

Essmann, Bad Salzuflen — New doors installation

Albany RR3000 XXL – perfect access for large and bulky goods at Essmann's production installation

At Essmann's plant in Bad Salzuflen in northern Germany large and bulky goods are daily transported throught the door openings.
When new doors were to be installed the company looked for a door type that could be manufactured in large dimensions, but still offered characteristics such as speed and operational reliability.

With heavy traffic in mind the doors were required to cope with multiple opening and closing operations per day.

For this reason Albany RR3000 XXL doors were installed in the openings to the production area. Albany RR3000 XXL are large-dimension (7000 mm wide x 5000 mm high) high speed doors, which are eminently suitable for external applications where wind and cold (or heat) place exceptional demands on the doors.

Light, air and safety are central elements of modern flat roof design. The name Essmann has been prominent in this field for decades. It has a wide product range for lighting, ventilation and smoke extraction for internal rooms and flat roof drainage. Many innovative product ideas, high-quality products and excellent service ensure Essmann is your competent partner.

As far as overhead lighting is concerned, rooflight domes and window strips from Essmann fulfill all conceivable planning requirements for functionally correct and sophisticated architecture.

You would like to know more about our high speed doors? Contact us personally by telephone or simply send us your request by email or fax. We are here for you!

ASSA ABLOY Entrance Systems is the world's most comprehensive supplier of entrance automation solutions. With our globally recognized product brands Besam, Crawford, Megadoor and Albany, we offer products and services dedicated to satisfying end-user needs for safe, secure, convenient and sustainable operations. With a holistic approach to the flow of goods and people, we create efficient solutions for each business, with the best possible balance of cost, quality and lifetime performance. ASSA ABLOY Entrance Systems is a division within ASSA ABLOY.
