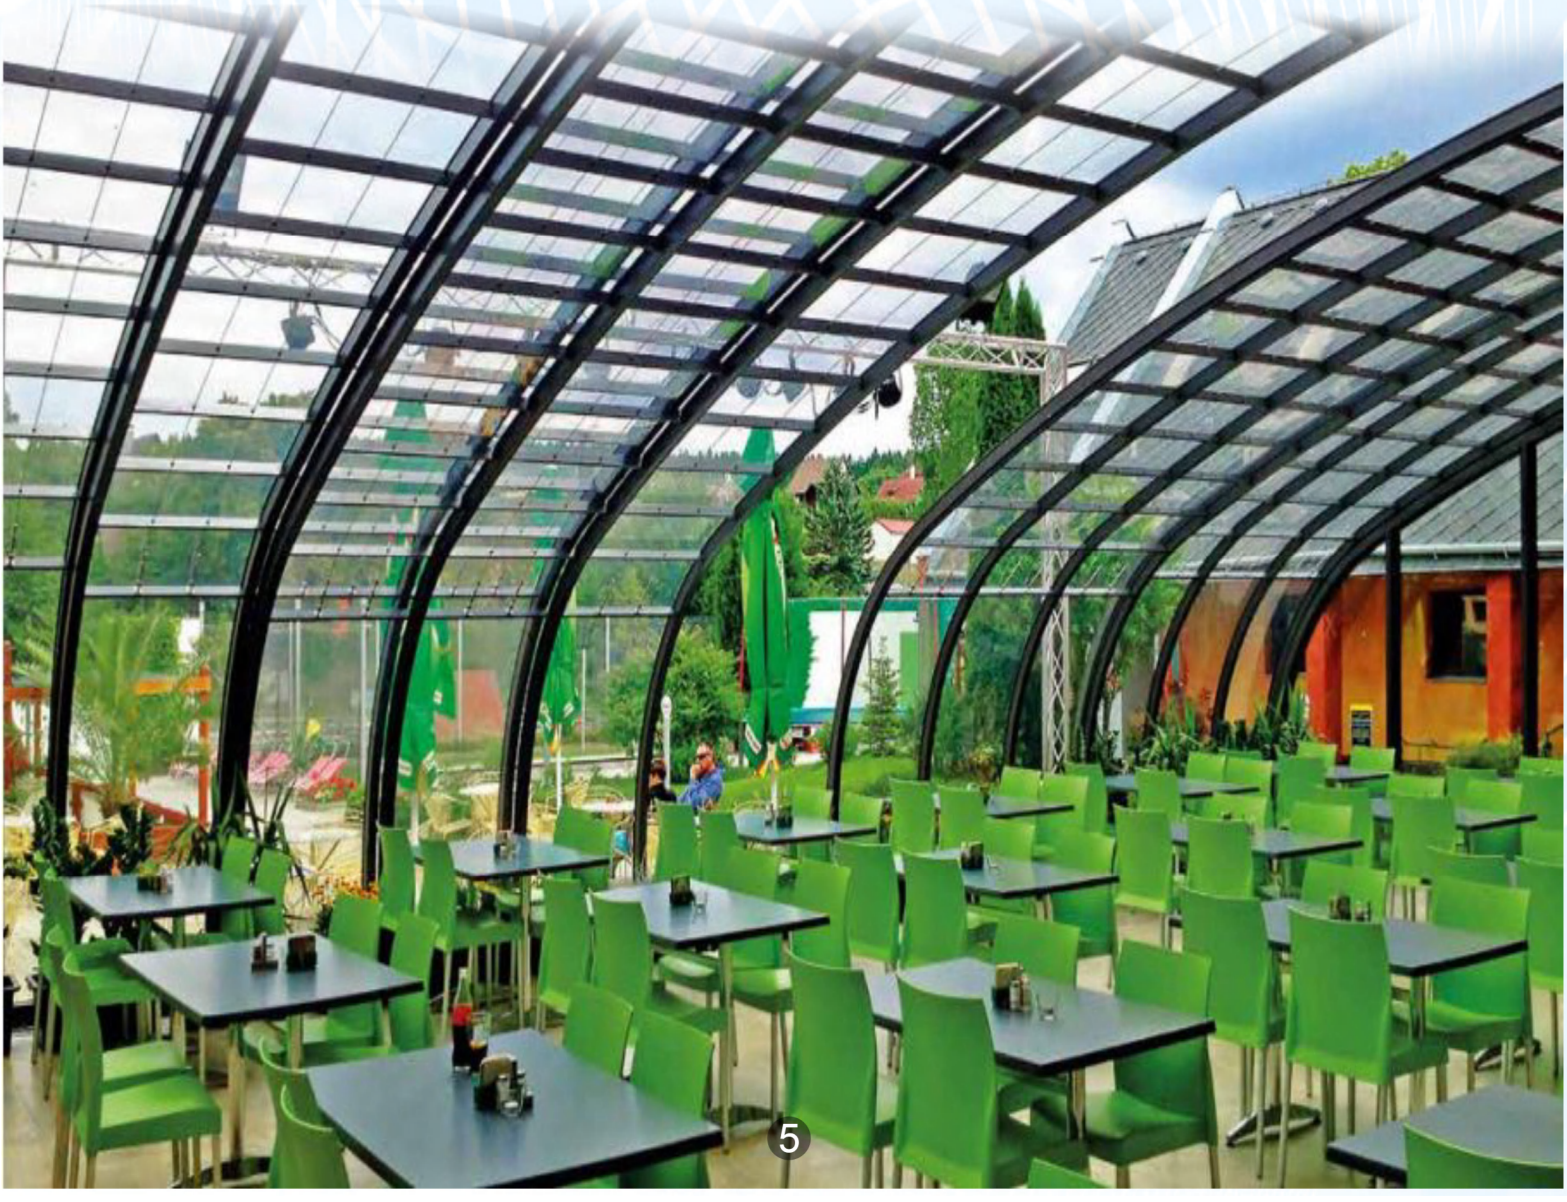

Restaurant or coffee shop with an outdoor area that only gets used by customers during the summer or never gets used at all, can now be used to fill that outdoor area with happy paying customers.

Benefits:

- Enclosures will attract new customers which will grow business.
- Extended use of outdoor space.
- Protects customers from all weather conditions.
- Fully lockable, safe and secure.
- Attractive environment for client.
- Easy to slide and glide system.
- Fast return on investment.

Swimming pool enclosure

Swimming pool enclosures from NIHVA are a modern way of keeping the pool Safe from insects, creatures, dust and debris, thus saving on expensive cleaning of water in swimming pool. NIHVA's enclosures are specially designed to add more aesthetic gaze and lets you connect to the nature instantly.

SLIDING & FOLDING DECK COVER DETAILS

- Sliding deck and folding deck pool cover provides decking as well as the space can be utilised for various purpose.
- Materials used for manufacturing the deck are SS 304/316/316L.
- The system can be Automatic or Manual.

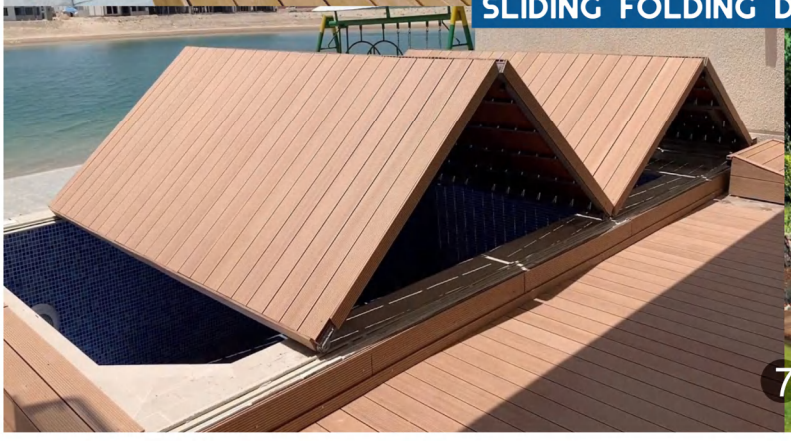

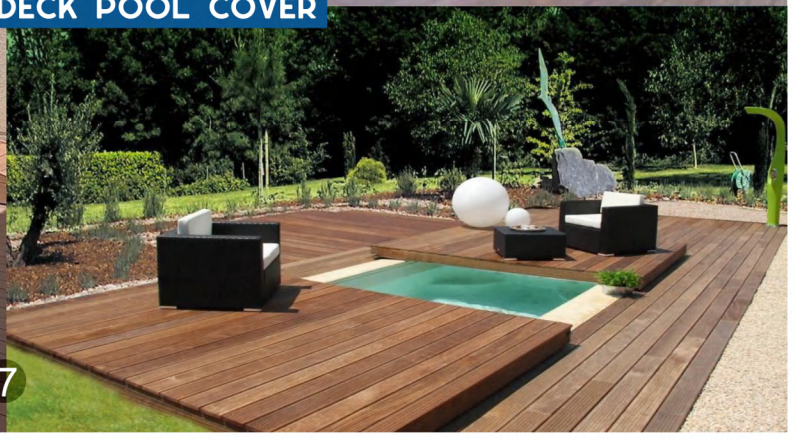

Low pool enclosure | Medium pool enclosure | High pool enclosure

SLIDING FOLDING DECK POOL COVER

Dome enclosure

Retractable Dome design takes open-air- living to a whole new level with help of required engineering & vision expertise. Every concept needs to be durable, functional and easy to operate. NIHVA with its experience in installation of retractable systems has made the combination of day-lighting and open-air-living at its very best.

USP

1. Retractable dome systems have the rail system thus, the system can be done on existing building structure or if required with a support of steel structure.
2. This enclosure is ideal for a spa, hot tub or an exercise room and can be fitted onto a level ground base including wood decking. It is the ideal leisure / relaxation room to complement your home.
3. Suitable for any whether conditions, designed and built using highest quality material.
4. Non corrosive parts.
5. Specially designed and complete in house manufactured. We can go up to a diameter of 10m.
6. The system can be a combination personalised lightening system with sitting arrangement

Advantages

Fast and easy installation takes a couple of days or a week to install depending on the size.

Water Proof covering & can be air conditioned too.

Light Weight, easy and soundless movement.

Safety is the biggest plus point while using light weight but strong Retractable Roof.

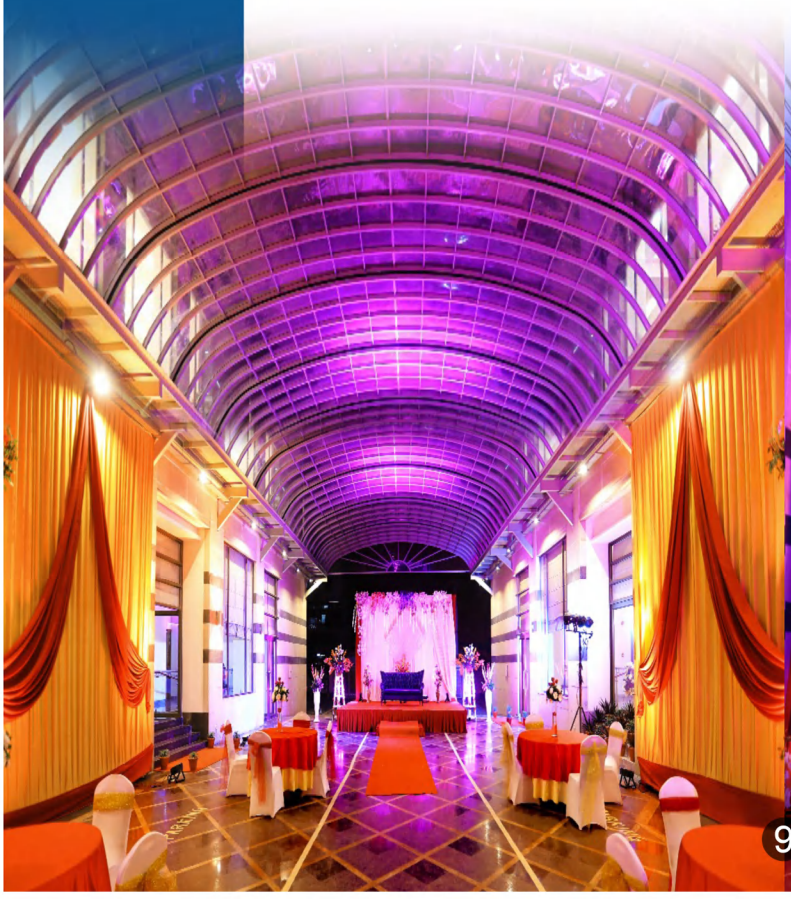

Once fixed, forget for a couple of decades. Minimum wear and tear parts.

Easy maintenance and easy cleaning of the Roofs, fun to use, while serving purpose.

It matches to the indoor decorating scheme allowing décore to flow seamlessly from one space to the next.

We are dedicated to attain the bond between the organization and customers.

Aesthetically stylish covering & once a particular area is decided to be covered, A retractable enclosure has many advantages compared to fixed structures made of glass or any other material.
