LIGHT TRANSMISSION

Fabric used in Megadoor products

Light transmission at wavelength 550 nm, where the human eye is most sensitive.

Colour	1 layer	2 layer	(approximate values)
o Translucent white	30 %	9 %	
o White	8 %	0.6 %	
o Yellow	5 %	0.2 %	
o All other standard colours	0 %	0 %	

A complete door has 2 layers of fabric, one on each side of the intermediate sections.
