NIHVA

DESIGN CHECKLIST (Roof Division)

SHIVAAH:

Project Name- **Date-**

Sr No	Activity	Check	Comments
1	**Inner width** of the cutout		
2	**Outer width** of the cutout		
3	**Inner length** of the cutout		
4	**Outer length** of the cutout		
5	**Parapet width** both side		
6	**Track selection** (GNT/Lift/Wall Mounting)		
7	**Track + Motor** space requirement		
8	**Extension of the tracks**		
9	**Parapet concrete height** available on site		
10	**Slope along the length** of the tracks		
11	**Electrical connection** 5 amp, 220v Single phase		
12	**Motor-** capacity adding with 1.5 safety factor		
13	**Inner width** of the roof		
14	**Outer width** of the roof		
15	**Inner length** of the roof		
16	**Outer length** of the roof		
17	**Centre Height of the roof**		
18	**Single motor/Dual motor/4 Motors**		
19	**One side opening/Bi parting**		
20	**RAL Color**		

21	**Type of Polycarbonate sheet**		
22	**Type of Glass**		
23	**Width more than 7 mtr, check deflection**		
24	**Check Grid size of roof**		
25	**Each Panel size and size of each section of Panel (should be match with STD width size of PC)**		
26	**Check Interlocking** Pad position in Panel		
27	**Check Overlapping** of Panel		
28	**Profile** -1)MS or 2)Aluminium or 3)MS+Aluminium		
29	**Track selection-** 1)GNT or 2)Lift or 3)Wall Mounting		
30	**Guide selection-** 1)Nylon wheel or 2)Bearing Housing or 3)STD Guide (SBR) Bearing		
31	**VMC or Laser cutting** part scale 1:1		
32	**Anchor** chemical or simple		
Team Member Name		**Signature**
