SHELL STRUCTURES, INDIA

AUTHORISED MANUFACTURER Dealer | Distributor | Supplier SPRECH SRL, ITALY

ACCOMODATION RESORT TENTS

SHELL STRUCTURES Resort Tents are specifically designed to provide a Luxury & Effective solution for Travel & Tourism, Hotels, Resorts, Forest Departments etc. in a unique way that allows you to live in the most perfect harmony with landscape and nature. Look out for the various models that suits your requirement and you will find the most modern solutions at our end.

- **Can be set up in NO CONSTRUCTION Zones**
- **Small Carbon Footprint**
- **Light Foundation Compared to Standard Buildings**
- **No walls**
- **Enjoy feeling of an open atmosphere while being protected from weather conditions**

ADVANTAGES

Modular Design

Shell Structures being formulated with a modular design have a number of advantages

- ❑ **Easy Installation** : Due to the modular design of the structure, ease of installation is good
- ❑ **Time** : Comes in Ready to Fit condition, hence installation time is nominal.
- ❑ **Relocation & Re-usable** : Easy to Re- locate and re-use the model due to its modular components
- ❑ **High Adaptability** : Structures can be coupled for expansion, this also saves used space and extra material
- ❑ **Water Drainage** : Features for Water Drainage incorporated within the structure.

ADVANTAGES

Modular Design

- **Great visual appeal – The unique design** of **Shell structures for any application or** event would enhance the aesthetic value of your premises significantly.
- **Compatibility – Highly compatible with** other structural materials like wood, concrete, metal and glass.
- **Protection – In any event protection from** rain and sunlight is of utmost importance. **A D V A N T A G E S**
- Our structures are built to be durable in heavy rain, sunlight and even strong winds!
- **Long lasting – Shell Structures are long** lasting and sturdy

FABRIC

We use specialized fabric for the top cover of **SHELL STRUCTURES**

- UV Protection
- Fire Retardant
- Water Proof
- Wide spectrum of lighting
- From translucent to 100 % blackout

COMPARETIVE STUDY

CORE FEATURES	SHELL STRUCTURES TENTS	CONVENTIONAL Tents
AESTHETICS	Shell Resort Tents, give a modern and high-class appearance	Conventional tents have an old world feel
TOP COVER	One layer of EUROPEAN MAKE ARCHITECTURAL FABRICS WITH 100% WATER-PROOFING is enough to give comfortable environment.	Canvas fabric used is not as effective and needs number of layers to create amicable environment.
SPACE UTILISATION	Tension of fabric is created within the design of the main frame. Hence space used is optimized.	Surrounding pace used is more; due to tensioned ropes.
MAINTAINCE	Fabric does not get fungus in damp weather	Canvas is vey likely to form fungus in damp weather, hence maintenance difficult
FRAME TYPE	GALVANIZING MAKES STRUCTURE CORROSION & RUST FREE	Wood & Normal Steel causes corrosion & rust
FIRE RATING	HIGHLY FIRE RETARDANT	NO FIRE SAFETY
LIFE EXPECTANCY	9 - 12 YEARS	2 - 3 YEARS
INSTALLATION	QUICK & EASY AS MODULES COMES IN READY –TO- FIT CONDITION	TIME CONSUMING & DIFFICULT TO INSTALL AS WORK IS DONE ON-SITE
UV RESISTANCE	UV PROTECTED	NON-UV PROTECTED
