Objective evidences

Please have the evidences listed below ready for access by the audit team.

As required (but at least in initial/recertification or extension audits) copies of these objective evidences shall be provided to the audit team in an appropriate form to be included in the audit file. If necessary, confidential information in these dedicated copies may be blacked.

- Valid entry in professional or commercial register (or comparable evidence) - if applicable
- Organization chart/evidence of organization
- Company policy for audited management system(s)
- Overview of management system documentation (e.g. table of contents or presentation of the structure of the management system documentation, process map)
- Result of management review (e.g. cover sheet or table of contents with date and signature)
- Current annual planning of internal audits and evidence of audit report(s) (e.g.: cover sheet with date and signature)
- Standard-specific evidence, as applicable (e.g. ISO 14001: extract of environmental permit register; ISO 27001: statement of applicability, ISO 45001: accident statistics; ISO 50001: energy report as cover sheet with date and signature or evidence of continual energy performance improvement)

Explanations:

Audit objectives:

- determination of the conformity of the management system of the organization with the requirements of the aforementioned standards in order to achieve or maintain certification through an independent and accredited certification body;
- determination of the ability of the management system to ensure the organization meets applicable statutory, regulatory and contractual requirements;
- determination of the effectiveness of the management system to ensure the organization can reasonably expect to achieve its specified objectives;
- identification of areas for potential improvement of the management system.

The audit report is drawn up in German or English language and should describe if and how far the requirements of the aforementioned standards are fulfilled.

If some requirements of the aforementioned standards are assessed as "not fulfilled" in the audit, it is possible to demonstrate subsequent fulfilment in the form of a review of documents submitted later and/or in the form of a follow up audit at the company premises, depending on the type of nonconformity.

Any objections to the planned form of the audit should be discussed and solved between the organisation and the audit team leader before the audit. Any objections to members of the audit team shall be communicated to the certification body.

All members of the audit team have declared to the certification body in writing that they will keep confidential all information which becomes known to them during the course of the audit and that no inappropriate conflict of interest exists (see Annex).

Annexes (for certification body only):

- List of participants
- Declarations of impartiality/confidentiality
