LEADERS IN FEEDING TECHNOLOGY

Date: 19/01/2017

Thank you for your inquiry and the interest shown in our product and further to the discussion, regarding requirement of feeding automation project. Based on discussion please find herewith our best offer with complete cost

1. SCOPE OF WORK:

1) Purpose of Machine In Brief –

a) For Metallic Strips : It consists of :

- HA Bowl Orientor and feeder system – HA 400 DIA CYLINDRICAL MODEL, Clockwise Direction
- Magazine (Guide) Unit
- Gravity Chute – Guide Length 300mm
- Main Stand – Led Screw Type
- High/Low Level Sensor with Mounting Stand
- CUH Make Controller CE Certified.
- Quantity – 1 Set

2. Hindustan Automation Scope of Supply:

- **HA** automation system will be user friendly.
- **HA** will provide CE Inspection Certificate for all the Part 100 % orientation before final dispatch.

3. Operation Sequence

- The parts will be oriented by respective feeder system with a required orientation as per the drawings.
- The oriented part will be in a resting position at front side of the existing chute & from their will be feed linearly through gravity chute for further sub assembly operation to your SPM machine.
- The part will be released at a time, on to the final position.
- Soon as the assembly station is indexed, the next lot will be ready for the action.
- Speed: As per your requirement i.e 45 pcs per track per min.
- Electrical Power:- Single Phase, 220 Volts, 3 Ampere
