High Performance Door Solutions

Customer	Contact person	Address Zip code, city	
Brand / manufacturer	Type	Order no.	Manufacturer no./series no.
Internal no. / location	Number of cycles	Drive, please include type	Last inspection

Pos.	Door components	Test	Result
1	**Safety features**		
1.1.	Disconnecting means (main switch, CEE connectors, ...)	1	
1.2.	Manual safety switches (crank switches etc.)	1	
1.3.	Closing edge protection	1	
	- Contact strip (level of protection C) (EN12453)	1	
	- Prerunning photocell (level of protection E) (EN12453)	1	
	- Light curtain (level of protection E) (EN12453)	1	
	- Other safety features	1	
1.4.	Stationary safety features (level of protection D) (EN12453)	1	
1.5.	Additional safety devices	1	
	- Motion sensors	1	
	- Induction loops	1	
1.6.	Emergency stop	1	
1.7.	Slack rope switch	1	
1.8.	Draw-in safety device	1	
1.9.	Slip door switch	1	
1.10.	Spring fracture safety device	1	
1.11.	Roll-off safety	1	
1.12.	Safeguarding crush and shear points	1	
1.13.	Warning signs (present, legible)	1	
1.14.	Type of actuation (please select)		
	- Hold-to-run control		
	- Impulse control with view of the door		
	- Impulse control without view of the door		
	- Automatic control		
2	**Door leaf / top roll**		
2.1.	Door leaf, section, wing	2	
2.2.	Rollers, wind protection devices, sliding blocks, guides	2	
2.3.	Fixing / connection: Hinges, supporting device, etc.	1	
2.4.	Sealing	2	
2.5.	Bearings, bearing supports/ brackets	2	
2.6.	Rope drums and pulleys	2	
2.7.	Crash function	2	
2.8.	Covering	2

3.5.	Fixing to: Floor, wall, ceiling	1	

☐ The door corresponds to local regulations.

☐ The door does not correspond to local regulations, there are significant concerns regarding continued operation.

☐ Create a quotation in acc. with the quotation form. (Service technician)

☐ Carry out repair in acc. with the order form. (Service technician)

☐ Repair is documented with a separate service record.

☐ Operator does not want a quotation / repair

Comments:

Pos.	Door components	Test	Result
4	**Counterbalancing system**		
4.1.	Springs, spring supports	2	
4.2.	Weights	2	
4.3.	Ropes, belts, chains	2	
4.4.	Balancing / counterbalancing	1	
5	**Control system**		
5.1.	Control / with control elements	2	
5.2.	Electrical connections / installation	2	
5.3.	Shielding / grounding	2	
5.4.	Function check in accordance with the circuit diagram	2	
5.5.	Documentation: Circuit diagram, type plate etc. (present, legible)	2	
5.6.	CE mark (present, legible)	1	
6	**Drive unit**		
6.1.	Gears: Oils leaks, running noise	2	
6.2.	Electric motor	2	
6.3.	Brake	1	
6.4.	Emergency actuation	2	
6.5.	Torque bracket	1	
6.6.	Drive chains, belts	1	
6.7.	Encoder	2	
6.8.	Limit switch	2	
6.9.	Covers	2	
7	**Actuators**		
7.1.	Pull switch	2	
7.2.	Motion sensors	2	
7.3.	Induction loops	2	
7.4.	Push button	2	
7.5.	Radio	2	

Results:

x = OK

B = Safety-relevant complaint: Replacement imperative

V = wear: Replacement recommended

▬ = not present
