Sunkaer

High-end Outdoor Sunshade Solution Since 2001

Retractable enclosure

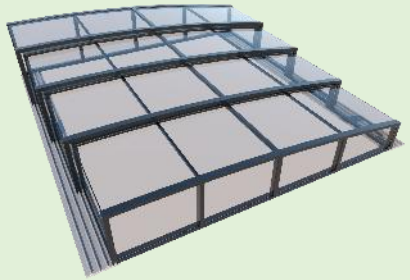

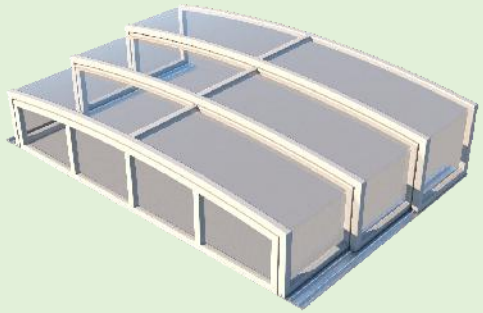

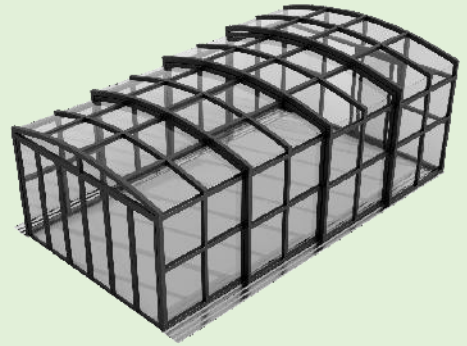

SK-S01 (Sunroom,canopy)

Application :
patio、terrace、balcony

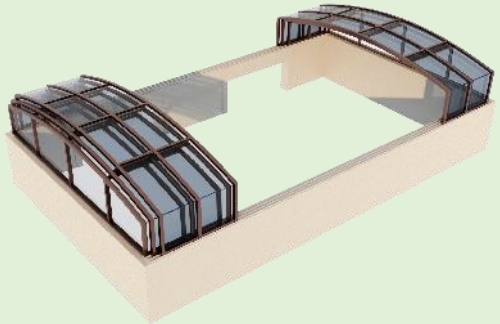

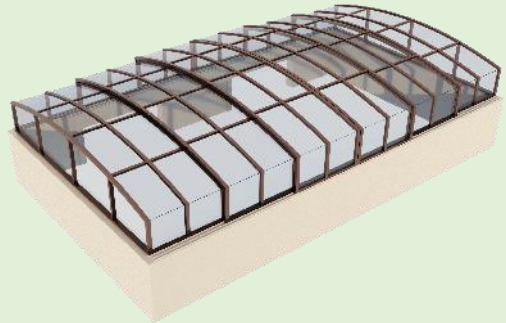

SK-S02 (Pool cover)

Application :
swimming pool

SK-S03 (Roof cover)

Application :
Rooftop 、Lightwell

Material explanation

	Retractable enclosure	Fixed Glass enclosure
Main material	aluminum+PC sheet	Steel / Aluminum+glass
Category	Outdoor sunshade	Building Structure
	no need application	same as windows&doors, need to be approved by council property
Function	retractable can be sealed or completely exposed to the air	heat isolation but too stuffy
Construction procedure	Easy installation Small engineering	bulky and heavy complicated structure with huge work

	Polycabonate sheet (Sunkaer)	Toughened Glass
normal thickness	4mm	12mm
light transmission	90%	90%
impact resistance	impact resistance 3-5 times stronger than toughened glass	easy broken crack happens when hitting
weight	1.2g /cm3 5kg per sqm (easy carry)	2.5g /cm3 30kg per sqm (very heavy)
service ability 1	no broken	esay broken through transportation
service ability 2	no risk 10 years' warranty on aging or yellowing	risk of self explosion

Price calculation

U-Style

L-Style

Working principle：The main structural plate composed of the top & front surface slides within the two tracks laid

Style differences：L：Supported by walls，1 wall track+1 floor track+sealed side cover

U：No wall support，2 floor track+sealed side cover

Price calculation：L：Top *1+Front *1+Side *2

U：Top *1+Front *2+Side *2

Unit price per square meter: varies from 1000 to 2000 RMB based on on-site dimensions

Customized process - 1)

1) Customized solution +quote:
site pictures+dimension
(external view with clear house structure)
(example is as follows)

Customized process - 2)

2) Renderings Application: Budget acceptance, request to create 3D rendering, 100% restore the scene and add it to the sunroom, preview the overall completion effect (example is as follows)

Customized process - 3)

3)
Order confirmation
+CAD shop drawings:

50% deposit is required to issue design and processing drawings, and the drawings are modified to satisfaction. The customer signs and production begins
(examples are as follows)

Customized process - 4)

4) Production: 25-40 working days. Delivery before balance and inspection can be arranged.
Assembly: All orders will be assembled and well tested before delivery,guide book will be made.
Logistics: In accordance with customer needs, it can be delivered directly to the customer's doorstep, including customs clearance and taxes
Installation: goods received as formed sections,hang them into the installed track,The home decoration project can be completed in half a day
Warranty: 10 years' warranty with 15-20 years' service life, waterproof, compressive, and impact resistant.
