SHORT TAKES

Aid to Afghan: India in talks with Pak

New Delhi: India on Thursday said it was holding consultations with Pakistan on the modalities of supplying 50,000 metric tonnes (MT) of wheat to the Afghan people through the land route via Pakistani territory, adding that "no conditionalities" should be imposed by Islamabad regarding the supply of humanitarian aid. On whether India was considering re-opening its embassy in Kabul, MEA spokesperson Arindam Bagchi said he had "no updates" on the matter. India, along with the rest of the world, has not recognised the Taliban regime in Afghanistan.

■ Buddhist family in Zanskar lodges missing plaint after girl elopes, marries Muslim

Interfaith marriage rocks Ladakh region

YUSUF JAMEEL | DC
SRINAGAR, DEC. 2

Tensions are mounting in Zanskar, a mountainous region of Ladakh with a population of 20,000 — a vast majority of them Buddhists — over an interfaith marriage.

The woman's family has lodged a missing person's complaint at the local police station after the girl eloped with a Muslim man and married him.

A local imam performed nikah after the Buddhist woman Sonam Angmo converted to Islam and took Summaya Kousar as her Muslim name to marry Abdul Qadir Wani, 31, a Muslim man of Padum, the main town of Zanskar, on November 20.

However, the woman's family has alleged that she is a minor and that Wani has kidnapped and forcibly married her. The local police has detained father Muhammad Shaffi and brother Mudassir Shaffi of Mr Wani and launched a manhunt for the couple. However, Kargil SSP Anayat Chaudhary, while speaking to this correspondent over the phone, said that the father-son duo was only being called to the police station for questioning as the couple is "absconding".

THE WOMAN'S family has alleged that the girl is a minor and that the man kidnapped and forcibly married her

LOCAL BUDDHIST groups have threatened agitation unless she is found and handed over to her parents

He said that on the basis of the complaint lodged by the parents of the woman the police has registered an FIR under relevant provisions of the law and took up investigations. "We want the couple to record their statements at the police station. But the family of the accused and their lawyer are not disclosing their whereabouts nor do they themselves come forward. We're being compelled to act. We don't want any tensions between communities here. We want to see the issue resolved amicably and without it disturbing peace," the police officer said.

Local Buddhist groups have threatened agitation unless the woman is recovered and restored to her parents. On Wednesday, the Ladakh Buddhist Association submitted a memorandum to lieutenant-governor Radha Krishna Mathur alleging the Muslim man from Padum has "forcibly" married the Buddhist girl. It demanded that the girl should be recovered and handed back to the family and said that if the authorities fail to do so it could cause communal disturbances in the region.

Covid tests cost high at Hyd airport

DC CORRESPONDENT
HYDERABAD, DEC.2

The cost of getting an Rt-PCR test for Covid-19 for international travellers arriving in India varies from airport to airport with the costs at Rajiv Gandhi International Airport in the city on the upper side compared to some other airports in the country. At RGIA, a regular Rt-PCR test costs ₹999, and a rapid Rt-PCR test costs ₹4,500 for passengers. The Telangana State Government's official rate for a regular Rt-PCR test outside of the airport is Rs 850, and if a sample is collected from home, then the testing agency is allowed to

selected randomly from other international arrivals, are also tested as per the protocol laid down by the Government of India.

With an unexpected arrival of 325 passengers between Wednesday and Thursday at RGIA, there was a rush for rapid Rt-PCR tests as most passengers did not want to wait for six to eight hours to get a result from the regular Rt-PCR testing method. "We were expecting few to go for the rapid tests but it turned out to be the other way. There was a rush for the rapid tests and just about 20 people opted for the regular tests," Director of Public Health and Family Welfare Dr G Srinivas

2 cases of Omicron in India

FROM PG 1

A total of eight people at the IGI airport from "at-risk" countries have tested positive for Covid-19 since stricter norms for international passengers came into effect on Tuesday midnight. The eight Covid positive travellers and two other passengers who showed "Covid-like symptoms" have been admitted to the Lok Nayak Hospital, where a dedicated ward has been set up for isolating and treating such patients.

The countries designated as "at-risk" are European countries, including the UK, and South Africa, Brazil, Botswana, China, Mauritius, New Zealand, Zimbabwe, Singapore, Hong Kong and Israel. Under the new norms, RT-PCR tests are mandatory for passengers arriving from the "at-risk" countries and they will be allowed to leave the airport only after the results come.

Union home ministry's joint secretary Lav Agarwal along with other senior Central government officials, who briefed the media in Delhi about the two Omicron cases detected in Karnataka, did not disclose that the foreigner who had been detected with the new variant had already left the country.

Emphasizing that all Omicron related cases found so far were having mild symptoms, Mr Agarwal said, "In all such cases in the country and across the world so far, no severe symptom has been noted. WHO has said that its emerging evidence is being studied."

NitiAayog member-health V.K. Paul said that an increase in Covid-19 vaccine uptake is the "need of the hour" and urged people to not delay getting fully vaccinated.

The cumulative Covid-19 vaccine doses administered in the country have already crossed 125 crore. Of this, 79.13 crore (84.3 per cent) beneficiaries have been administered the first dose and 45.82 crore (49 per cent) have been fully jabbed.

The South East Asian region, including India, had only 3.1 per cent of the world's Covid-19 cases last week. Kerala and Maharashtra have reported over 10,000 active Covid-19 cases, while nine states and Union Territories had active cases between 1,000 and 10,000.

The weekly Covid-19 positivity rate has been over 10 per cent in 15 districts and between 5 and 10 per cent in 18 districts.

With 9,765 new coronavirus infections being reported in a day, India's total tally of Covid-19 cases has gone up to 3,46,06,541, while active cases have increased to 99,763. The death toll has climbed to 4,69,724 with 477 fresh fatalities, including 403 from Kerala.

Of the fresh deaths in Kerala, 96 were reported over the last few days and 307 were designated as Covid deaths after receiving appeals based on the new guidelines of the Centre and the directions of the Supreme Court.
