Complete Entrance Solutions for Retail

ASSA ABLOY

ASSA ABLOY Entrance Systems

The global leader in door opening solutions

"Our customers expect an appealing store and the best from our staff and products. With ASSA ABLOY Entrance Systems products and maintenance program, we are able to focus on our core business, ensure optimal convenience for all and increase our energy savings."

John Andersen, Store Manager
Denmark

Support in Facing Business Challenges

There are many benefits to entrance automation. Our product portfolio will help you create a more profitable business and increase convenience for your staff and customers by optimizing the flow of people and goods while reducing excessive energy consumption.

Whether you are a local mini-market open around-the-clock where easy access and customer intimacy is key, or a hyper market facing an intense flow of people and fresh goods – we can advise you on the best solution for your business and provide products, maintenance and modernization possibilities for all your automated entrance needs.

Your success is our business

With more than half a century of experience in supporting retailers in their daily business, we take pride in our customers leaning on our know-how and products when facing challenges.

Your goods, staff and customers' personal safety and convenience are a priority we share. For that reason, we meet or exceed local safety, security and disability regulations at all times.
Your peace-of-mind is our motivation.

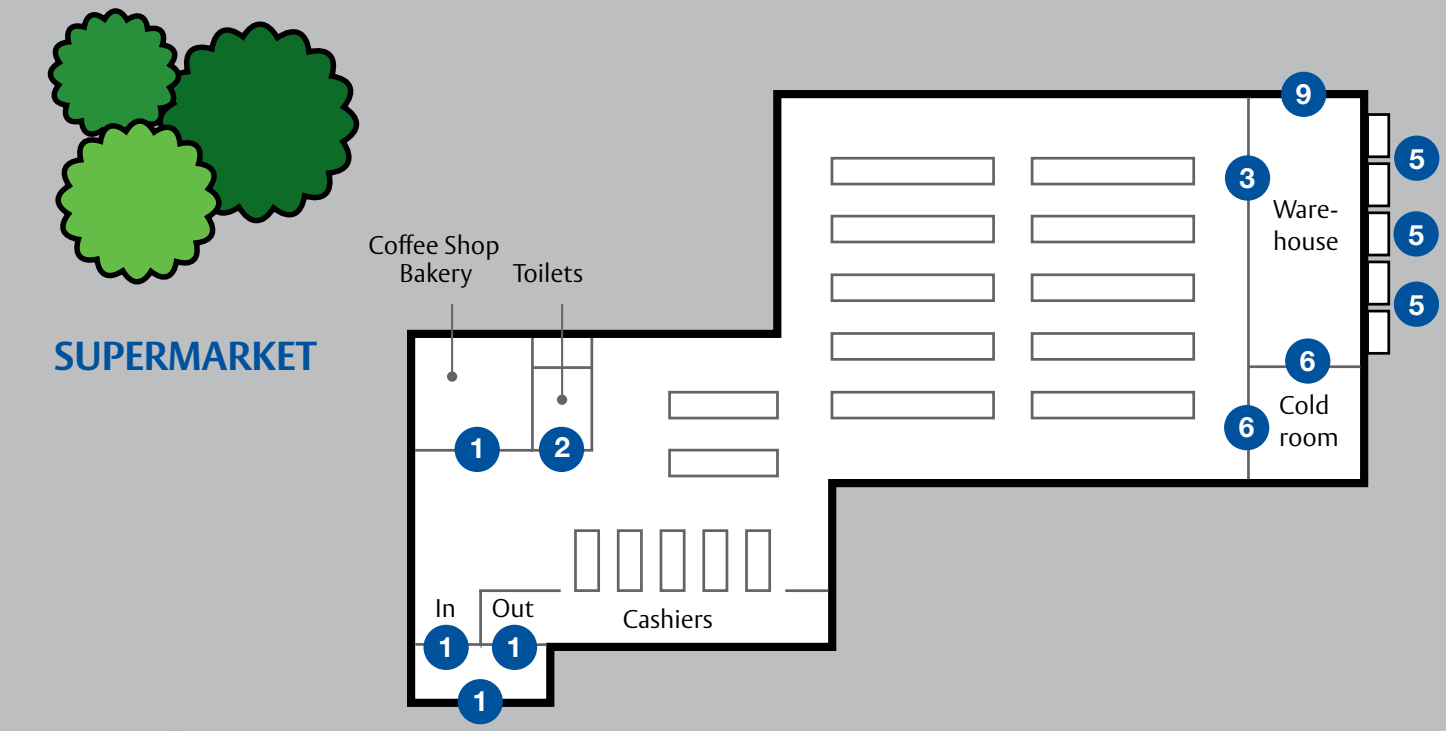

Our Solutions Include:

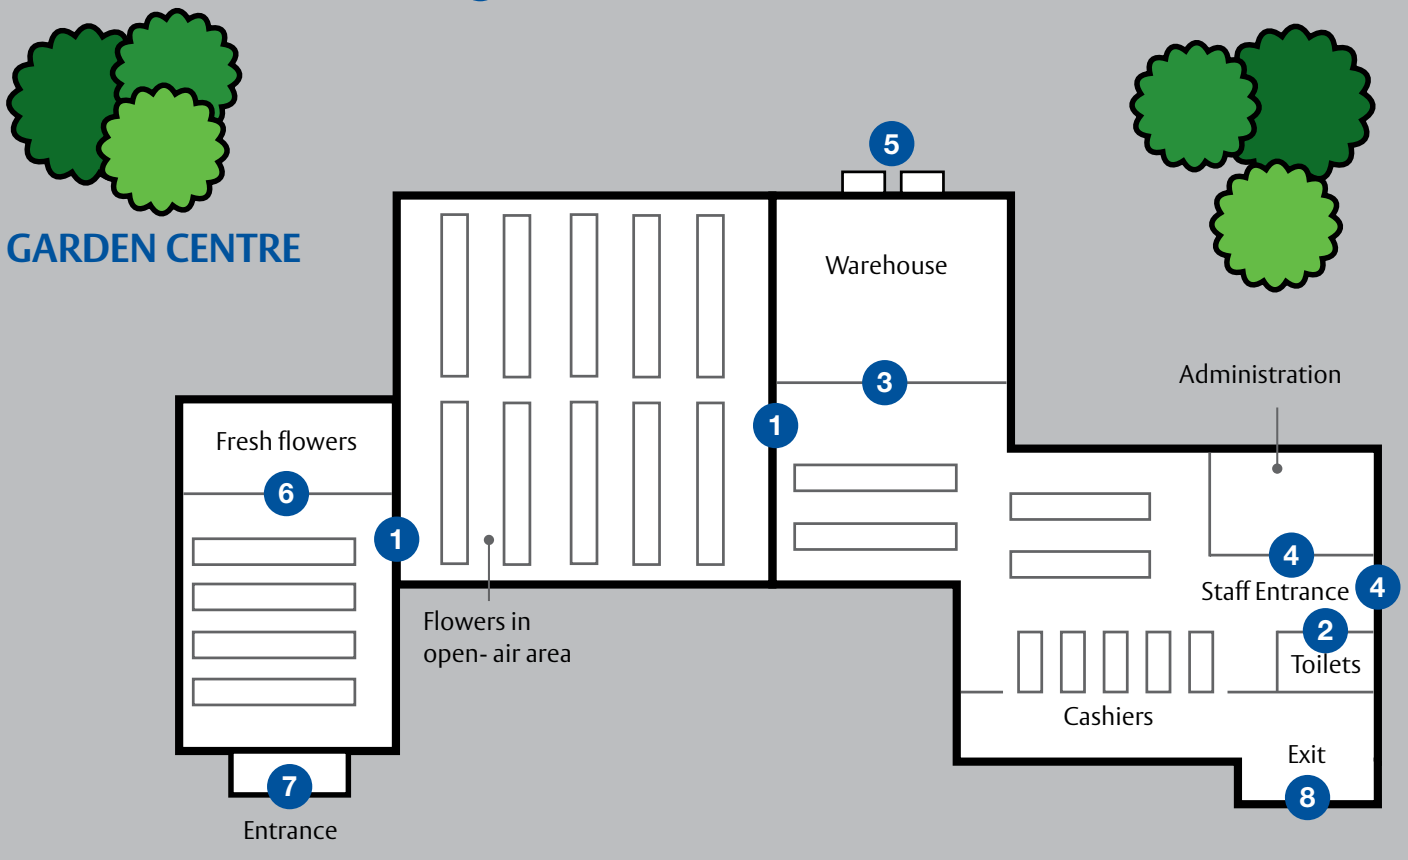

- Sliding, swing and revolving doors for smooth people flow
- Industrial doors, docking shelters and levelers for optimal flow of goods
- High performance doors with fast opening and closing for optimal flow of goods inside the building

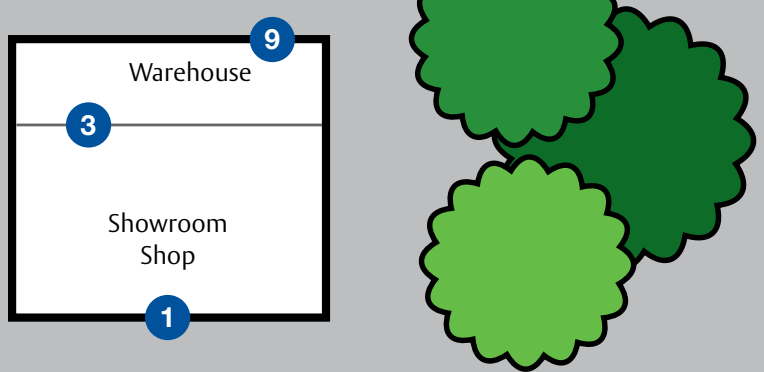

Major Benefits:

- Energy-savings
- Improved convenience and business efficiency
- Extensive maintenance programs for operational excellence and pro-longed product lifecycle
- Convenience in people and goods flow
- Modernization possibilities
- Market-leading brands and a complete portfolio in entrance automation

ASSA ABLOY, Besam, Crawford, Megadoor and Albany, as words and logotypes, are examples of trademarks owned by ASSA ABLOY Entrance Systems or companies within the ASSA ABLOY Group.

A Perfect Solution for Every Location

1 

Sliding Door
Besam sliding doors easily adapt to changes in traffic flow without compromising safety and energy savings.

2 

Door Closers
Besam Door Closers are CE marked, EN-standard products - ideal for public areas such as restrooms.

3 

High Speed Door
Albany's Interior High Speed Doors are space-saving doors for moderate traffic, separating conflicting areas.

4 

Swing Door
Ensure maximum convenience when space is a factor with Besam swing doors. Add access control for increased security.

5 

Dock Levellers and Docking Shelters
Crawford Dock Levellers and Docking Shelters will optimize your energy savings and goods flow by tailoring a complete docking solution to your business.

6 

Cold Room Door
Albany Cold Room Doors will lower energy-losses for high-traffic cold areas without compromising speed and safety.

Proud advisors to the architectural community for more than half a century

7 

Revolving Door (2-wing)
Let a Besam revolving door welcome customers while safe-guarding air infiltration. Use the display areas for promotions and campaigns.

8 

Revolving Door (3-wing)
Besam's high-capacity revolving doors are impressive entrances or exits with superior safety and energy-saving features.

9 

Overhead Sectional Door
Crawford's Overhead Sectional Doors are space-saving, robust and well-insulated doors, ideal for warehouse applications.

Facility Challenge:

- ☐ Reduce heating and cooling costs
- ☐ Improve workflow in the warehouse
- ☐ Impressive main entrance
- ☐ Old industrial doors are a risk factor and do not meet safety norms
- ☐ Too much downtime
- ☐ Increase products' lifecycles

ASSA ABLOY Entrance Systems Solution:

- ☐ Control air flow with tight seals
- ☐ Crawford docking concept and Albany high performance doors to reduce heat exchange and improve goods flow
- ☐ Besam high-capacity revolving door
- ☐ Modernize existing installations with safety kits
- ☐ Service contract for regular maintenance

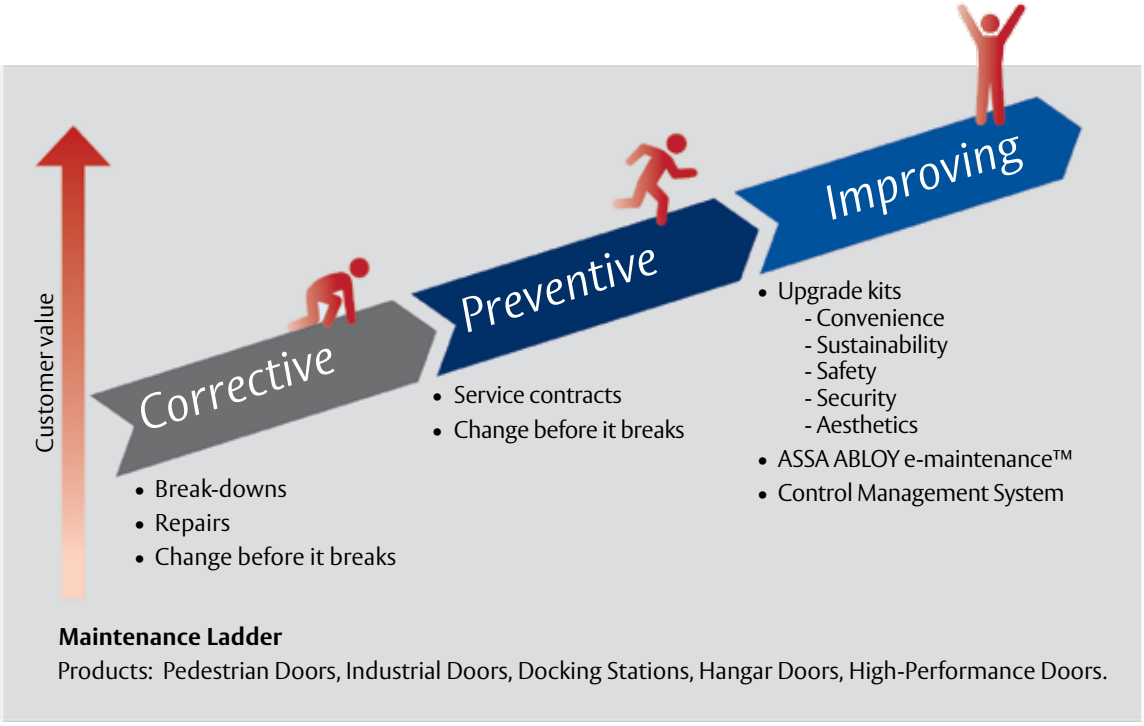

Maintenance programs and Modernization

As your entrances are essential for your business flow, there is every reason to keep them working well. Our fleet of skilled and certified service technicians are the heart of our **Maintenance Programs** and **Modernization Services**, dedicated to ensuring that your entrances operate at optimal performance at all times, and assisting you in lifting older installations to today's standards.

Maintenance programs

Minimizing lost time, lost energy and unexpected hassle is our team's constant objective. If you want to be one step ahead of break-downs, explore our preventive maintenance offering and portfolio of Pro-Active Care plans.

Maintenance Ladder

Products: Pedestrian Doors, Industrial Doors, Docking Stations, Hangar Doors, High-Performance Doors.

Modernization

Your entrances are a long-term investment from which you always want the best. Technology develops over time, so do regulations and your business. Let us support you to increase energy savings and meet today's standards. We provide advice and modernization kits for outdated installations, ensuring that your investment meets requirements and performs optimally for many more years to come.

ASSA ABLOY ENTRANCE SYSTEMS

Energy-Saving Advice

Calculate your return on investment and total energy-savings by potentially investing in a Besam Revolving Door

A well-maintained automated entrance with the right configurations generates less than 50 Euro a year in energy costs. In return, it can cut your building's total annual total energy spending in half.

The architectural community represents one of ASSA ABLOY Entrance Systems' most important industry partners. We are committed to establishing quality, long term relationships with design professionals based on trust, professionalism and respect.

We aim to support our partners in finding the entrance and service solutions that effectively pair energy-savings with the architect's own design aspirations throughout each step of the building process. Inspiration, solutions, design and functionality, budget support - we can be of service no matter what your needs are.

Calculate and compare potential energy and emission savings for various docking concepts using the Crawford energy calculator.

Automatically Green Advice Tools

Your local ASSA ABLOY Entrance Systems advisor have access to professional tools designed to provide our customers with reliable and relevant data for choosing the entrance products that best suit your specific circumstances and sustainability needs.

Years of testing, documentation and measurements of our products in different applications have gone into the development of these energy savings tools and they are continuously evolving. Local energy costs and environmental circumstances are taken into account, tailoring the report to each client and location.

Our energy and emission calculation tools are an important part of our sales advisors' toolkit for on-site assessments and demonstrations.

Maintenance and Sustainability

Regular maintenance not only ensures top performance of an automatic entrance, it also reduces its impact on the environment. Our complete service offer includes maintenance programs as well as upgrade- and modernization possibilities, making it an excellent choice for customers looking to lighten their environmental footprint.
