ENABLING SMARTER LIVING ENVIRONMENTS

LIBART VERTICAL SLIDING WINDOW PROPOSAL

Dear Mr. Piyush,

Libart is a global brand in the field of “Kinetic Architecture”. During 24 years of activities from its headquarters in Istanbul - Turkey, it has in introduced many innovations and received numerous awards in the United States, Canada and Australia for its designs. The vision and goal of Libart is to be the global leader in its field, by creating innovative, customer centric solutions that are built to highest standards in product quality and safety. Libart has been providing retractable structures and kinetic architectural solutions for customers in over 20+ countries, with manufacturing partners in the United States, Canada and Australia.

The innovative designs of Libart provide unique moving architectural solutions for residential, restaurant, hospitality, commercial and industrial clients. Libart’s retractable structures blend indoor and outdoor spaces, allowing for “Indoor Comfort, Outdoor Freedom”.
