

EGGER, Brilon — New doors installation

Albany RR300 – Mechanically dependable and durable for EGGER

Egger are one of the leading manufacturers of decorative and constructive wood based panels worldwide. Since 1961, Egger has been operating on a global scale as a continually expanding family enterprise. 16 locations in Europe with 5,100 employees deliver to 75 different countries with an annual sales turnover of 1.85 million euros.

The Egger plant in Brilon manufactures derived timber products such as MDF, HDF, and raw and melamine resin coated boards as well as laminate floor. The manufacturing process is highly automated and takes place in various production rooms.

The Egger plant selected the Albany RR300 from ASSA ABLOY Entrance Systems as the optimal door solution. The durable, modular design of the Albany RR300 can be customized to the clients specifications and therefore proves especially viable for the requirements of the Egger plant. Service friendly and cost-efficient, ASSA ABLOY Entrance System's Albany RR 300 offers extended energy savings, preventing loss of warmth and maintaining stable room temperature, even when frequently opened and closed during production.
