Dated: 6th Dec. 2021

Dear Mr. Kapil Singhal

As per your discussion we are pleased to enclosed here with offer for Oral Syrup Processing and Packaging Line as per URS

AN ISO 9001 - 2008 CERTIFIED COMPANY.
SB MACHINES
ADVANCED PACKAGING AUTOMATION

For SB Machines

Mohit Khatwani

PRO-FORMA INVOICE

SR. NO	Product Description	Unit	AMOUNT IN INR
1	**3000 LITER BATCH SIZE ORAL SYRUP PHARMA CGMP MANUFACTURING PLANT CONSIST OF AS PER DETAILS MENTION BELOW** **Liquid Manufacturing Plant** The Liquid Manufacturing Plant is a set of equipments designed for the manufacture of syrups, liquid oral formulations and other water based pharmaceutical products for capacities ranging from 3000 LITER AS PER URS **Sugar Dissolving Vessel:** The Sugar Dissolving Vessel is a jacketed cylindrical tank with torrispherical dish ends. A propeller type stirrer is provided for agitating the liquid. **Pre-Filter:** The Sugar Pre Filter is a small tank that contains a mesh, through which the sugar syrup is filtered before being transferred into the manufacturing vessel. **Manufacturing Vessel:** The Manufacturing Vessel is a jacketed cylindrical vessel with torrispherical dish ends and propeller type agitator. The vessel can be provided with a top stirrer or a bottom stirrer arrangement as per customer requirement. **Homogenizer:** The Homogenizer â€“ Tank or Online is used with the manufacturing vessel to reduce particle size and promote uniform mixing. **Storage Vessel:** The Storage Vessel is a cylindrical tank with torrispherical dish ends in which the product may be collected and stored till it has to be transferred to the filling line. It is provided with a propeller type stirrer. **Transfer Pumps:** Two transfer pumps (twin lobe or centrifugal) are used; one to transfer the product from the Manufacturing Vessel to the Storage vessel and another to transfer the product from the Storage Vessel to the filling line. **Vacuum System:** The Vacuum System consists of a vacuum pump and inter-connecting pipeline. It is used for the transfer of sugar and sugar syrup.	**EACH**	**48,50,000/-**

Inter-Connecting Pipeline:

The Inter-Connecting Pipeline is provided for the plant as per the layout. All pipes are electro-polished from the inside.

Working Platform:

A suitable Working Platform is provided to help in the maintenance and operation of the plant.Â

Control Panel:

The electrical control panel houses the necessary electrical components and controls needed to operate the plant. Custom built automation can be incorporated to improve efficiency and reduce errors.

Preparation Vessel & Liquid Syrup Manufacturing Plant
Liquid Syrup Manufacturing Process
Application & Process :

SB MACHINES has been designed & manufacturing preparation vessels and has consolidated a process knowledge concerning sterile injectable solution, dispersions, ophthalmic products, syrup and suppositories.

Preparation Vessels & Tank :

AN ISO 9001 - 2008 CERTIFIED COMPANY.
SB MACHINES
ADVANCED PACKAGING AUTOMATION

Extremely hygienic processing.
Least manual handling.
Design compliance with cGMP
Capacity up to 3000 Liter.
Product Contact AISI 316L
Atmospheric, Vacuum or Pressure Operation.
Jacket for heating & cooling.
Vessel Inside Pressure (-1 /+2 Bar)
Heating Jacket Pressure (-1 /+6 bar)
Heating by steam or hot water circulation.
Thermal Insulated.
Mechanicals or Electro polishing of internal surface.
Welded, flanged or hinged type cover
Integrated Cleaning in Place-CIP.
Sterilizing In Place-SIP as an Option.
Portable execution on request.
Validation protocols & Instrumentation celebration.
Variable Speed Agitation :

Agitator can be top or bottom driven or magnetically driven.
Propeller type, Anchor type provided with High speed disperser or rotor-stator homogenizer.
Single or double mechanical seal.
Fully automatic Liquid Syrup Manufacturing Plant consisting of :

A-9, Bileshwar Estate, Opp. Vepari Maha Mandal-Kathwada GIDC, Ahmedabad ,Gujarat -India.
Office Address Is: Block - B , Sf-07, Barcelona Complex Sp - Ring Road Circle, Odhav , Ahmedabad - 382415 Gujarat India.

OPERATION AND FEATURES

Servo Continuous motion & pneumatic diving nozzle based Gear Pump filling machine offers flexibility for wide range of liquids with ease of simply. Gear pump fillers are positive displacement pumps with self-priming features. Pumps can fill minimum to maximum fill volume without any mechanical setting by HMI such as a flow meter. Gear Pump filling is a cheaper option of flow meter filling.

Gear Pump Filler is accurately measured the revolutions of the pump and motor assembly. Fill rates can be modulated controlling the motor RPM and running time with guaranteed to result in a clean end to your fill cycle.

Specifications

- 7" color touch screen with plc for various error message and control system
- Rugged, reliable construction
- No bottle no filling, no bottle no cap release, Out-feed jam machine stop, no cap in chute machine stop, Auto feeder on/off system, Safety door open machine stop
- Machine auto on / off system, Machine will start automatically once bottle enter to the in feed conveyor and stop if bottle absence
- **24VDC motor operated gear pump**
- **Individual Servo Motors of Panasonic of 750 Volt Each**
- Real time no bottles no filling
- Precise filling valve for100% spillage/drip free on bottle neck and shoulder
- High filling accuracy: ±1%
- Programmable for multi speed and profile filling cycles
- Designed for easy change-over and cleaning
- Integrated fault light and alarm to inform operator production error
- Individual nozzle fill volume adjustment by HMI
- Synchronized variable speed control
- All contact parts are ss-316/peek/PTFE/Teflon/Silicon and non-contact parts SS 304, MS frame structure with SS cladding
- Lifetime pre lubricated gear motor for Main drive
- Tool less adjustable conveyor guide rails to accommodate with different products
- Fully interlocked guarding for machine protection safety
- Diving Nozzle to reduce bubbling of Foamy Liquid
- Actuator with Cutoff Valve will be there so that there will not be any Dripping and Foaming in our Product
- **300 LITER SS 316 TANK WITH HIGH LEVEL AND LOW LEVEL SENSOR CONNECTED WITH THE MANIFOLD OF FILLING MACHINE AND YOUR MAIN TANK 3 MM Thickness MOC Certificate for the same will be Provided. FLOATY SENSOR FOR HIGH AND LOW LEVEL will be Provided**
- **Non Contact Parts will be of SS 304 MOC Certificate for the same will be Provided**
- **All Gear Box Motor and Motors will be Flame Proof from Romtomotive made in Italy**

A-9, Bileshwar Estate, Opp. Vepari Maha Mandal-Kathwada GIDC, Ahmedabad ,Gujarat -India.
Office Address Is: Block - B , Sf-07, Barcelona Complex Sp - Ring Road Circle, Odhav , Ahmedabad - 382415 Gujarat India.

2	**Model: SBHCS -40SC** **Automatic 1 Head Pick and Place Screw Cap Sealing Machine**	**EACH**	**4,30,000/-**

BASICA MACHINE IS SUITABLE FOR THE SCREW CAPPING WITH PRODUCTION SPEED OF 60 CONTAINER PER MINUTE FROM 100ML TO 1 LITER BOTTLES CAP DIAMETER 25MM TO 45MM CAN BE DONE/HEIGHT FROM 20MM TO 50MM WITH THE HELP OF FEW CHANGE PARTS

Details - Single Head Capping Machine

Specially designed pneumatically operated gripper type pick n place with torque adjustment rotary plastic screw capping machine suitable for screw cap or snap/press fit caps.

Bottles entering the machine are transferred to the turret star wheel where they are placed in the star wheel pockets to precisely align them underneath the capping heads. The rotating head with the cap descends onto the bottle and applies the cap with the desired torque

P&P Capping machine in order to be used for different capping applications such as food & beverages, pharmaceutical, pesticides, distilleries, cosmetic, toiletries, personal care, chemical, oil etc. Machines can often be supplied with cap Elevator.

Technical Specifications

- Electrical Pannel from Schinder France will be Provided for Operation
- Fast product changeovers
- Low power consumption
- Integrated fault light and alarm to inform operator production error
- Accurate and repeatable performance
- All contact parts are SS 316 and Food Grade Delrin (FDA Approved) and Non Contact Parts of SS 304
- Adjustable conveyor guide rails to accommodate with different products
- No bottle no capping system
- Motorized height adjustment of capping heads
- Cap Feeder Auto On/Off system preventing cap damage
- Clutch System in feed worm to avoid bottle damage during operation
- Smooth and accurate container handling
- Machine auto on / off system, it will start automatically once bottle enter to the in feed conveyor and stop if bottle absence
- Fully interlocked guarding for protection safety
- Synchronized variable speed control
- **GEAR BOX MOTOR FLAME PROOF FROM ROTOMOTIVE WILL BE PROVIDED ALONG WITH THE MACHINE**

SCREW CAPPING
NAYLON / DELRING 2 LAYER + 1 SS LAYER
GEAR BOX MOTOR: ROTOMOTIVE
BEARING : SKF OR NACHI
SENSOR: BANNER/ SICK

	WIRING: LAPP / RR CABLES **ELECTRICAL PANNEL: SIEMENS/ MITSHUBHISHI /SCHINDER** **ACRYLIC CABINET (OPTIONAL)** **LENGTH OF CONVEYOR: 6 FEET** **WIDTH OF CONVEYOR: 100MM** **Technical Specification** Number of Heads : 1 Production Rate / Output : 40 bottles/ min. Power Specification 1.0 H.P, 3 Phase, 1400 RPM / 0.125 HP, 3 Phase Overall Dimensions : 1230 mm (L) X 850 mm (W) X 2050 mm (H) Net Weight : 350 Kgs Gross Weight : 450 Kgs. Input Specification : Container Dia. : As per Samples Container Height : As per Samples of your Bottle s Cap Dia. : 28mm Long Neck or as per the Samples of your Bottles		
3	**CAP ELEVATOR WITH HOPPER WITH AUTO LOADING WITH THE HELP OF CHUTE OF CAP WILL BE PROVIDED TO INTEGRATE WITH THE CAPPING MACHINE CAPACITY 1500** **NO CAP IN HOPPER MACHINE STOP SYSTEM**	**EACH**	**1,80,000/-**
5	**CHANGE PARTS IF THE BOTTLE SHAPE CHANGE FOR 250ML / 500ML/ 200ML (12000 X 3)** **INFEED GUIDE / STARWHEEL / OUT FEED GUIDE MOC DELRIN OR TEFLON**	**3 SET**	**36,000/-**
6	The Automatic Vertical Self-Adhesive Bottle Sticker Labeling Machine Model SBSAL-120 This Machine is used for Full / Partial Wrap around Labeling on different size of round containers like Pet Bottle, Plastic Bottle, Glass Bottle, Wine bottle, Vial. This highly Advanced Round Bottle Sticker Labeling Machine incorporates newest refined Servo controlled Label Dispensing system with outstanding sensing system for Label & container. For Container Sensing, it uses special background Suppression Sensor. The distinctive feature of this machine is “No change parts” required for different diameter of containers & adding up to it tool less adjustment in order to adjust various size containers therefore down time is very less. It’s capable of Labeling up to 120 units per minute depending on Container diameter and label size**.** Following Are Some Of The Outstanding Inbuilt Features Of Our Round Bottle Sticker Labeling Machine • Compact & CGMP Model. • Machine Body Is Manufactured Using Matt Finished AISI 304. • Machine Top Plate Is Mild Steel With Superior AISI 304 Cladding.	**EACH**	**4,50,000/-**

A-9, Bileshwar Estate, Opp. Vepari Maha Mandal-Kathwada GIDC, Ahmedabad ,Gujarat -India.
Office Address Is: Block - B , Sf-07, Barcelona Complex Sp - Ring Road Circle, Odhav , Ahmedabad - 382415 Gujarat India.

+91 962 405 5188,+91 972 459 3425,+91 990 480 9926.

- Meticulously Designed Superior Slider Label Applicator For Better Label Alignment In Both Vertical And Horizontal Direction.
- Specially Designed Reel Mechanism To Place Label Roll.
- Breaking Assembly To Avoid Variation During Releasing Of Roll.
- No Change Parts Required Either For Change In Round Bottle As Well As Label Sizes.
- Tool Less Guide Rails For Easy Adjustment.
- Wrap Around Mechanism To Wrap The Label On Container.
- Product Conveyor Is Made Using Special Delrin Material.
- Inbuilt Auto Label Length Detection.
- Accurate Label Dispensing.
- 100% Non-Proprietary Electronics & All Electronics CE Certified.
- Practically A Maintenance Free Machine.
- Superior Ergonomic Finish Of Machine.
- Provision For All Type Of Online Batch Coding Like Ink Coder, Cassette Coder, Hot Foil Coder, SS Metal Stereo Box For Printing, Thermal Inkjet Printer.

AN ISO 9001 - 2008 CERTIFIED COMPANY.
SB MACHINES

TECHNICAL SPECIFICATION

Machine Operating Direction	Left To Right
Speed	Up To 120 Container / Min Depending Upon The Diameter Of Round Container & Label Length.
Type Of Labelling	• Wrap Around Labelling, • Partial Wrap Labelling.
Container Suitability For Labelling	• Vial Labeling • Round Glass Bottle Labeling • Round Plastic Bottle Labeling • Pet Bottle Labeling
Label Height	10 Mm To 160 Mm
Label Length	12 Mm To Unlimited
Gap Between Two Labels	Min. 5 Mm
Label Roll Dia.	300 Mm Max. Ø
Label Core Dia.	75 Mm To 76 Mm Ø
Container Diameter	20 Mm To 90 Mm Ø
Power Consumption	1 KW

ANNEXURE III
TERMS AND CONDITIONS

Prices mentioned in the quotation above are ex works GUJARAT, AHMEDABAD and are exclusive of all applicable taxes, GST, packing forwarding, insurance, loading, unloading charges or any other charges not mentioned in the offer. The prices also do not include cost of spares.

VALIDITY OF OFFER

10 Days from the date of the quotation. Thereafter subject to confirmation from our end.

PAYMENT

40% ADVANCE ALONG WITH PO ORDER / 55% BASICA AND 100% TAXES & DUTIES AGAINST THE DISPATCH AND 5% AGAINST THE SUCESSFUL INSTALLATION AND COMMISSIONING AT YOUR SITE

OUR BANK DETAILS
COMPANY NAME: SB MACHINES
BANK NAME: ICICI BANK

www.sbmachines.in

The machines are under warranty for any design manufacturing defects for a period of 18 months from the date of dispatch or a period of 12 months from the date of commissioning, whichever is earlier.

INSTALLATION

The machine has to be unloaded and placed in working position before our engineer visits the site. Proper Electrical, Civil, and Piping connections should also be completed prior to commissioning schedule.

COMMISSIONING

We will depute our Engineer at Baddi at your Site for Installation and Commssioning of the Machinery for 3 Days for Installation / Commssioning and Training to your Operator

Hotel and Accomodation in your scope
