1.0	**GENERAL**	
1.1	Quantity	*
1.2	Area Classification/ Zone	As per electrical area classification
2.0	**OPERATING CONDITIONS**	
2.1	Load Capacity	Static Load : 6 MT (minimum), Dynamic Load: 9 MT (minimum)
2.3	Raised height	
2.4	Depressed height	
2.5	Duty	Continuous
3.0	**MANUFACTURER'S SPECIFICATIONS**	
3.1	Make	
3.2	Model	
3.3	Length of deck	
3.4	Width of deck	
3.5	Pit depth	
3.6	Lip length	
3.7	Lip width	
3.8	Power pack dimensions (LxWxH)	
3.9	Control panel dimensions (LxWxH)	
3.10	Weight of the assembly	
4.0	**HYDRAULIC SYSTEM**	
4.1	Hydraulic power pack size, capacity & weight	
4.2	Hydraulic oil pump Model, Make & Type	
4.3	Max. discharge capacity (for deck/ for lip)	
4.4	Max. delivery pressure kg/cm^2 (for deck/ for lip)	
4.5	Motor Kw	
4.6	Hose Type, Make & Length	
4.7	Direction Control Valve Type, Make & Model	
4.8	Hydraulic Cylinders for Deck & Lip (Type, Model.& Make)	
4.9	Hydraulic Oil (Type & Qty.)	
5.0	**MATERIAL OF CONSTRUCTION**	
5.1	Deck	
5.2	Lip	
5.3	Frame	
5.4	Cylinder	
5.5	Piston	
5.6	Safety skirt assembly	
5.7	End Buffer (Hard Rubber) Type, Size & Model
