Do’s & Don’t – Gear operated rolling shutter

A. Do’s –

1. Check the door is not locked in any way and that there are no obstructions that may prevent the door from opening.
2. Check that the area is clear of all personnel
3. Ensure the shutter greasing properly

B. Don’t –

1. Do not operate the shutter if there is inadequate spring tension
2. Do not operate the shutter if there is no lubrication in between moving parts
3. Do not try to open / close the door beyond its limit
