KOPRON SPORT

FIXED/ RETRACTABLE WAREHOUSES WITH A PVC COVERING

HIGH QUALITY HOT-DIPPED GALVANIZED STEEL TRUCTURES.

These warehouses can be frontal, side mounted with single or double slopes, connecting, arched for special use, with sizes according to customers requirements.

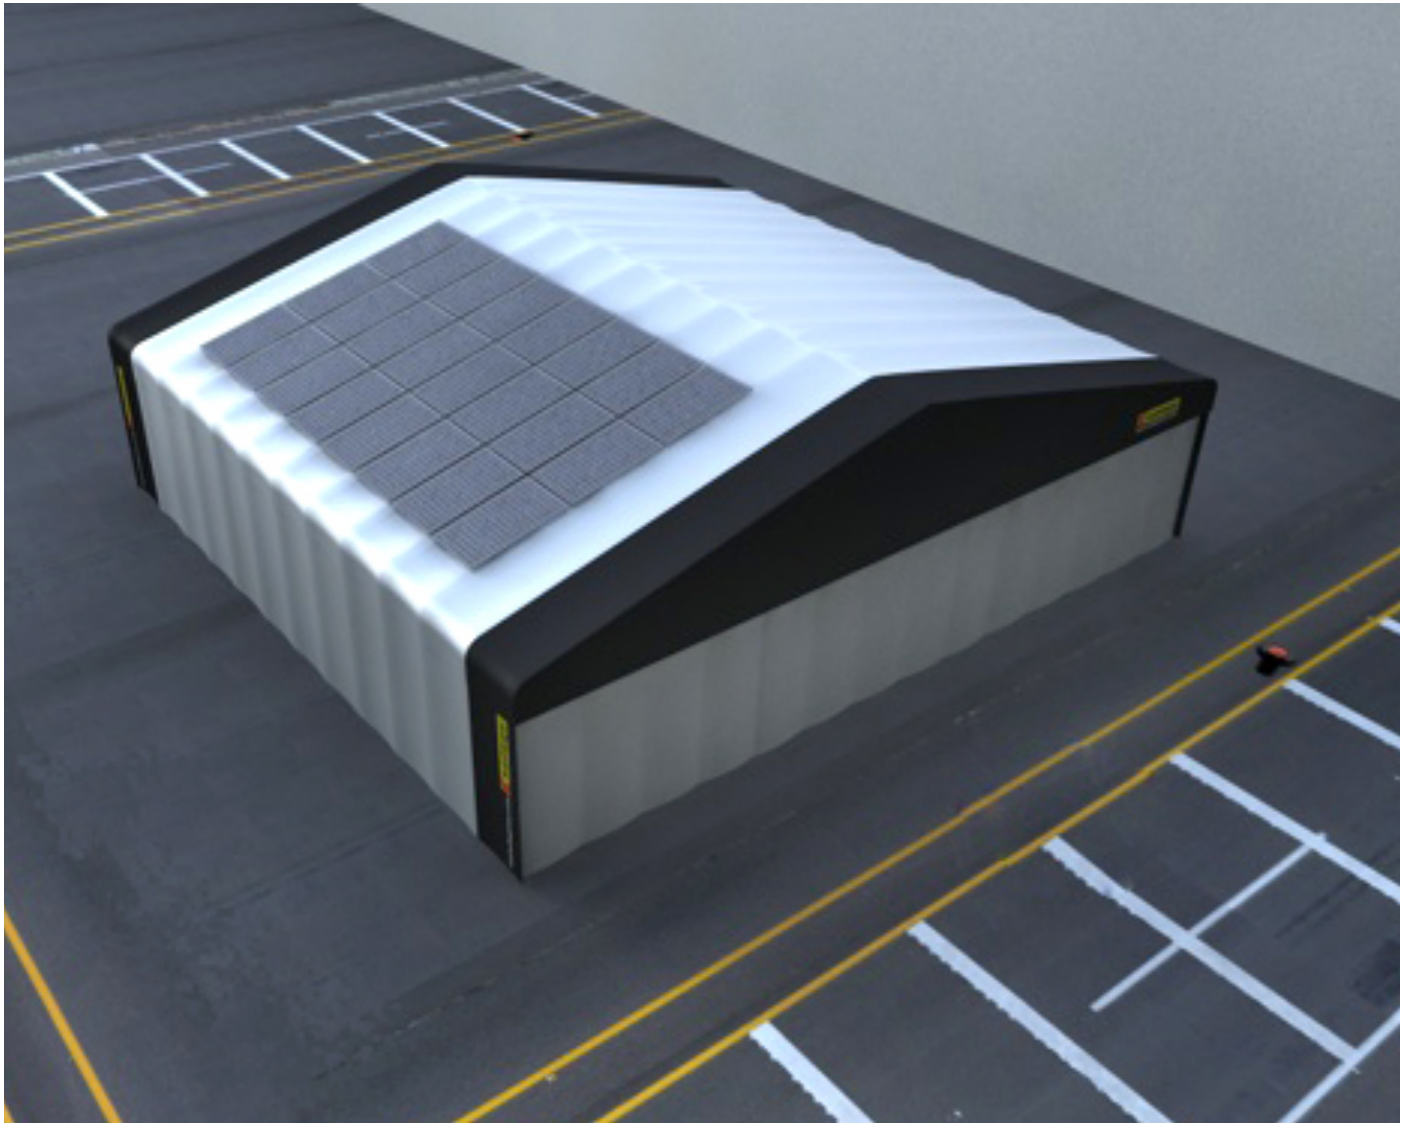

FIXED WAREHOUSES WITH INSULATING PANELS

HIGH QUALITY HOT-DIPPED GALVANIZED STEEL STRUCTURES.

Warehouses with insulating panels are equal to structures made of concrete, but much faster to build. Panel coverings guarantee the best thermo-acoustic insulation.

FIXED WAREHOUSES WITH PHOTOVOLTAIC SYSTEMS

ZERO COST STRUCTURES WITH PHOTOVOLTAIC ROOFING.

Photovoltaic panels are a clever alternative to usual coverings: warehouses besides being used for stocking material or protecting production activities are also able to produce electricity from the sun.

WAREHOUSES FOR SPORTS CENTRES WITH PVC COVERING

HIGH QUALITY HOT-DIPPED GALVANIZED STEEL STRUCTURES.

Kopron arched warehouses for sports centres are very robust, reliable and nice to look at, and are in compliance with safety standards.

AVAILABLE MODELS:
SIDEWALL
AIRCROSS

LOADING/ UNLOADING BAYS FOR GOODS

Kopron loading bays have been studied out to reduce waste of time when loading/unloading goods. They consist of three elements:

Dock shelters (raised model, ground model, with fixed and adjustable cushions, rotative structures, tunnel structures)

Dock levellers (electrohydraulic with either hinged or telescopic lip, lifting tables, frames and accessories)

Sectional doors

INDUSTRIAL SECTIONAL DOORS

Kopron sectional doors are created to facilitate the work of each day, that is why they have a **simple** but **robust structure** and are **easy** to use.
These doors are designed and manufactured in different models in order to fit in the height of any building, sizes and opening/closing movements can be produced according to specific customer requirements.

INDUSTRIAL TRANSIT DOORS

NEW GENERATION DOORS: NEXT 2.0
Fast PVC vertical folding/ rolling doors have been created for frequent openings and specially designed to avoid inconveniences typical of this kind of door

4 different models:
- FAST-PACK
Fast PVC vertical folding doors
- FAST-ROLL
Fast PVC vertical rolling doors
- REPLAY
self-repairing doors
- FAST WALL
Fast PVC vertical rolling doors with a insulating panels

INDUSTRIAL FOLDING DOORS

Folding doors are made of insulating panels in steel and painted aluminium, with a styrofoam filling which guarantees the best thermal-acoustic insulation. Sealing is guaranteed by EPDM gaskets and nylon brushes.

AVAILABLE IN DIFFERENT SIZES AND QUANTITY OF FOLDING PANELS

INDUSTRIAL FIREDOORS

Industrial firedoors either sliding or with wings are installed inside buildings to create internal divisions in case of fire. They can be completed with different accessories .

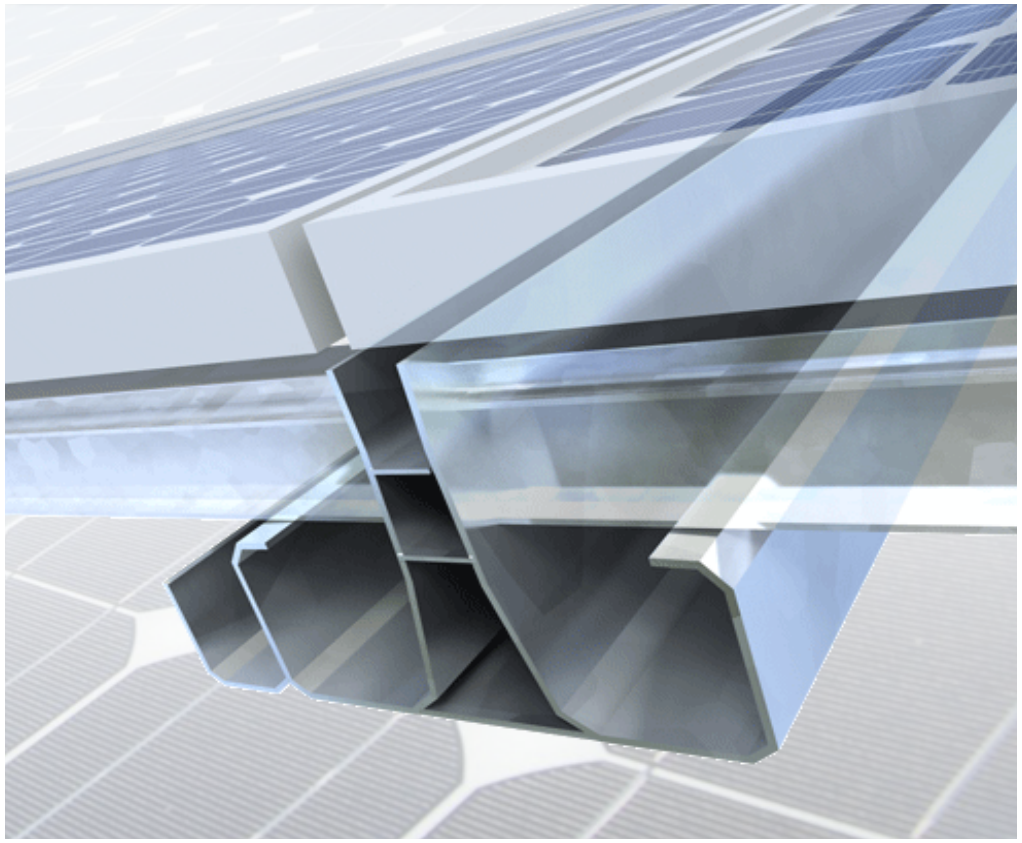

AVAILABLE IN DIFFERENT SIZES AND NUMBER OF WINGS

RESIDENTIAL DOORS

Kopron entered the residential door market with a new and exclusive range of sectional doors. These doors have an elegant line which embellishes any architectural environment. They are not just simple garage doors but pure design elements, produced with solid materials, clean lines and precious finishings.
Living and Traditional are the two series of Kopron residential doors.

THE FOLLOWING HAVE CHOSEN KOPRON:

… AND MANY OTHER FAMOUS BRANDS

For over 30 years we have been working for small enterprises as well as for big multinational industries by designing, manufacturing and installing our warehouses at their premises.
