HUMAN RESOURCE

Human resource management (HRM) is the strategic and systematic approach to managing a company's employees to help them achieve organizational goals. It involves a wide range of activities, including recruiting, hiring, training, compensating, and retaining employees, as well as developing and implementing policies related to their well-being, safety, and compliance with labor laws.

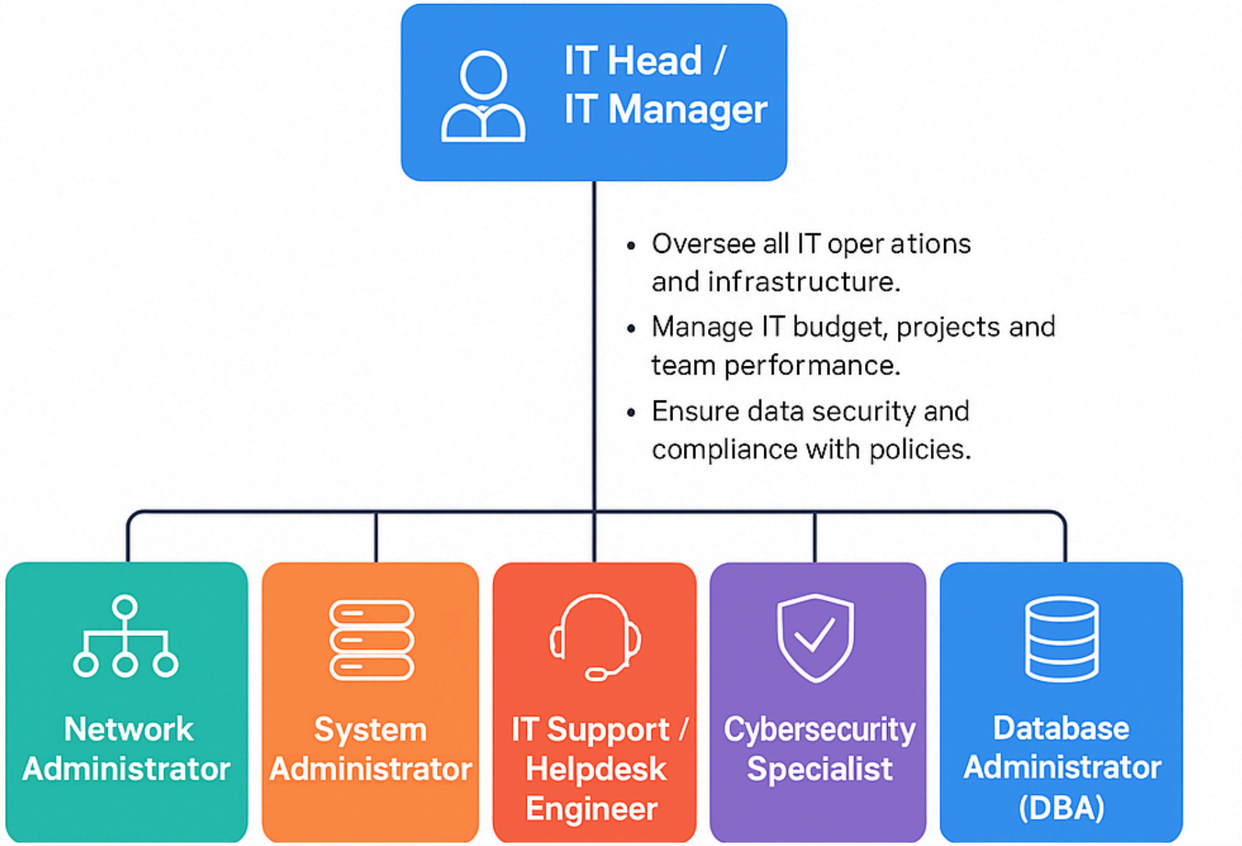

Accounts & Finances

It ensures proper accounting records, compliance with statutory regulations, and supports decision-making through financial reporting.

It & Admin

The IT & Administration Department ensures smooth business operations by managing infrastructure, technology systems, and administrative support.

Marketing

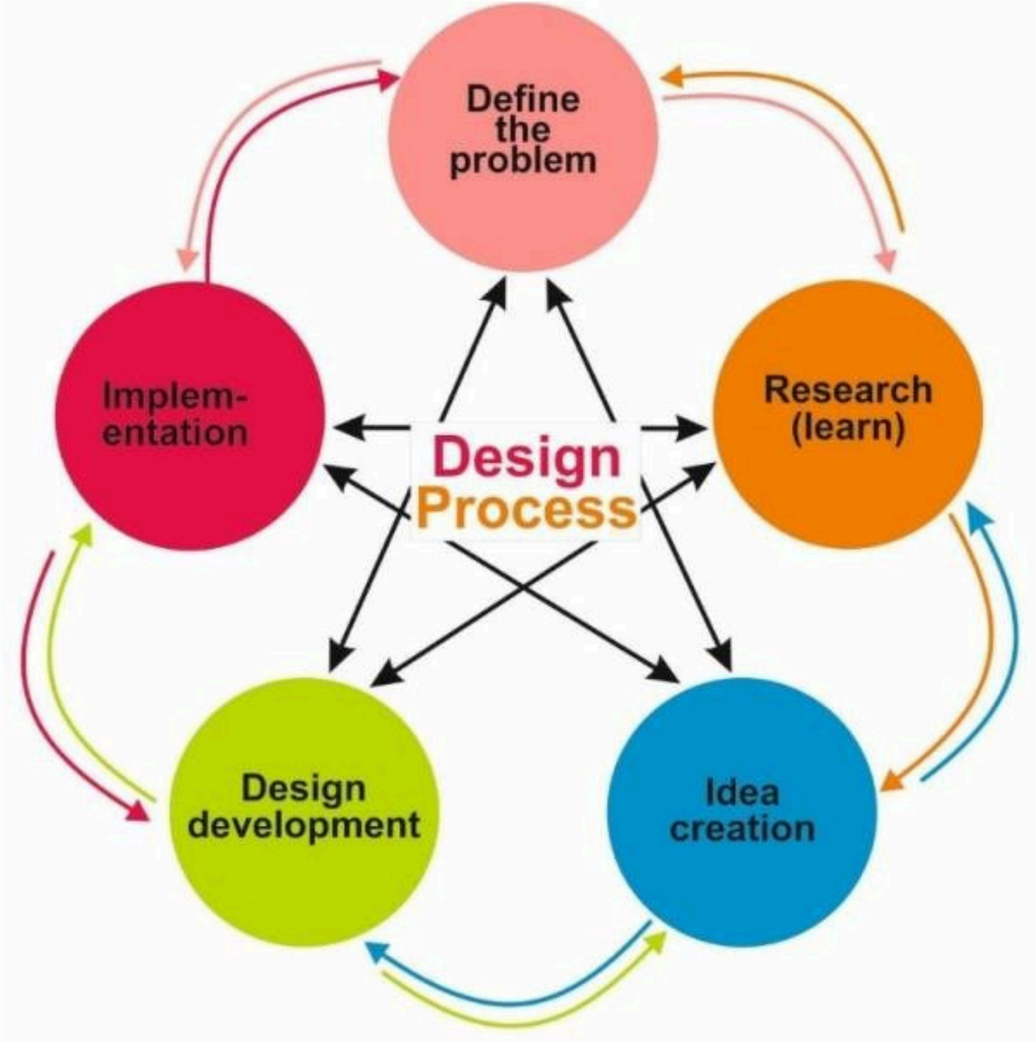

The Marketing Department is responsible for promoting the company’s products and services, creating brand awareness, and supporting sales growth through strategic planning and communication activities.

WE MAKE POSSIBLE

Graphic Design

The Graphic Design Department is responsible for creating visual content that supports company branding, marketing, and communication goals.

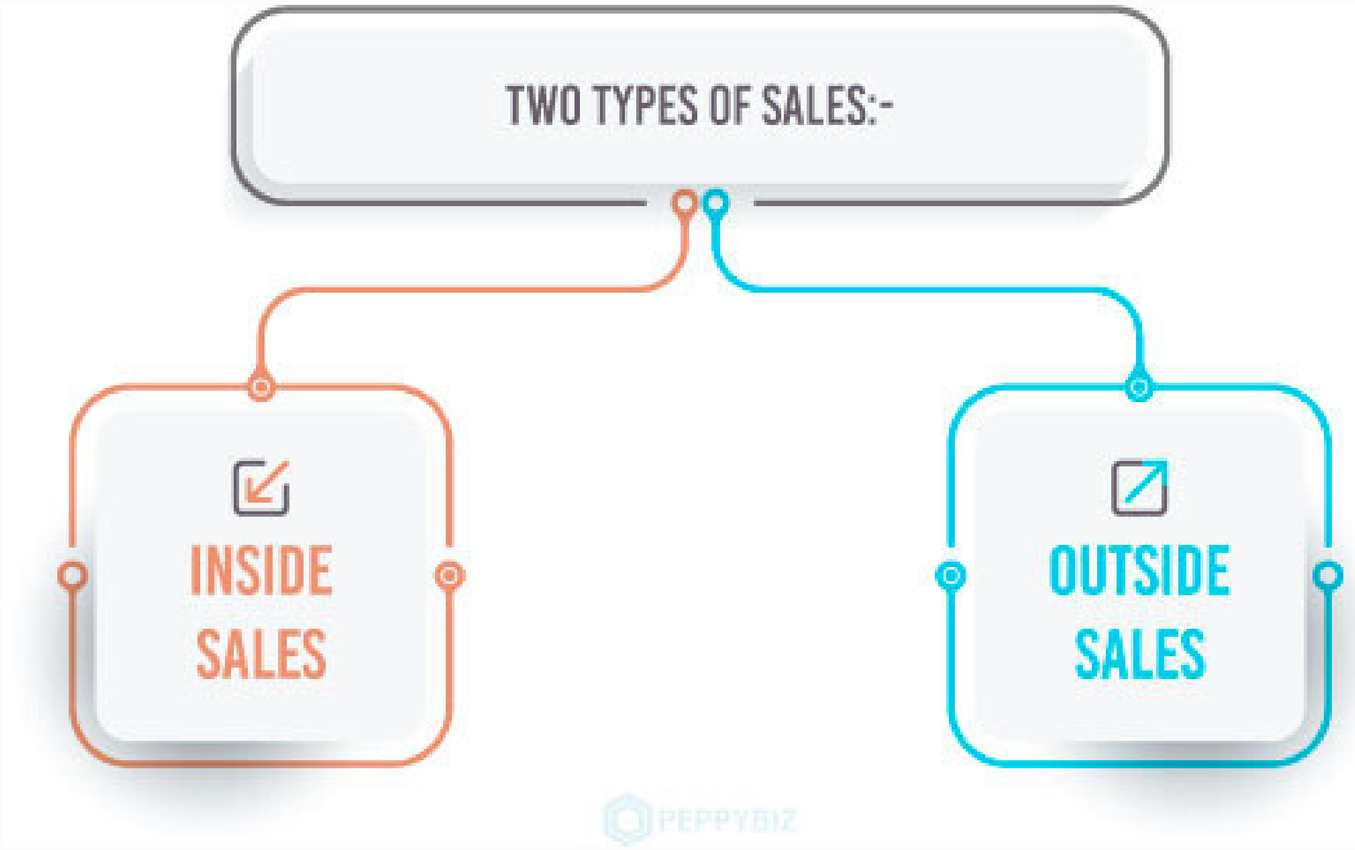

Inside sales

Inside sales is the process of selling products or services remotely from an office or home, rather than meeting clients in person.

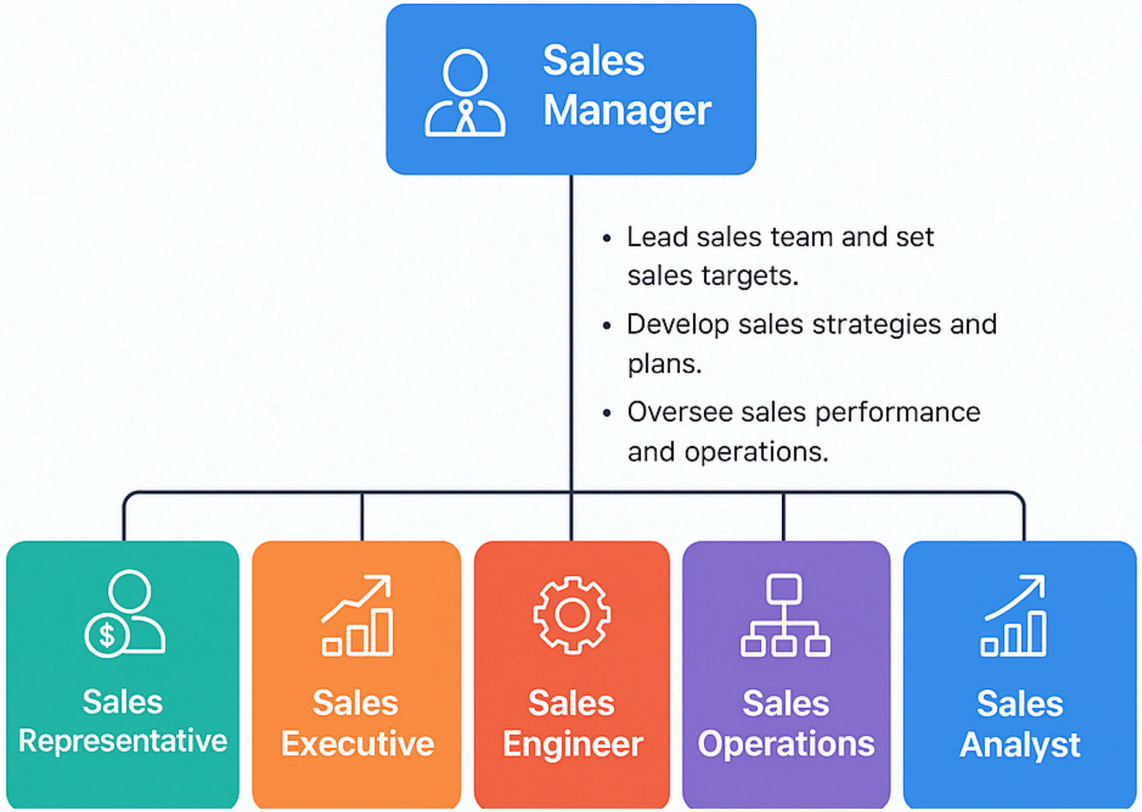

Outside sales

Outside sales, also known as field sales, is a sales method where representatives travel to meet clients in person to build relationships and make sales.

Sales

The Sales Department plays a crucial role in driving the company's revenue and ensuring sustainable growth. It is responsible for understanding customer needs, presenting suitable solutions, and maintaining strong client relationships to achieve business objectives.

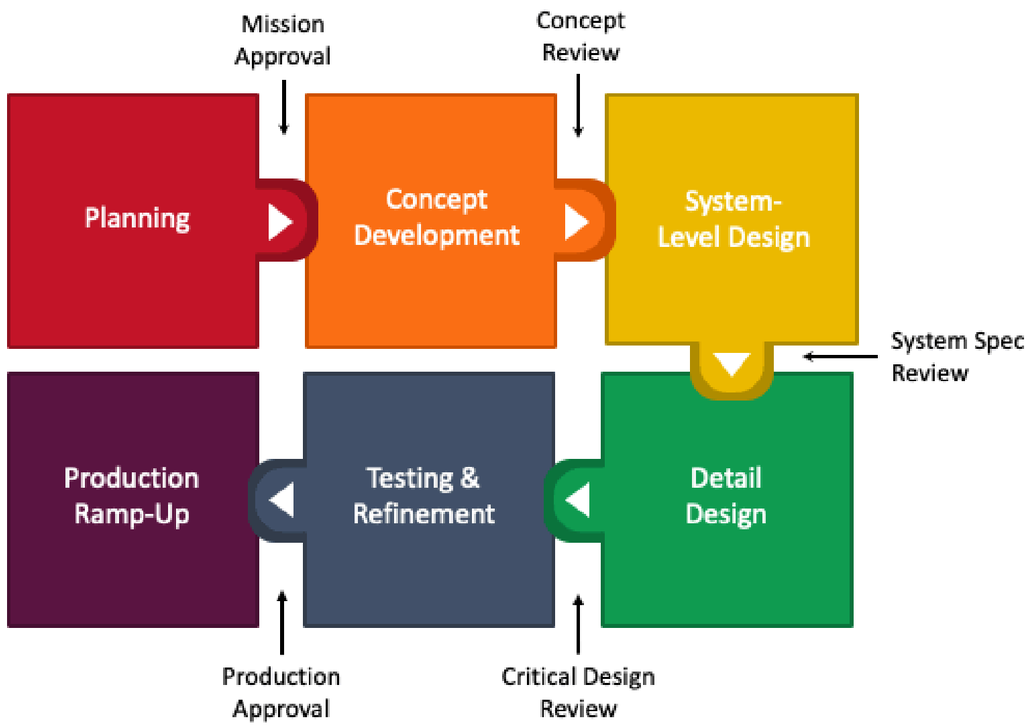

Project Management

Maintain alignment between client requirements, design, procurement, and installation teams.

Design

Our focus is on innovation, accuracy, and efficiency in developing product designs and solutions for client requirements.

Purchase

Focuses on cost-effectiveness, vendor management, and maintaining supply chain efficiency.

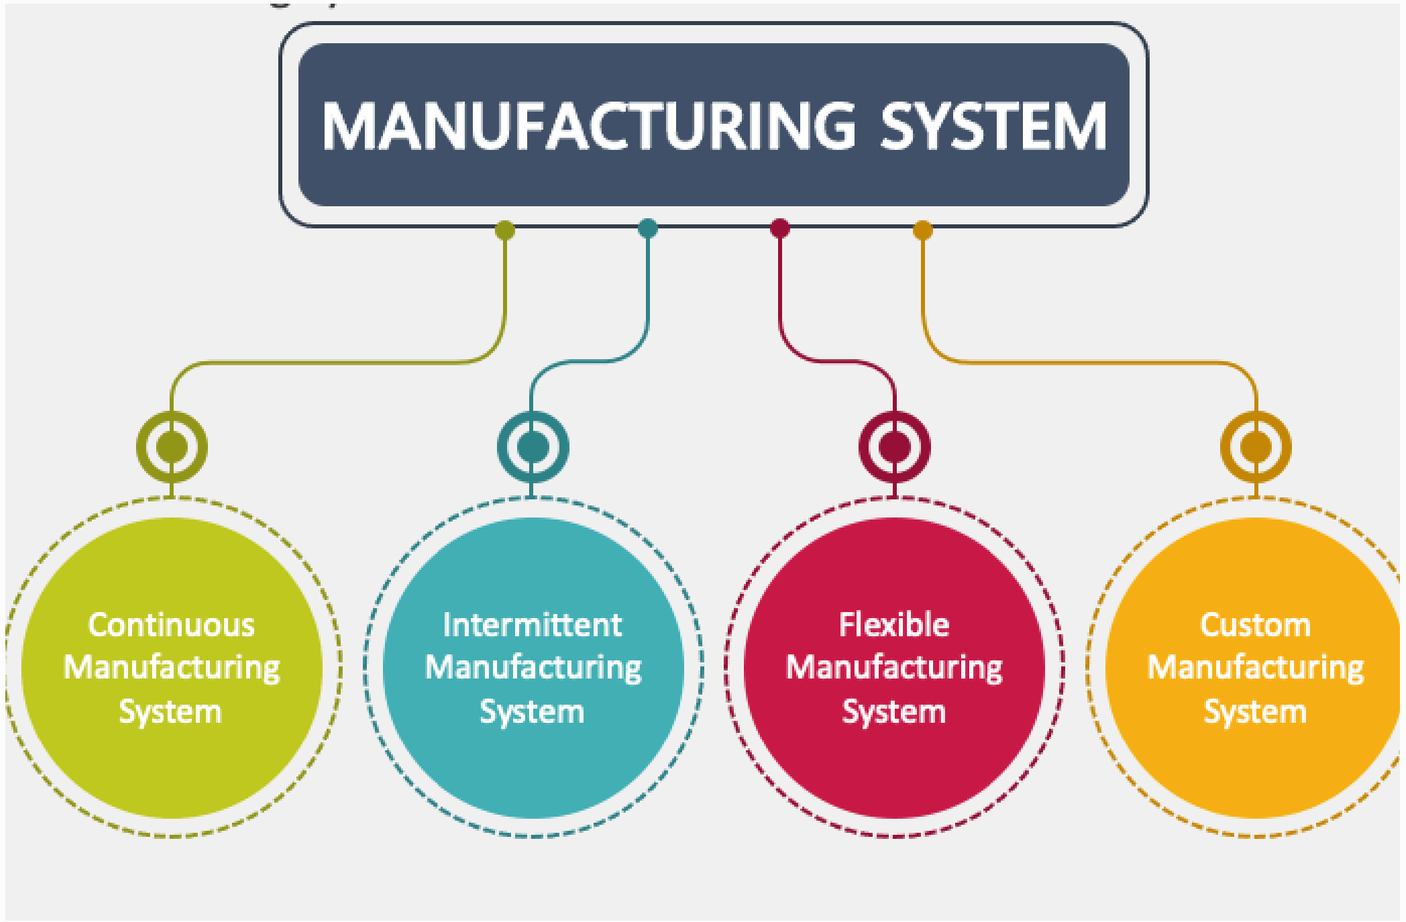

Store & Material Management

A storeperson is responsible for managing inventory in a warehouse or store, including receiving, storing, and dispatching goods. Key duties involve unloading and checking deliveries, stocking shelves, picking and packing orders, performing stocktakes, and maintaining warehouse cleanliness.

Manufacturing

To ensure efficient production of high-quality products through optimized processes, resource utilization, and adherence to safety and quality standards.

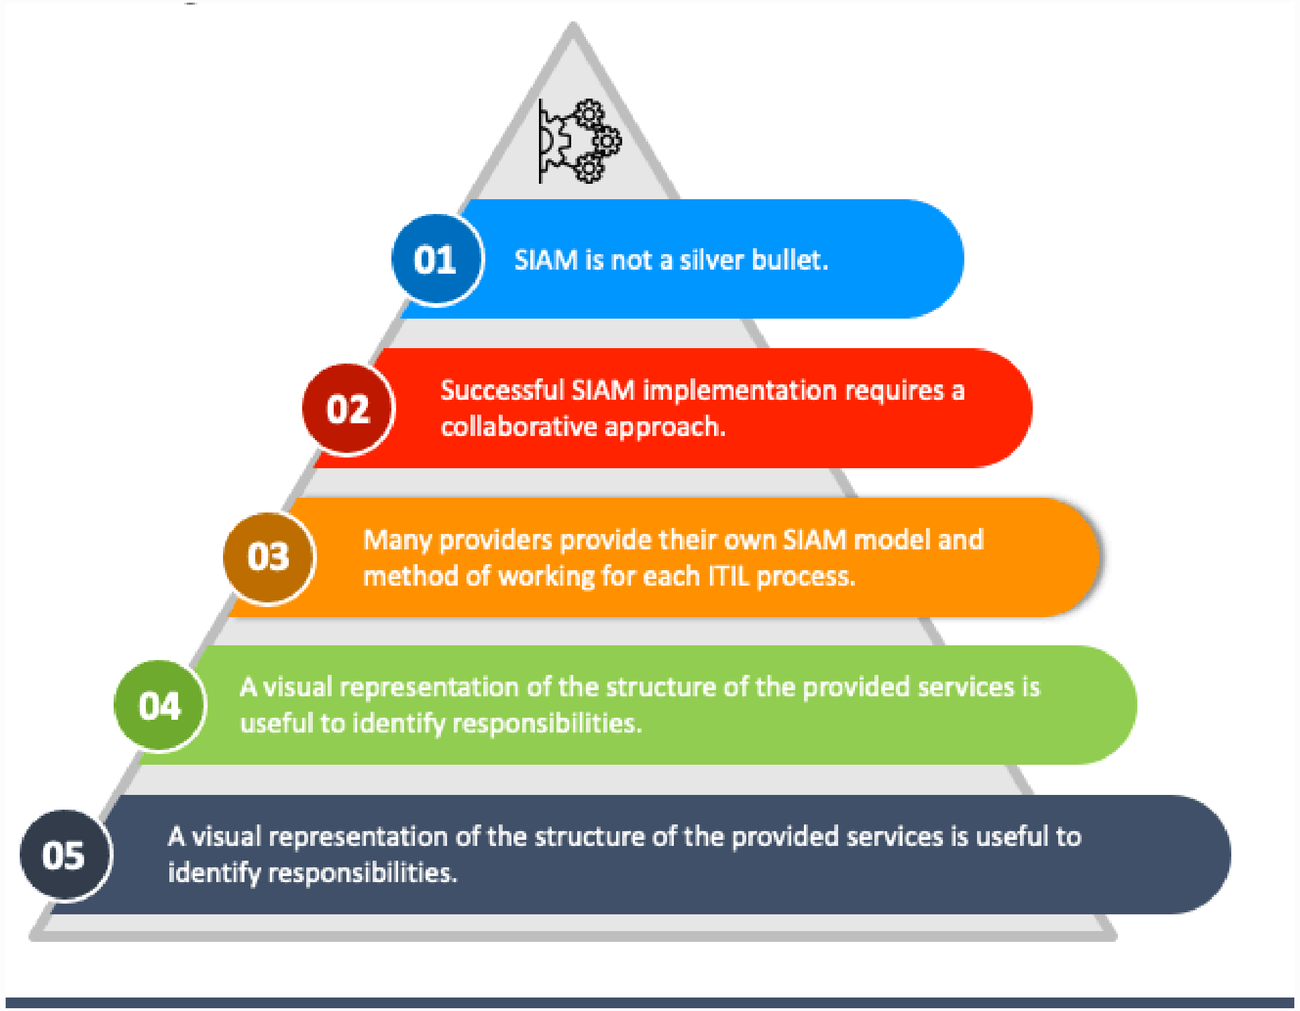

Installation & Commissioning

Responsible for installing, testing, and commissioning products as per technical and safety standards.

Services

The Services Department plays a crucial role in providing after-sales support, installation, maintenance, and technical assistance to ensure customer satisfaction.

Code Of Conduct
