STANDARD OPERATING PROCEDURES

Service Complaint Processing

Process Flowchart

Roles and responsibilities

Activity	Department	Responsibility	
Receipt of service complaint	Service/Sale	Concerned	As and when
Verify the complaint and product warranty If out of warranty charge the standard visit charges	Service	Concerned service representative.	Immediately
Complaint processing Existing product: if it's in warranty provide service visit on warranty basis. Align the service engineer to attend the complain	Project & service	Concerned project & service representative.	Within 24 HRS
Respond to customer-service complaint status	Service	Concerned service representative	Immediately

1. Receipt of enquiry

A service or product related complaint could be received from

i. New customer
ii. Existing customer

In case of an enquiry from new customer, the business information is collected from customer. Sales support team would validate the information on internet / company's website to ensure that it is genuine customer.

2. Documentation

i. Upon confirmation, Sales Support executive (Sales Dept.) sends below documents to new customer:

   a) New vender registration form

   b) Standard terms and conditions with NIHVA document

   c) NIHVA Brochure

ii. The customer fills in company details in the account opening form, sign it and send back to Sales-Support (Sales Dept.) over email / fax / by post.

iii. Sales support team reviews the information and sends it to Accounts dept for customer setup in system.

iv. Note: Customer may also share their business terms with the company which is forwarded to Legal Department for review.

3. Processing enquiry

i. Based on specifications received from customer, Service Representative (Service Dept.) identifies if the requirement is for an existing product or a new product.

   - In case of existing product, after warranty verification provide the service visit

   - In case of a new product/out of warranty product, Follow for the standard service visit charges

ii. Upon receiving a response from project & service dept. (refer process of sample development), an acknowledgement is sent to customer regarding acceptance or rejection of complaint.

Service & Spare part Pricing Finalization

Process Flowchart

Roles and responsibilities

Activity	Department	Responsibility	TAT
Send product specifications to Purchase Team for obtaining cost	Service	Concerned service / Sales Rep.	As and when
Prepare cost for new product / spare part	Purchase Team	Purchase Executive	Within 48 HRS
Add margins to overheads as per budget	Backend Sales	Support and service representative	Immediately
For non-budgeted margins, approve final prices / margins	Sales	Sales Director	Immediately

i. For each existing spare part, price master is updated in system. Also, for any exceptions (customer wise), a special price need to be get from sales director.

ii. Based on spare part specifications and costing, prepare the cost sheet.

iii. In liaison with annual sales budget, Support-sale (Sales Dept.) add margins to the overheads.

iv. In case of non-budgeted margins, an approval of Sales Director is obtained over email / physical copy.

v. Based on pricing finalized, Service representative (Service Dept.) quotes the prices to customer over email.

vi. Upon approval/PO, the same is added in the system by back sales Team.

Credit Management

i. For a new customer, usually payment terms are not defined until first 3 orders / transactions.

ii. Based on customer's purchase order and a corresponding sale order, Preform Invoice is generated and sent to customer to make advance payment within 7 days.

iii. Once the payment is received from customer, goods are dispatched to customer.

iv. After 3 successful orders and corresponding timely payments from customer, a credit insurance application process is initiated.

v. Based on customer's credit worthiness and other verification, assigns a credit limit. Upon receipt of credit limit, the same is updated in system against customer code by Finance team.

vi. Accordingly, payment terms are assigned too and updated in system

vii. For large customers credit insurance is applied at the time of opening new account. This is done with approval from Finance Director.
