SUNLESS PREMIUM TENTE

System Specifications

- Integrated lighting solutions (Optional)
- Direct drive motor system for easy forward opening and closing
- Remote control for system and lighting
- German heat-resistant, 100% waterproof blackout fabric with alternative color options
- Air and waterproof where the systems more than one are connected
- High quality stainless steel fasteners
- Air and waterproof insulation around the entire system
- Foldable glass applicability around the system
- Minimum 7 degree inclination possibility
- Production on CE and TUV standards

Technical Details

- All the profiles and the construction are painted with electrostatic powder. The system's construction is made of aluminum.
- The iron construction is used as a carrier where the system is mounted

Cross-sectional dimension details:

- RAFTER 160 mm x 80 mm x 2.5 mm
- GUTTER 185 mm x 150 mm x 2.5mm
- POST 140 mm x 120 mm x 2.5 mm
- The system is mounted on its own feet or carrier iron construction and fixing to the ground with steel dowels.

Fabric

- Blackout fabric which has 3 layers and weight is 800 gr / m2.
- It has non reflective,fire resistant and equal stretch properties.
- It is guaranteed against tearing,against fading and waterproof
- The brand which the engine that provides the movement of the pergola system is 'Somfy' and has remote control
- As an optional LED lighting modules which is remote control can be added to the pergola system .
- The engine torque in the pergola system is 85 Nm/120 Nm and turnover 27 rpm.
- The gutter profile is used in the pergola system to supply water drainage
- The movement of the pergola system is provided by using the "Trigger Tension System".
- The Pergola system has a roving system that prevents rain and wind leaking from the sides.
- All fasteners, bolts and pins of the pergola system are INOX stainless.
- Side beams can be added to the system to close sides of Pergola
- It is guaranteed 2 years for Tent mechanism,5 years for motor and Blackout fabric
