

Heuchemer, Miehlen — New doors installation

Albany RR355 – Well Played at Heuchemer

The Heuchemer Factory in Miehlen needed a high performance door that would support and maintain the special conditions required in its highly modern production facilities. Because Heuchemer had good experiences with ASSA ABLOY Entrance Systems in the past with its automated production lines, they commissioned ASSA ABLOY Entrance Systems to equip their factory a suitable door solution.

With the Albany RR355, ASSA ABLOY Entrance Systems was able to convincingly fulfill the special requirements. Fast opening and closing times allow goods to be optimally transported through perfectly climatized rooms.
Draft and the intrusion of dust particles or the loss of heat due to temperature variation are easily avoided.

Furthermore, service friendly and costefficient, Heuchemer was convinced that the Albany RR355, constructed for maximum safety with highly transparent doors that prevent collisions and equipped with innovative all-around safety features based on a patented system, would optimally support production and address safety concerns. Founded in 1920 by Carl Heuchemer, Heuchemer Verpackungs GmbH & Co. KG is one of the leading producers of packaging.
In the factory in Miehlen, the company produces plastic packaging, corrugated cardboard, and solid fiberboard with the most modern technology.

The enterprise employs about 250 workers and a further 50 part-time or from home. In 2004, Heuchemer Verpackungs GmbH & Co. KG achieved a sales turnover of around 50 million euros. Overall, the packaging specialists process 62 million m² of cardboard which is the equivalent of a volume of 33,000 tons or 330 million packaging units.

HEUCHEMER GmbH & Co. KG VERPACKUNG
