Introduction of Retractable Roof

About Retractable Roof

Retractable Roof is kind of new innovation done by NIHVA for Bungalows, Hotels, Hospital, Villas, Apartments, commercial complex, Offices, where we can add more glory by allowing partial sunlight to enter in premises at day and start sky view at nights. Roofs are operated in many ways you like Folding Roof, sliding roof, telescopic roof, single sided, double sided, vertical lift, inclined lift and etc.

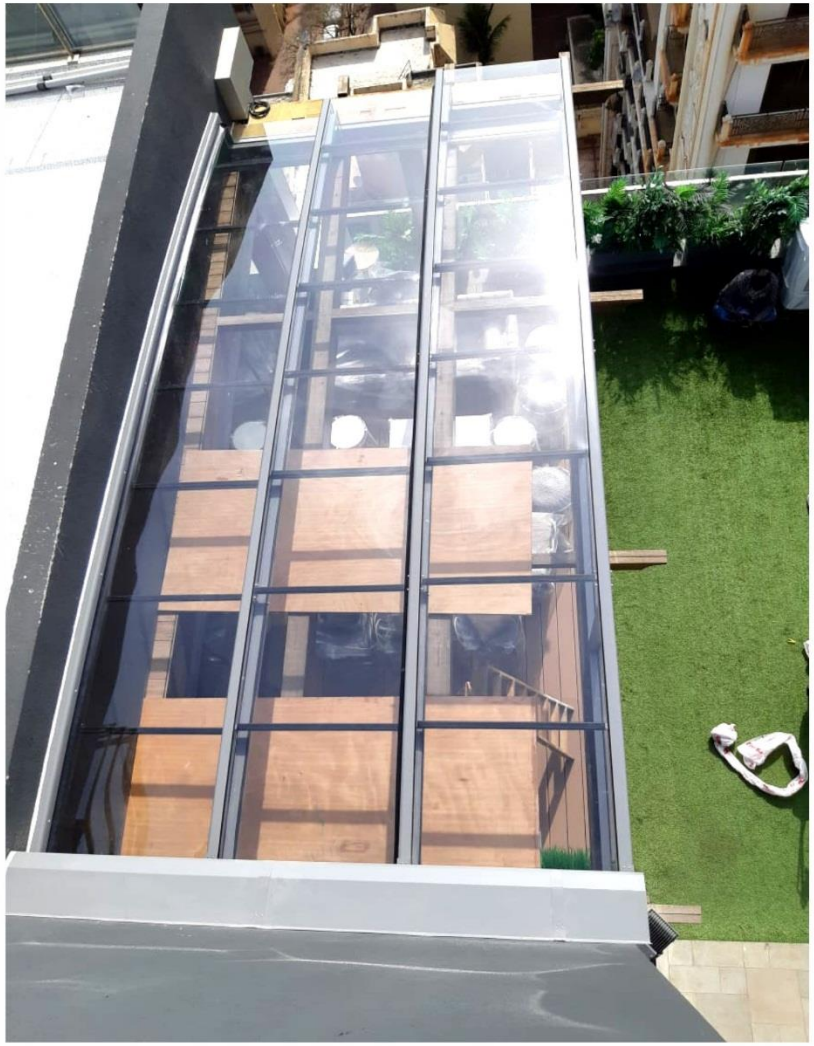

USP

- Non-Corrosive materials like Aluminium Alloy Profiles, Stainless Steel Fasteners, Rubber sealing and Polycarbonate Sheet Fillings.
- Complete Enclosure with doors, Locking systems, Rubber seals, etc. Lightweight solution for Terraces, Roofing systems, Pools, Balconies, Patios, Smoking Zones and a lot more applications.
- Completely Water proof and can be Air Conditioned if the area is enclosed.
- It can be easily Re-Located within a short time by our trained technical personal.
- No need of any license from municipal authorities for terrace Roofing's since it's completely retractable.

About Retractable Roof

NIHVA

Retractable roofing system is used in patio area where it can be utilized during all seasons. These outdoor living structures can be either freestanding or attached to a building and have elements such as columns, beams. Retractable Roof are used for shading, creating an outdoor living space, enhancing any outdoor structure with an impressive aesthetic appeal, and even create an extension to an indoor room.

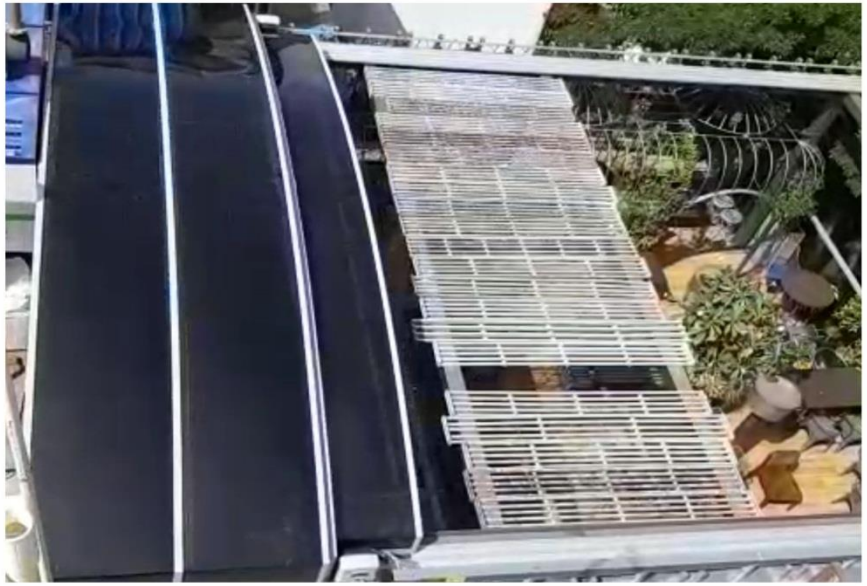

About Retractable Roof

NIHVA

It’s a restaurant/pub in Bangalore. Its garden area is enclosed with a retractable roof that allows patrons to feel like they are outside while they are dining, even when it isn’t open. Installing the roof has allowed owner to have the benefits of a rooftop deck during the summer and extra seating during the winter With our retractable enclosures, the restaurant will not lose business on outdoor restaurant seating.

About Retractable Roof

NIHVA

Retractable roof systems allow medium to large areas terraces to be covered at the touch of a button meaning they can be used all year round – whatever the weather.It consistently reflect the changing style of contemporary design and combine it with the latest technology to create an excellent Retractable Roof or Canopy that will suit any lifestyle and their aesthetic appeal our team of experts are able to design, plan, install and maintain your Retractable Roof system which allows you to sit back and relax whilst we take care of the entire process.

About Retractable Roof

NIHVA

Advantages

NIHVA

Fast and easy installation takes a couple of days to a week to install depending on the size.

Water Proof covering & can be Air Conditioned too.

Light Weight, Easy and soundless movement.

Safety is the biggest plus point while using light weight but strong Retractable Roof.

Once Fixed, forget for a couple of decades. Minimum wear and tear parts.

Easy maintenance and Easy cleaning of the Roofs, Fun to use, while serving the purpose.

It matches to the indoor decorating scheme allowing the décor to flow seamlessly from one space to the next.

We are dedicated to attain customer satisfaction to strengthen the bond between the organization and customers.

Aesthetically stylish covering & once a particular area is decided to be covered, A retractable enclosure has many advantages compared to fixed structures made of glass or any other material.

Thank You !
